# TRIBUNE ALMANAC FOR 1874

## Astronomical Department.

Computed and arranged expressly for this Work, by SAMUEL H. WRIGHT, A. M., M. D., Penn Yan, Yates County, N. Y.

Entered according to Act of Congress, in the year 1873, by THE TRIBUNE ASSOCIATION, in the Office of the Librarian of Congress, at Washington.

## ECLIPSES.

There will be four eclipses and a transit of Venus this year, as follows:  
 I. A Total Eclipse of the Sun, April 15. Invisible in North America.  
 II. A Partial Eclipse of the Moon, May 1. Invisible in the United States.  
 III. An Annular Eclipse of the Sun, October 10. Invisible in America.  
 IV. A Total Eclipse of the Moon, October 21, in the evening, and morning of the 22d. Visible throughout America. See the following table.

Mercury, February 27, January 23, and October 21, setting then after the Sun; also April 18, August 15, and December 5, rising then before the Sun. Venus, November 2. Mars, not this year. Jupiter, March 17. Saturn, August 3.

## New and Valuable Tide Table for 110 Places.

To find the time of high-water at any of the places named in the following table, add the time indicated in the first column of figures to the time of "Moon South," or "Moon on Meridian," found in the calendar pages. If the result is more than 12 hours from noon, the time will be the next day in the morning; and if more than 12 hours from midnight, the time will be in the afternoon of the same day. The tide thus found is the first after the Moon's culmination. The second tide occurs 12 hours and 26 minutes later than the first.

## To Get Correct Time.

When the shadow cast by the Sun reaches the noon-mark, set the clock at the time given in calendar pages of this Almanac, in the column of "Sun at Noon-mark," and it will be exactly right. If a meridian line is used instead of a noon-mark, the passing the lines by the Sun's center is the moment for setting the clock. Any skillful surveyor can make a noon-mark or meridian lines of small brass or copper wires. In doing so, he must allow for the variation of the magnetic needle from a true or astronomical north and south line.

## A Table of Sixty-one Bright Stars.

To ascertain when any Star found in the following Table will be on the *upper meridian*, add the numbers opposite in the left-hand column of figures to the time of "*Sidereal Noon*" found in the calendar pages. For the *rising* of a star, *subtract* the number opposite in the right-hand column of figures from its meridian passage. For the *setting* of a star, *add* the same number to its meridian passage. Those marked (....) revolve in a circle of perpetual apparition, and do not rise nor set north of the latitude of New York ( $40^{\circ} 42' 40''$ ), for which latitude the semi-diurnal arcs are calculated. The civil day begins at midnight, and consequently 24 hours after midnight, or 12 hours from noon, is *morning* of the succeeding day; and more than 24 hours from noon, is *evening* of the next day. From 12h. to 24h. from midnight, or from 0h. to 12h. from noon, will be in the afternoon of the same day. This table is arranged in the order of culmination.

**Surveyors and Civil Engineers** may obtain the declination of the magnetic needle by observations on the Pole Star when upon the meridian, or when at the greatest elongation east or west. POLARIS and other stars pass the *lower meridian* 11h. 58m. after their upper transit. To the time of upper transit of Polaris, add 5h. 54m. and it gives the time of greatest *western* elongation. If the 5h. 54m. be subtracted from the time of upper transit, it will give the time of greatest *eastern* elongation. Observations made at the time of greatest elongation are *less* liable to error than those made at the time of transit: The mean distance of Polaris from the pole this year is  $1^{\circ} 21' 45.24''$ . To find its azimuth for any latitude, take from 18.8761941 the logarithmic cosine of the latitude, and the remainder is the logarithmic sine of the azimuth.

NOTE.—In the table above it is to be understood that the word "near" and the character  $\odot$  (conjunction) are synonymous, and mean that the two bodies are *nearer* each other at the time expressed, and that they are then on a line running from the North Pole through both bodies, and have the same *right ascension*. GR. ELON. means greatest elongation or greatest apparent angular distance from the Sun. STATIONARY means that the planet is then without apparent motion east or west with respect to the Stars, and is about to move in a direction contrary to that it last had. The character  $\mathcal{J}$  indicates that the planet is opposite the Sun, or 180 deg., or a half circle, east of it, and rises when the Sun sets, and sets when he rises. When a planet is a quarter of a circle, or 90 deg. from the Sun, east or west, it is known by  $\square$ .

PLANETARY CHARACTERS.— $\mathcal{M}$  Mercury,  $\mathcal{V}$  Venus,  $\mathcal{J}$  Mars,  $\mathcal{U}$  Jupiter,  $\mathcal{S}$  Saturn,  $\mathcal{H}$  Uranus,  $\mathcal{N}$  Neptune,  $\odot$  Moon.

The above table enables us to find the planets throughout the year.

## To ascertain the Length of the Day and Night,

at any time of the year, add 12 hours to the time of the Sun's setting, and from the sum subtract the time of rising, for the *length of the day*. Subtract the time of setting from 12 hours, and to the remainder add the time of rising next morning, for the *length of the night*. These rules are equally true for *apparent* time.

Leap-Year.—Every year the number of which is divisible by 4 without a remainder is a leap-year, except the last year of the century, which is a leap-year only when divisible by 400 without a remainder. Thus the year 1900 will not be a leap-year.

## The Asteroids.

About 119 little planets, called Asteroids, have been discovered between the orbits of Mars and Jupiter. Some of them are so small that to call them *worlds* might seem inappropriate. But any body having an *orbit*, though not larger than a cannon-ball, is entitled to rank as a world. Many such may exist which will never be discovered because of their littleness. Very little asteroidal bodies are revolving around the earth, as the moon does. The aerolites, or falling stones, are really such asteroids whose orbits cross the earth's orbit, or else wind spirally inward to the earth as a center.

**"THE CLOTHING TRADE OF NEW YORK CITY."**

Among the many business houses of this city, there is none more worthy the notice or patronage of an appreciating public than the well-known firm of **TRAPHAGEN, HUNTER & CO., Nos. 398, 400 & 402 Bowery**, junction of Third and Fourth Avenues, and nearly opposite the Seventh Regiment Armory.

Their immense establishment, consisting of three five-story buildings, devoted exclusively to the manufacture and sale of **Gentlemen's, Youths' and Children's Clothing**, is one of the largest in the city.

5 The business of the above firm is conducted on the **One Price Cash System**, and the Goods offered by them are unsurpassed in point of style, quality, &c. All their goods are marked in plain figures, the prices of which are far below Broadway rates.

For a funeral notice the following is not bad:

The death-angel smote Alexander McGlue,  
And gave him protracted repose;  
He wore a checked shirt and a number nine shoe  
And he had a pink wart on his nose.

No doubt he is happier dwelling in space  
Over there on the evergreen shore:  
His friends are informed that his funeral  
takes place  
Precisely at quarter past four!

The witty George W. Barton, of Philadelphia, was an eminent lawyer who had served a term upon the bench. Trying a case one day before a judge who was chiefly remarkable for obtuseness, he incidentally and audaciously remarked that he had often seen a great ass in judicial robes. "You speak from experience, I suppose," was the angry retort. "Not at all," replied Barton; "I am speaking directly from observation."

A GENTLEMAN may be defined as a man of unimpeachable honor and gallantry, dignified carriage, spotless reputation, a high mind and liberal views.

## ASBESTOS ROOFING.

H. W. JOHNS' PATENT ASBESTOS ROOFING was justly awarded the highest Premium (Medal) by the AMERICAN INSTITUTE in 1870, 1871, 1872, and 1873.

It has a larger sale than any other portable or composition Roofing in use, and is shipped to nearly all parts of the world. It is adapted for all climates, and can be readily applied by any one. See page 106 at end of this book.

STEPHEN GIRARD'S will prohibited clergymen from ever entering the doors of Girard College. At a recent visit of the Knights Templar of Boston to the Institution, one of the Knights, a well known physician, who wears a white necktie, was passing in, when the janitor accosted him, saying: "You can't pass in here, sir; the rule forbids it." "The h—I I can't," replied the physician. "All right, sir," rejoined the janitor; "pass right in."

THE following dialogue occurred in the Faubourg St. Honore, Paris, between a patriarchal gentleman and his granddaughter: "What makes your hair so white, grandpa?" inquired the maiden. "I am very old, my dear; I was in the ark," says grandpa, humorously, but with a reckless regard for truth. "Oh," says the child, regarding her relative with a fresh interest, "are you Noah?" "No, I am not Noah." "Are you Shem, then?" "No, I am not Shem." "Are you Ham?" "No, I am not even Ham." "Then you

must be Japhet," says mademoiselle, at the end of her historical tether, and growing rather impatient at the difficulty that surrounded her aged relative's identification. "No, I am not Japhet." "Then, grandpa, you're a beast."

A MAN with a pistol bullet in his left side, an inch above his heart, a six-inch cut on his head, and a fractured leg, called at a Bangor doctor's office to get fixed up, the other morning. He said they had been having some fun "over at a house."

We have somewhere met with the following, which is more in the style of word-twisting of our modern burlesque writers. It is on the bankruptcy of a person of the name of Homer:

That Homer should a bankrupt be,  
Is not so very Odd, D'y-e See,  
If it be true, as I'm instructed,  
So ill-he-had his books conducted.

THE DONKEY AND HIS DOUBLE.—Judge Norbury was interrupted in his charge to a jury once by the loud braying of a donkey in the street of the assize town.

"What is that?" asked his lordship.

Mr. Parsons (with whom his lordship had just had a fiery flare-up) rose and gravely assured him that it was merely the "echo of the court."

SOME years ago, a fat fellow asked Sir Francis Burdett, while in Parliament, for some position, saying, "Don't you remember me? I used to be a page." "Well," responded Sir Francis; "you have grown into a volume."

A WESTERN editor says he saw a beautiful maiden in the street, the other day, "who had what seemed to be a stake and rider fence of lace around her sloping neck so high she was compelled to tip-toe in order to see over it." Is not this rather ruff?

A SCOTTISH clergyman, says the *Saturday Review*, quoted a text of Scripture in his prayer, and added for the instruction of his audience, "For that, O Lord! is the correct translation of the passage."

A SEA captain, who was invited to confer with a society for evangelizing Africa, was asked if the subjects of the King of Dahomy kept the Sabbath. "Yes," was the reply, "and everything else they lay hands on."

AN old gentleman of the name of Gould, having married a very young wife, wrote a poetical epistle to a friend to inform him of it, and concluded it thus:

- You see, my dear sir, though I'm eighty years old,  
A girl of eighteen is in love with old Gould.

To which his friend replied:

A girl of eighteen may love Gould, it is true;  
But believe me, dear sir, it is Gould, without U!

A PRIVATE in the army recently sent a letter to his sweetheart, closing with "May Heaven cherish and keep you from yours truly, John Smith."

PUNNING upon names in epitaphs has been common enough. Here is a specimen:

Who killed Kildare? Who dared Kildare to kill?  
Death killed Kildare, who dares kill whom he will.

A CHIROPODIST announces on his cards that he has "removed corns from several of the crowned heads of Europe."

## EPITAPH.

God takes the good,  
Too good on earth to stay;  
And leaves the bad,  
Too bad to take away.

"This is a funny cheese, Uncle Joe; but where shall I cut it?" "Oh," said the grinning friend, "cut it where you like." "Very well, said the Yankee, coolly putting it under his arm, "I'll cut it at home."

"There now," exclaimed a little girl, while rummaging a drawer in the bureau; "grandpa has gone to heaven without his spectacles!"

## ASBESTOS ROOFING.

H. W. JOHN'S PATENT ASBESTOS ROOFING is now universally acknowledged to be the best substitute yet produced for tin and other expensive kinds of Roofing. It is suitable for all climates, and can be easily applied by any one.

The Tribune Buildings have been covered several years with this Roofing, which has proven entirely satisfactory—*Eds. N. Y. Tribune.*

See page at end of this book, 106.

On being told that Bishop Goodenough was appointed to preach before the House of Lords, a wag wrote:—

'Tis well enough that Goodenough  
Before the Lords should preach;  
For sure enough they're bad enough  
He undertakes to teach.

When Goodenough was made a bishop, a certain dignitary, whom the public had expected would get the appointment, being asked by a friend how he came not to be the new bishop, replied: "Because I was not Goodenough."

Moon Apogee, 11th; Perigee, 25th; Highest, 2d and 29th; Lowest, 16th.

A young lady in Titusville, Pa., "whose pa had struck it," and who has since been at a boarding school, recently returned, and a party was given by her in honor of the event. On the bottom of her invitation cards she caused to be inscribed, "R. S. V. P.," and one was sent to a fellow who had also made his money by boring. He did not come, but sent a card with the letters, "D. S. C. C." Meeting him one day in the street, she asked him

what the letters meant? "Tell me, first, what your's meant?" "Oh! mine was French for 'Respond if you can't accept.'" "Well, mine was English for 'Dam sorry I can't come.'"

A MARRIED lady being asked to waltz, gave the following sensible and appropriate answer: "No, I thank you, sir; I have hugging enough at home."

Moon Apogee 7th; Perigee, 22d; Highest, 25th; Lowest, 12th.

PLEASURE is to woman what the sun is to the flower. If moderately enjoyed it beautifies, it refreshes, and it improves; if immoderately, it withers, desolates, and destroys. But the duties of domestic life, exercised, as they must be, in retirement, and calling forth all the sensibilities of a woman, are, perhaps, as necessary to the full development of her charms, as the shade and the shower are to the rose, confirming its beauty and increasing its fragrance.

If we are cheerful and contented, all nature smiles with us; the air seems more balmy, the sky more clear, the ground has a brighter green, the trees have a richer foliage, the flowers a more fragrant smell, the birds sing more sweetly, and the sun, moon and stars all appear more beautiful.

ONE of the most important rules of the science of manners is an almost absolute silence in regard to yourself.

When Curran and Bully Egan met on the field of mortal combat, the latter complained of the advantage his antagonist had over him, declaring that he was as easily hit as a turf stack while as to firing at Curran he might as well fire at a razor's edge. Whereupon Curran waggishly proposed that his size should be chalked out upon Egan's side, and that every shot which hit outside that mark should go for nothing.

The story of Dr. Mountain and the witty Charles II. is strongly characteristic of the times. A bishopric being vacant, Charles happened to ask his chaplain, Dr. Mountain, whom he should appoint. "Why, sire," says the latter, "if your majesty had but faith I would tell you whom." "How so," said the king, "if I had but faith?" "Why, in that case, your Majesty might say to this Mountain, Be thou removed into the sea."

## CONSTITUTION.

We, the People of the United States, in order to form a more perfect union, establish justice, insure domestic tranquillity, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution for the United States of America.

### ARTICLE I.

#### SECTION 1.

1. All legislative powers herein granted, shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

#### SECTION 2.

1. The House of Representatives shall be composed of members chosen every second year by the people of the several states; and the electors in each state shall have the qualifications requisite for electors of the most numerous branch of the state Legislature.

2. No person shall be a representative who shall not have attained to the age of twenty-five years, and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that state in which he shall be chosen.

3. Representatives and direct taxes shall be apportioned among the several states which may be included within this Union, according to their respective numbers, which shall be determined by adding to the whole number of free persons, including those bound to service for a term of years, and excluding Indians not taxed, three-fifths of all other persons. The actual enumeration shall be made within three years after the first meeting of the Congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of representatives shall not exceed one for every thirty thousand, but each state shall have at least one representative; and until such enumeration shall be made, the State of New Hampshire shall be entitled to choose three; Massachusetts eight; Rhode Island and Providence Plantations one; Connecticut five; New York six; New Jersey four; Pennsylvania eight; Delaware one; Maryland six; Virginia ten; North Carolina five; South Carolina five; and Georgia three.

4. When vacancies happen in the representation from any state, the executive authority thereof shall issue writs of election to fill such vacancies.

5. The House of Representatives shall choose their speaker and other officers, and shall have the sole power of impeachment.

## SECTION 3.

1. The Senate of the United States shall be composed of two Senators from each state, chosen by the legislature thereof, for six years; and each senator shall have one vote.

2. Immediately after they shall be assembled in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and of the third class at the expiration of the sixth year, so that one-third may be chosen every second year; and if vacancies happen, by resignation or otherwise, during the recess of the legislature of any State, the executive thereof may make temporary appointments until the next meeting of the legislature, which shall then fill such vacancies.

3. No person shall be a senator who shall not have attained the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that state for which he shall be chosen.

4. The Vice-President of the United States shall be President of the Senate, but shall have no vote unless they be equally divided.

5. The Senate shall choose their other officers, and also a president *pro tempore* in the absence of the Vice-President, or when he shall exercise the office of President of the United States.

6. The Senate shall have the sole power to try all impeachments. When sitting for that purpose, they shall be on oath or affirmation. When the President of the United States is tried, the Chief Justice shall preside; and no person shall be convicted without the concurrence of two-thirds of the members present.

7. Judgment in cases of impeachment shall not extend further than to removal from office, and disqualification to hold and enjoy any office of honor, trust or profit under the United States; but the party convicted shall, nevertheless, be liable and subject to indictment, trial, judgment and punishment, according to law.

## SECTION 4.

1. The times, places and manner of holding elections for senators and representatives shall be prescribed in each state by the legislature thereof; but the Congress may at any time by law make or alter such regulations, except as to the place of choosing senators.

2. The Congress shall assemble at least once in every year; and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day.

## SECTION 5.

1. Each house shall be the judge of the elections, returns and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members, in such manner and under such penalties as each house may provide.

2. Each house may determine the rules of its proceedings, punish its members for disorderly behavior, and, with the concurrence of two-thirds, expel a member.

3. Each house shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may in their judgment require secrecy; and the yeas and nays of the members of either house on any question, shall, at the desire of one-fifth of those present, be entered on the journal.

4. Neither house, during the session of Congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two houses shall be sitting.

## SECTION 6.

1. The senators and representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the treasury of

the United States. They shall, in all cases except treason, felony, and breach of the peace, be privileged from arrest during their attendance at the session of their respective houses, and in going to and returning from the same; and for any speech or debate in either house they shall not be questioned in any other place.

2. No senator or representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States, which shall have been created, or the emoluments whereof shall have been increased during such time; and no person holding any office under the United States shall be a member of either house during his continuance in office.

## SECTION 7.

1. All bills for raising revenue shall originate in the house of representatives; but the senate may propose or concur with amendments as on other bills.

2. Every bill which shall have passed the house of representatives and the senate, shall, before it becomes a law, be presented to the President of the United States; if he approve, he shall sign it; but if not, he shall return it with his objections, to that house in which it shall have originated; who shall enter the objections at large on their journal, and proceed to reconsider it. If, after such reconsideration, two-thirds of that house shall agree to pass the bill, it shall be sent, together with the objections, to the other house, by which it shall likewise be reconsidered; and if approved by two-thirds of that house, it shall become a law. But in all cases, the votes of both houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each house respectively. If any bill shall not be returned by the President within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the Congress, by their adjournment, prevent its return, in which case it shall not be a law.

3. Every order, resolution or vote to which the concurrence of the senate and house of representatives may be necessary, (except on a question of adjournment), shall be presented to the President of the United States; and before the same shall take effect, shall be approved by him; or being disapproved by him, shall be repassed by two-thirds of the senate and house of representatives, according to the rules and limitations prescribed in the case of a bill.

## SECTION 8.

The Congress shall have power:

1. To lay and collect taxes, duties, imposts, and excises; to pay the debts, and provide for the common defense and general welfare of the United States; but all duties, imposts and excises shall be uniform throughout the United States.

2. To borrow money on the credit of the United States.

3. To regulate commerce with foreign nations, and among the several States, and with the Indian tribes.

4. To establish a uniform rule of naturalization, and uniform laws on the subject of bankruptcies throughout the United States.

5. To coin money, regulate the value thereof, and of foreign coin, and fix the standard of weights and measures.

6. To provide for the punishment of counterfeiting the securities and current coin of the United States.

7. To establish post-offices and post-roads.

8. To promote the progress of science and useful arts, by securing for limited times, to authors and inventors, the exclusive right to their respective writings and discoveries.

9. To constitute tribunals inferior to the Supreme Court; to define and punish piracies and felonies committed on the high seas, and offenses against the law of nations.

10. To declare war, grant letters of marque and reprisal, and make rules concerning captures on land and water.

11. To raise and support armies; but no appropriation of money to that use shall be for a longer term than two years.

12. To provide and maintain a navy.

13. To make rules for the government and regulation of the land and naval forces.

14. To provide for calling forth the militia to execute the laws of the Union, suppress insurrections, and repel invasion.

15. To provide for organizing, arming and disciplining the militia, and for governing such part of them as may be employed in the service of the United States; reserving to the States respectively the appointment of the officers and the authority of training the militia according to the discipline prescribed by Congress.

16. To exercise exclusive legislation in all cases whatsoever, over such district (not exceeding ten miles square) as may, by cession of particular states, and the acceptance of Congress, become the seat of government of the United States; and to exercise like authority over all places purchased, by the consent of the legislature of the state in which the same shall be, for the erection of forts, magazines, arsenals, dockyards, and other needful buildings; and

17. To make all laws which shall be necessary and proper for carrying into execution the foregoing powers and all other powers vested by this constitution in the government of the United States, or in any department or officer thereof.

#### SECTION 9.

1. The migration or importation of such persons as any of the states now existing shall think proper to admit, shall not be prohibited by the Congress prior to the year one thousand eight hundred and eight; but a tax or duty may be imposed on such importation not exceeding ten dollars for each person.

2. The privilege of the writ of *habeas corpus* shall not be suspended, unless when, in cases of rebellion or invasion, the public safety may require it.

3. No bill of attainder, or *ex post facto* law, shall be passed.

4. No capitation or other direct tax shall be laid, unless in proportion to the census or enumeration herein before directed to be taken.

5. No tax or duty shall be laid on any articles exported from any state. No preference shall be given by any regulation of commerce or revenue to the ports of one state over those of another; nor shall vessels bound to or from one state, be obliged to enter, clear or pay duties in another.

6. No money shall be drawn from the treasury, but in consequence of appropriations made by law; and a regular statement and account of the receipts and expenditures of all public money shall be published from time to time.

7. No title of nobility shall be granted by the United States; and no person holding any office of profit or trust under them, shall, without the consent of the Congress, accept of any present, emolument, office, or title of any kind whatever, from any king, prince, or foreign state.

#### SECTION 10.

1. No state shall enter into any treaty, alliance or confederation; grant letters of marque and reprisal; coin money; emit bills of credit; make anything but gold and silver coin a tender in payment of debts; pass any bill of attainder, *ex post facto* law, or law impairing the obligation of contracts; or grant any title of nobility.

2. No state shall, without the consent of the congress, lay any imposts or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws; and the net produce of all duties and imposts laid by any state on imports or exports, shall be for the use of the treasury of the United States; and all such laws shall be subject to the revision and control of the Congress. No state shall, without

the consent of the Congress, lay any duty of tonnage, keep troops or ships of war in time of peace, enter into any agreement or compact with another state, or with a foreign power, or engage in war, unless actually invaded, or in such imminent danger as will not admit of delay.

#### ARTICLE II.

##### SECTION 1.

1. The executive power shall be vested in a President of the United States of America. He shall hold his office during the term of four years; and, together with the Vice-President chosen for the same term, be elected as follows:

2. Each state shall appoint, in such manner as the legislature thereof may direct, a number of electors equal to the whole number of senators and representatives to which the state may be entitled in the Congress; but no senator or representative, or person holding an office of trust or profit under the United States, shall be appointed an elector.

3. The electors shall meet in their respective states, and vote by ballot for two persons, of whom one at least shall not be an inhabitant of the same state with themselves. And they shall make a list of all the persons voted for, and of the number of votes for each; which list they shall sign and certify, and transmit sealed to the seat of government of the United States, directed to the president of the senate. The president of the senate shall, in the presence of the senate and house of representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes shall be the President, if such number be a majority of the whole number of electors appointed; and if there be more than one who have such majority, and have an equal number of votes, then the house of representatives shall immediately choose, by ballot, one of them for president; and if no person have a majority, then, from the five highest on the list the said house shall, in like manner, choose the president. But in choosing the president, the vote shall be taken by states, the representation from each state having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the states, and a majority of all the states shall be necessary to a choice. In every case, after the choice of a president, the person having the greatest number of votes of the electors shall be the vice-president. But if there should remain two or more who have equal votes, the senate shall choose from them, by ballot, the vice-president.

4. The Congress may determine the time of choosing the electors, and the day on which they shall give their votes, which day shall be the same throughout the United States.

5. No person, except a natural born citizen, or citizen of the United States at the time of the adoption of this constitution, shall be eligible to the office of president; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years, and been fourteen years a resident within the United States.

6. In case of the removal of the president from office, or of his death, resignation, or inability discharge the powers and duties of the said office the same shall devolve on the vice-president and the Congress may, by law, provide for the case of removal, death, resignation or inability both of the president and vice-president, deciding what officer shall then act as president; and such officer shall act accordingly, until the disability be removed, or a president shall be elected.

7. The president shall, at stated times, receive for his services a compensation, which shall neither be increased nor diminished during the period for which he shall have been elected; and he shall not receive within that period any other emolument from the United States, or any of them.

8. Before he enter on the execution of his office, he shall take the following oath or affirmation: "I do solemnly swear (or affirm) that I will

faithfully execute the office of President of the United States; and will, to the best of my ability, preserve, protect and defend the constitution of the United States."

#### SECTION 2.

1. The president shall be commander-in-chief of the army and navy of the United States, and of the militia of the several states, when called into the actual service of the United States. He may require the opinion, in writing, of the principal officer in each of the executive departments, upon any subject relating to the duties of their respective offices; and he shall have power to grant reprieves and pardons for offenses against the United States, except in cases of impeachment.

2. He shall have power, by and with the advice and consent of the senate, to make treaties, provided two-thirds of the senators present concur; and he shall nominate, and, by and with the advice and consent of the senate, shall appoint ambassadors, other public ministers and consuls, judges of the supreme court, and all other officers of the United States whose appointments are not herein otherwise provided for, and which shall be established by law. But the Congress may, by law, vest the appointment of such inferior officers as they think proper, in the president alone, in the courts of law, or in the heads of departments.

3. The president shall have power to fill up all vacancies that may happen during the recess of the senate, by granting commissions which shall expire at the end of their next session.

#### SECTION 3.

1. He shall, from time to time, give to the Congress information of the state of the Union, and recommend to their consideration such measures as he shall judge necessary and expedient. He may, on extraordinary occasions, convene both houses, or either of them; and in case of disagreement between them, with respect to the time of adjournment, he may adjourn them to such time as he shall think proper. He shall receive ambassadors and other public ministers. He shall take care that the laws be faithfully executed; and shall commission all the officers of the United States.

#### SECTION 4.

1. The president, vice-president, and all civil officers of the United States, shall be removed from office on impeachment for, and conviction of, treason, bribery, or other high crimes and misdemeanors.

### ARTICLE III.

#### SECTION 1.

1. The judicial power of the United States shall be vested in one supreme court, and in such inferior courts as the Congress may, from time to time, ordain and establish. The judges, both of the supreme and inferior courts, shall hold their offices during good behavior; and shall, at stated times, receive for their services a compensation, which shall not be diminished during their continuance in office.

#### SECTION 2.

1. The judicial power shall extend to all cases in law and equity arising under this constitution, the laws of the United States, and treaties made, or which shall be made, under their authority; to all cases affecting ambassadors, other public ministers and consuls; to all cases of admiralty and maritime jurisdiction; to controversies to which the United States shall be a party; to controversies between two or more states; between a state and citizens of another state, between citizens of different states, between citizens of the same state claiming lands under grants of different states, and between a state, or the citizens thereof, and foreign states, citizens or subjects.

2. In all cases affecting ambassadors, other public ministers and consuls, and those in which a state shall be a party, the supreme court shall have original jurisdiction. In all the other cases before mentioned, the supreme court shall have appellate jurisdiction, both as to law and fact, with

such exceptions and under such regulations as the Congress shall make.

3. The trial of all crimes, except in cases of impeachment, shall be by jury, and such trial shall be held in the state where the said crimes shall have been committed; but when not committed within any state, the trial shall be at such place or places as the Congress may by law have directed.

#### SECTION 3.

1. Treason against the United States shall consist only in levying war against them or in adhering to their enemies, giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court.

2. The Congress shall have power to declare the punishment of treason; but no attainder of treason shall work corruption of blood, or forfeiture, except during the life of the person attainted.

### ARTICLE IV.

#### SECTION 1.

1. Full faith and credit shall be given in each state to the public acts, records, and judicial proceedings of every other state; and the Congress may, by general laws, prescribe the manner in which such acts, records, and proceedings shall be proved, and the effect thereof.

#### SECTION 2.

1. The citizens of each state shall be entitled to all privileges and immunities of citizens in the several states.

2. A person charged in any state with treason, felony, or other crime, who shall flee from justice, and be found in another state, shall, on demand of the executive authority of the state from which he fled, be delivered up, to be removed to the state having jurisdiction of the crime.

3. No person held to service or labor in one state under the laws thereof, escaping into another, shall in consequence of any law or regulation therein, be discharged from such service or labor; but shall be delivered up on claim of the party to whom such service or labor may be due.

#### SECTION 3.

1. New states may be admitted by the Congress into this Union; but no new state shall be formed or erected within the jurisdiction of any other state, nor any state be formed by the junction of two or more states or parts of states, without the consent of the legislatures of the states concerned, as well as of the Congress.

2. The Congress shall have power to dispose of, and make all needful rules and regulations respecting the territory or other property belonging to the United States; and nothing in this constitution shall be so construed as to prejudice any claim of the United States, or of any particular state.

#### SECTION 4.

1. The United States shall guarantee to every state in this Union a republican form of government, and shall protect each of them against invasion; and, on application of the legislature, or of the executive, (when the legislature cannot be convened), against domestic violence.

### ARTICLE V.

1. The Congress, whenever two-thirds of both houses shall deem it necessary, shall propose amendments to this constitution; or, on the application of the legislatures of two-thirds of the several states, shall call a convention for proposing amendments, which, in either case, shall be valid to all intents and purposes as part of this constitution, when ratified by the legislatures of three-fourths of the several states, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the Congress; provided that no amendment which may be made prior to the year one thousand eight hundred and eight, shall in any manner affect the first and fourth clauses in the ninth section of the first article; and that no state, without its consent, shall be deprived of its equal suffrage in the senate.

### ARTICLE VI.

1. All debts contracted and engagements en-

tered into before the adoption of this constitution, shall be as valid against the United States under this constitution, as under the confederation.

2. This constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land; and the judges in every state shall be bound thereby, anything in the constitution or laws of any state to the contrary notwithstanding.

3. The senators and representatives before mentioned, and the members of the several state legislatures, and all executive and judicial officers, both of the United States and of the several states, shall be bound by oath or affirmation to support this constitution; but no religious test shall ever be required as a qualification for any office or public trust under the United States.

#### ARTICLE VII.

1. The ratification of the conventions of nine states shall be sufficient for the establishment of this constitution between the states so ratifying the same.

Done in convention by the unanimous consent of the states present, the seventeenth day of September, in the year of our Lord one thousand seven hundred and eighty-seven, and of the Independence of the United States of America, the twelfth. In witness whereof we have hereunto subscribed our names.

GEORGE WASHINGTON,  
*President, and Deputy from Virginia.*

### AMENDMENTS.

[The following amendments were proposed at the first session of the first congress of the United States, which was begun and held at the city of New York, on the 4th of March, 1789, and were adopted by the requisite number of states. Laws of the U. S., vol. 1, page 82.]

[The following preamble and resolution preceded the original proposition of the amendments, and as they have been supposed by a high equity judge (6th Wendell's Reports, p. 100) to have an important bearing on the construction of those amendments, they are here inserted. They will be found in the journals of the first session of the first congress.]

#### CONGRESS OF THE UNITED STATES.

*Began and held at the city of New York, on Wednesday, the 4th day of March, 1789.*

The conventions of a number of the states having, at the time of their adopting the constitution, expressed a desire, in order to prevent misconstruction or abuse of its powers, that further declaratory and restrictive clauses should be added, and as extending the ground of public confidence in the government will best insure the beneficent ends of its institution:

*Resolved*, By the Senate and House of Representatives of the United States of America, in congress assembled, two-thirds of both houses concurring, that the following articles be proposed to the legislatures of the several states, as amendments to the constitution of the United States; all or any of which articles, when ratified by three-fourths of the said legislatures, to be valid to all intents and purposes, as part of the said constitution, namely:

#### ARTICLE I.

Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances.

#### ARTICLE II.

A well regulated militia being necessary to the security of a free state, the right of the people to keep and bear arms shall not be infringed.

#### ARTICLE III.

No soldier shall, in time of peace, be quartered in any house without the consent of the owner, nor in time of war, but in a manner to be prescribed by law.

#### ARTICLE IV.

The right of the people to be secure in their persons, houses, papers and effects, against unreasonable searches and seizures, shall not be violated; and no warrants shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

#### ARTICLE V.

No person shall be held to answer for a capital or otherwise infamous crime, unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service in time of war or public danger; nor shall any person be subject for the same offense to be twice put in jeopardy of life or limb; nor shall he be compelled, in any criminal case, to be a witness against himself, nor be deprived of life, liberty or property, without due process of law; nor shall private property be taken for public use, without just compensation.

#### ARTICLE VI.

In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the state and district wherein the crime shall have been committed, which district shall have been previously ascertained by law; and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel for his defense.

#### ARTICLE VII.

In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved; and no fact tried by a jury shall be otherwise re-examined in any court of the United States, than according to the rules of the common law.

#### ARTICLE VIII.

Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

#### ARTICLE IX.

The enumeration in the constitution of certain rights, shall not be construed to deny or disparage others retained by the people.

#### ARTICLE X.

The powers not delegated to the United States by the constitution, nor prohibited by it to the states, are reserved to the states respectively, or to the people.

[The following amendment was proposed at the second session of the third congress. It is printed in the Laws of the United States, vol. 1, p. 73, as article 11.]

#### ARTICLE XI.

The judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States by citizens of another state, or by citizens or subjects of any foreign state.

[The three following sections were proposed as amendments at the first session of the eighth congress. They are printed in the Laws of the United States as article 12.]

#### ARTICLE XII.

1. The electors shall meet in their respective states, and vote by ballot for president and vice-president, one of whom, at least, shall not be an inhabitant of the same state with themselves. They shall name in their ballots the person voted for as president, and in distinct ballots, the person voted for as vice-president; and they shall make distinct lists of all persons voted for as president, and of all persons voted for as vice-president, and of the number of votes for each; which lists they shall sign and certify, and transmit sealed to the seat of the government

of the United States, directed to the president of the senate. The president of the senate shall, in the presence of the senate and house of representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes for president shall be the president, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as president, the house of representatives shall choose immediately, by ballot, the president. But, in choosing the president, the votes shall be taken by states, the representation from each state having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the states, and a majority of all the states shall be necessary to a choice. And if the house of representatives shall not choose a president whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the vice-president shall act as president, as in the case of the death or other constitutional disability of the president.

2. The person having the greatest number of votes as vice-president shall be the vice-president, if such number be a majority of the whole number of electors appointed, and if no person have a majority, then from the two highest numbers on the list, the senate shall choose the vice-president. A quorum for the purpose shall consist of two-thirds of the whole number of senators, and a majority of the whole number shall be necessary to a choice.

3. But no person constitutionally ineligible to the office of president, shall be eligible to that of vice-president of the United States.

#### ARTICLE XIII.

1. Neither slavery nor involuntary servitude, except as a punishment for crime, whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction.

2. Congress shall have power to enforce this article by appropriate legislation.

#### ARTICLE XIV.

##### SECTION 1.

All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States, nor shall any state deprive any person of life, liberty or property, without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.

##### SECTION 2.

Representatives shall be apportioned among the several states according to their respective numbers, counting the whole number of persons in each state, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for president and vice-president of the United States, representatives in Congress, the executive and judicial officers of a state, or the members of the legislature thereof, is denied to any of the male inhabitants of such state, being twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in rebellion or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such state.

##### SECTION 3.

No person shall be a senator or representative in Congress, or elector of president and vice president, or hold any office, civil or military, under the United States, or under any state, who having previously taken an oath as a member of congress, or as an officer of the United States, or as a member of any state legislature, or as an executive or judicial officer of any state, to support the constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid or comfort to the enemies thereof; but Congress may, by a vote of two-thirds of each house, remove such disability.

##### SECTION 4.

The validity of the public debt of the United States, authorized by law, including debts incurred for payment of pensions and bounties for services in suppressing insurrection or rebellion, shall not be questioned. But neither the United States nor any state shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave; but all such debts, obligations and claims shall be held illegal and void.

##### SECTION 5.

The Congress shall have power to enforce, by appropriate legislation, the provisions of this article.

#### ARTICLE XV.

##### SECTION 1.

The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any state on account of race, color, or previous condition of servitude.

##### SECTION 2.

The congress shall have power to enforce this article by appropriate legislation.

## ABSTRACT OF PUBLIC LAWS,

PASSED AT THE THIRD SESSION OF THE FORTY-SECOND CONGRESS, WITH A SUMMARY OF APPROPRIATIONS MADE.

CHAP. LXII. *Abolishing grades of Admiral and Vice Admiral in the Navy.*—Provides that vacancies occurring in the grades of Admiral and Vice Admiral shall not be filled by promotion or in any other manner; and that when the offices of said grades shall become vacant the grades shall cease to exist.

CHAP. LXIV. *Fixes time for holding the Annual Session of the Supreme Court.*—The annual session shall commence hereafter on the second Monday of October in each year.

CHAP. LXXXII. *Franking Privilege.*—Abolishes the Franking Privilege from and after July 1, 1873.

CHAP. CXXVI. *Relating to the Construction of eight Steamers.*—The aggregate tonnage shall not exceed 8,000 for all the vessels, and the cost thereof shall not be more than \$3,200,000. Four of the ves-

sels shall be built in whole or in part at private yards, upon contract with the lowest bidders.

CHAP. CXXXI. *Revising and amending the laws relative to the Mints, Assay Offices and Coinage.*—Establishes the mint as a bureau of the Treasury Department. The chief officer of the said bureau, which also embraces in its organization all mints and assay offices, shall be called the Director of the Mint. He shall be appointed by the President, by and with the advice and consent of the Senate, and hold his office for the term of five years, unless sooner removed by the President, upon reasons to be communicated by him to the Senate.

SECTION 14 provides That the gold coins of the United States shall be a one-dollar piece, which, at the standard weight of twenty-five and eight-tenths grains, shall be the unit of value; a quar-

ter-eagle, or two-and-a-half dollar piece; a three-dollar piece; a half-eagle, or five-dollar piece; an eagle, or ten-dollar piece; and a double eagle, or twenty-dollar piece. And the standard weight of the gold dollar shall be twenty-five and eight-tenths grains; of the quarter-eagle, or two-and-a-half dollar piece, sixty-four and a half grains; of the three-dollar piece, seventy-seven and four-tenths grains; of the half-eagle, or five-dollar piece, one hundred and twenty-nine grains; of the eagle, or ten-dollar piece, two hundred and fifty-eight grains; of the double-eagle, or twenty-dollar piece, five hundred and sixteen grains; which coins shall be a legal tender in all payments at their nominal value when not below the standard weight and limit of tolerance provided in this act for the single piece, and when reduced in weight, below said standard and tolerance, shall be a legal tender at valuation in proportion to their actual weight; and any gold coin of the United States, if reduced in weight by natural abrasion not more than one-half of one per centum below the standard weight prescribed by law, after a circulation of twenty years, as shown by its date of coinage, and at a ratable proportion for any period less than twenty years, shall be received at their nominal value by the United States treasury and its offices, under such regulations as the Secretary of the Treasury may prescribe for the protection of the government against fraudulent abrasion or other practices; and any gold coins in the treasury of the United States reduced in weight below this limit of abrasion shall be received.

SEC. 15. That the silver coins of the United States shall be a trade-dollar, a half-dollar, or fifty-cent piece, a quarter-dollar, or twenty-five cent piece, a dime, or ten-cent piece; and the weight of the trade-dollar shall be four hundred and twenty grains troy; the weight of the half-dollar shall be twelve grams (grammes) and one-half of a gram (gramme); the quarter-dollar and the dime shall be respectively, one-half and one-fifth of the weight of said half dollar; and said coins shall be a legal tender at their nominal value for any amount not exceeding five dollars in any one payment.

SEC. 16. That the minor coins of the United States shall be a five-cent piece, a three-cent piece, and a one-cent piece, and the alloy for the five and three-cent pieces shall be of copper and nickel, to be composed of three-fourths copper and one-fourth nickel, and the alloy of the one-cent piece shall be ninety-five per centum of copper and five per centum of tin and zinc, in such proportions as shall be determined by the Director of the Mint. The weight of the piece of five cents shall be seventy-seven and sixteen-hundredths grains, troy; of the three-cent piece, thirty grains; and of the one-cent piece, forty-eight grains; which coins shall be a legal tender, at their nominal value, for any amount not exceeding twenty-five cents in any one payment.

SEC. 17. That no coins, either of gold, silver, or minor coinage, shall hereafter be issued from the mint other than those of the denominations, standards, and weights herein set forth.

SEC. 18. That upon the coins of the United States there shall be the following devices and legends: Upon one side there shall be an impression emblematic of liberty, with an inscription of the word "Liberty" and the year of the coinage, and upon the reverse shall be the figure or representation of an eagle, with the inscriptions "United States of America" and "E Pluribus Unum," and a designation of the value of the coin; but on the gold dollar and three-dollar piece, the dime, five, three, and one-cent piece the figure of the eagle shall be omitted; and on the reverse of the silver trade-dollar, the weight and fineness of the coin shall be inscribed; and the Director of the Mint, with the approval of the Secretary of the Treasury, may cause the motto "In God we trust" to be inscribed upon such coins as shall admit of

such motto; and any one of the foregoing inscriptions may be on the rim of the gold and silver coins.

SEC. 19. That at the option of the owner, gold or silver may be cast into bars of fine metal, of standard fineness, or unparted, as he may prefer, with a stamp upon the same designating the weight and fineness, and with such devices impressed thereon as may be deemed expedient to prevent fraudulent imitation, and no such bars shall be issued of a less weight than five ounces.

SEC. 20. That any owner of gold bullion may deposit the same at any mint, to be formed into coin or bars for his benefit; but it shall be lawful to refuse any deposit of less value than one hundred dollars, or any bullion so base as to be unsuitable for the operations of the mint; and when gold and silver are combined, if either metal be in such small proportion that it cannot be separated advantageously, no allowance shall be made to the depositor for its value.

SEC. 21. That any owner of silver bullion may deposit the same at any mint, to be formed into bars, or into dollars of the weight of four hundred and twenty grains, troy, designated in this act as trade-dollars, and no deposit of silver for other coinage shall be received; but silver bullion contained in gold deposits, and separated therefrom, may be paid for in silver coin, at such valuation as may be, from time to time, established by the Director of the Mint.

The act consists in all of 67 sections, and it is provided that it shall be known as "the Coinage Act of 1873."

CHAP. CLXVI. *For obtaining information of the condition of banks organized under State Laws.*—Makes it the duty of the Controller of the Currency to report annually to Congress the resources and liabilities of banks, banking companies, and savings banks organized under State or Territorial laws; such information to be obtained from their reports to the legislatures or officers of the different States and Territories.

CHAP. CCXIII. *To carry into effect the provisions of the Treaty of Washington.*—Admits Canadian and New Foundland fish-oil and fish free of duty into the United States, upon the passage of laws by Canada and New Foundland to carry into effect on their part the provisions of the treaty. Also provides for the admission and conveyance of foreign merchandise arriving at Portland, Boston, and New York in transit for the British possessions in North America, and also for the admission, free of duty, and conveyance of the produce of said possessions destined for exportation beyond the United States. Also that British subjects may carry goods and merchandise in British vessels, without duty, from place to place on the lakes and rivers of the United States, if part of the transportation is through Canada by land carriage and in bond.

CHAP. CCXVII. *In relation to the Territories.*—Provides that the Secretary of the Interior shall hereafter exercise all the powers and perform all the duties in relation to the Territories of the United States that are now by law or by custom exercised and performed by the Secretary of State.

CHAP. CCXXXIV. *Revises, consolidates and amends the laws relating to pensions.*

CHAP. CCXXXVI. *Extends for four years from March 10, 1873, the acts establishing the Board of Commissioners of Claims, and the acts relating thereto.*—No petition shall be received, however, by said commissioners unless filed on or before March 3, 1873.

CHAP. CCXXXIX. *California Election of Congressmen.*—Provides that the election in California for representatives to the XLIVth Congress shall be held on the first Wednesday in September, 1874.

CHAP. CCXLIX. *Military Prison.*—Establishes a military prison at Rock Island, Ills.

CHAP. CCLII. *To prevent Cruelty to Animals while in transit by Railroad or other conveyance.*—Provides that animals shall not be carried in cars or vessels for more than twenty-eight consecutive

hours without being unloaded for rest, feeding and watering, and shall have rest at such times for five consecutive hours before being reloaded. The penalty for a violation of the act is a fine of \$100 to \$500, to be recovered by civil action in the name of the United States, in the circuit court or district court of the United States holden within the district where the offense may have been committed, or the person or corporation resides or carries on its business. It shall be the duty of all U. S. marshals, their deputies and subordinates, to prosecute all violations of this act which shall come to their notice or knowledge.

CHAP. CCLXI.—*The Alabama Award.*—Provides that the \$15,500,000 in gold awarded to the United States by the tribunal of arbitration at Geneva be used to redeem an equal amount of United States public debt. Also that an amount of \$15,500,000 in five per cent. bonds be set apart and held subject to the future disposition of Congress.

CHAP. CCLXVIII.—*To establish the Custom House value of the English Sovereign, or pound sterling.*—Provides that in all payments by or to the treasury, whether made here or in foreign countries, where it becomes necessary to compute the value of the sovereign or pound sterling, it shall be deemed equal to four dollars eighty-six cents and six and one-half mills, and the same rule shall be applied in appraising merchandise imported where the value is, by the invoice, in sovereigns or pounds sterling, and in the construction of contracts payable in sovereigns or pounds sterling; and this valuation shall be the par of exchange between Great Britain and the United States; and all contracts made after the first day of January, eighteen hundred and seventy-four, based on an assumed par of exchange with Great Britain of fifty-four pence to the dollar, or four dollars forty-four and four-ninths cents to the sovereign or pound sterling, shall be null and void.

CHAP. CCLXIX.—*To require national banks to restore their capital when impaired.*—Provides that all national banks which shall have failed to pay up their capital stock, as required by law, and all national banks whose capital stock shall have become impaired by losses or otherwise, shall, within three months after receiving notice thereof from the controller of the currency, be required to pay the deficiency in the capital stock by assessment upon the shareholders, pro rata, for the amount of capital stock held by each, and the treasurer of the United States shall withhold the interest upon all bonds held by him in trust for such association, upon notification from the controller of the currency, until otherwise notified by him; and if such banks shall fail to pay up their capital stock, and shall fail to go into liquidation, as provided by law, for three months after receiving notice from the controller, a receiver may be appointed to close up the business of the association, according to the provisions of the fiftieth section of the national-currency act. Also amends section 57 of the national-currency act by adding thereto the following: "And provided further, That no attachment, injunction, or execution shall be issued against such association, or its property, before final judgment in any such suit, action, or proceeding in any State, county or municipal court."

CHAP. CCLXXVII.—*To encourage the growth of timber of Western prairies.*—We give this act in full: Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That any person who shall plant, protect, and keep in a healthy, growing condition for ten years, forty acres of timber, the trees thereon of being more than twelve feet apart each way in any quarter-section of any of the public lands of the United States shall be entitled to a patent for the whole of said quarter-section at the expiration of said ten years, on making proof of such act by not less than two credible witnesses; Provided, That only one quarter in any section shall be thus granted.

SEC. 2. That the person applying for the benefit of this act shall, upon application to the register of the land-office in which he or she is about to make such entry, make affidavit before said register or receiver that said entry is made for the cultivation of timber, and upon filing said affidavit with said register and receiver, and on payment of ten dollars, he or she shall thereupon be permitted to enter the quantity of land specified: Provided however, That no certificate shall be given or patent issue therefor until the expiration of at least ten years from the date of such entry; and if at the expiration of such time, or at any time within three years thereafter, the person making such entry, or if he or she be dead, his or her heirs or legal representatives, shall prove by two credible witnesses that he, she, or they have planted, and for not less than ten years have cultivated and protected such quantity and character of timber as aforesaid, they shall receive the patent for such quarter-section of land.

SEC. 3. That if at any time after the filing of said affidavit, and prior to the issuing of the patent for said land, it shall be proven after due notice to the party making such entry and claiming to cultivate such timber, to the satisfaction of the register of the land-office that such person has abandoned or failed to cultivate, protect and keep in good condition such timber, then, and in that event, said land shall revert to the United States.

SEC. 4. That each and every person who, under the provisions of an act entitled "An act to secure homesteads to actual settlers on the public domain," approved May twentieth, eighteen hundred and sixty-two, or any amendment thereto, having a homestead on said public domain, who, at the end of the third year of his or her residence thereon, shall have had under cultivation, for two years, one acre of timber, the trees thereon not being more than twelve feet apart each way, and in a good, thrifty condition, for each and every sixteen acres of said homestead, shall upon due proof of said fact by two credible witnesses receive his or her patent for said homestead.

SEC. 5. That no land acquired under provisions of this act shall, in any event, become liable to the satisfaction of any debt or debts contracted prior to the issuing of a patent therefor.

SEC. 6. That the commissioner of the general land-office is hereby required to prepare and issue such rules and regulations, consistent with this act, as shall be necessary and proper to carry its provisions into effect; and that the registers and the receivers of the several land offices shall be entitled to receive the same compensation for any lands entered under the provisions of this act that they are now entitled to receive when the same quantity of land is entered with money.

SEC. 7. That the fifth section of the act entitled "An act in addition to an act to punish crimes against the United States, and for other purposes," approved March third, eighteen hundred and fifty-seven, shall extend to all oaths, affirmations, and affidavits required or authorized by this act.

CHAP. CCLXXIX.—*To provide for the sale of public lands containing coal.*—Provides that any person above the age of twenty-one years, who is a citizen of the United States, or who has declared his intention to become such, or any association of persons severally qualified as above, shall, upon application to the register of the proper land-office, have the right to enter, by legal subdivisions, any quantity of vacant coal lands of the United States not otherwise appropriated or reserved by competent authority, not exceeding one hundred and sixty acres to such individual person, or three hundred and twenty acres to such association, upon payment to the receiver of not less than ten dollars per acre for such lands, where the same shall be situated more than fifteen miles from any completed railroad, and not less than twenty dollars per acre for such lands as shall be within fifteen miles of such road. Any

person or association of persons severally qualified as above, who have opened and improved, or shall hereafter open and improve, any coal mine or mines upon the public lands, and shall be in actual possession of the same, shall be entitled to a preference right of entry, under the foregoing provisions, of the mines so opened and improved: *Provided*, That when any association

of not less than four persons, severally qualified as in section one of this act, shall have expended not less than five thousand dollars in working and improving any such mine or mines, such association may enter not exceeding six hundred and forty acres, including such mining improvements.

### THE SALARY GRAB.

EXTRACT FROM CHAP. CCXXVI OF THE ACTS OF THE FORTY-SECOND CONGRESS.

*N. B.—This Act was passed March 3, 1873. The back pay dates from March 4, 1871*

*Be it enacted, &c.*, That on and after the fourth day of March, eighteen hundred and seventy-three, the President of the United States shall receive in full, for his services during the term for which he shall have been elected, the sum of FIFTY THOUSAND dollars per annum, to be paid monthly; the Vice-President of the United States shall receive in full, for his services during the term for which he shall have been elected, the sum of ten thousand dollars per annum, to be paid monthly; and the Chief-Justice of the Supreme Court of the United States shall receive the sum of ten thousand five hundred dollars per annum, and the Justices of the Supreme Court of the United States shall receive the sum of ten thousand dollars per annum, each, for their services, to be paid monthly; the Secretary of State, the Secretary of the Treasury, the Secretary of War, the Secretary of the Navy, the Secretary of the Interior, the Attorney-General, and the Postmaster-General, shall receive ten thousand dollars per annum each, for their services, to be paid monthly; and each Assistant Secretary of the Treasury, State and Interior Departments, shall receive a annual compensation, to be paid monthly, six thousand dollars; and the Speaker of the House of Representatives shall after the present Congress receive in full for all his services, compensation at the rate of ten thousand dollars per annum, AND SENATORS, REPRESENTATIVES, AND DELEGATES IN CONGRESS, INCLUDING SENATORS, REPRESENTATIVES AND DELEGATES IN THE FORTY-SECOND CONGRESS, holding such office at the passage of this act, and whose claim to a seat has not been adversely decided, SHALL RECEIVE SEVEN THOUSAND FIVE HUNDRED DOLLARS PER ANNUM, EACH, and this shall be in lieu of all pay and allowance, except actual traveling expenses from their homes to the seat of government and return, by the most direct route of usual travel, once for each session, of the house to which such senator, member or delegate belongs, to be certified to under his hand to the disbursing officer, and filed as a voucher. *Provided*, That in settling the pay and allowance of Senators, members and delegates in the forty-second Congress, all mileage shall be deducted and no allowance made for travel. AND THERE is hereby appropriated a sum sufficient to make the annual salaries of such of the clerks in the office of the Clerk of the House of Representatives as receive two thousand five hundred dollars a year and upwards and less than three thousand dollars, including the Petition Clerk and Printing Clerk, three thousand dollars each; and of such as receive two thousand dollars and upwards, and less than two thousand five hundred dollars, the sum of two thousand five hundred dollars each; and of such as receive eighteen hundred dollars and upwards, and less than two thousand dollars, the sum of two thousand dollars each; and of the Secretary of the Senate and the Clerk of the House five thousand dollars each; and of the Chief Clerk and Journal Clerk of the House, while such positions are held by the present incumbents, and no longer, three thousand six hundred dollars, each; and of the Doorkeeper of the House, and the Assistant Doorkeeper of the Senate, while the position is held by the present incumbent, and no longer, three thousand dollars each; and of the Postmaster to the Senate, two thousand five hundred and ninety-two dollars; Assistant Postmaster, two thousand dollars; and of two mail-carriers one thousand seven hundred dollars; and of the Superintendent and first assistant of the Senate document-room two thousand five hundred dollars each; and second assistant in said document-room eighteen hundred dollars; and of the additional compensation to the reporters of the House and Senate for the Congressional Globe fifteen hundred dollars each; and of additional pay to the Chief Engineer of the House three hundred and sixty dollars (so as to equalize his pay with that of the Chief Engineer of the Senate). AND IT IS HEREBY PROVIDED THAT THE INCREASE OF COMPENSATION TO THE OFFICERS, CLERKS AND OTHERS IN THE EMPLOY OF THE SENATE AND HOUSE OF REPRESENTATIVES, PROVIDED FOR BY THIS ACT, SHALL BEGIN WITH THE PRESENT CONGRESS; and the pay of all the present employes of the Senate and House of Representatives, including the employes in the library of Congress and those under the Commissioner of Public Buildings and Grounds, now employed in the capitol building, and also the House reporters, whose pay has not been specifically increased by this act, holding their places by appointment under the respective officers thereof or by the authority of the Committee of Contingent expenses of the Senate, or the Committee of Accounts of the House, be increased FIFTEEN per cent. of their present compensation on the amount actually received and payable to them respectively FROM THE BEGINNING OF THE PRESENT CONGRESS, or from the date of their appointment, during the present Congress, and who shall be actually employed at the passage of this act, and the amounts of money necessary to carry the foregoing provisions into effect are hereby appropriated out of any moneys in the treasury not otherwise appropriated.

## Foreign Trade of the Dominion of Canada.

[The Dominion of Canada consists of the six provinces of Ontario, Quebec, New Brunswick, Nova Scotia, British Columbia and Manitoba. The British North American Provinces, outside of the Dominion, are Newfoundland and Prince Edward Island. The population of the four principal provinces of the Dominion was 3,090,561 in 1861, and 3,485,761 in 1871.]

The Canadian returns of Trade and Navigation for the fiscal year ended June 30, 1873, show a total of imports of the value of \$126,587,523, and of exports \$50,610,573. These figures show a large increase over any preceding year. The official returns of the year 1872-3 have not yet been issued. The following tables give a comparison of the trade of Canada with various countries for the years 1870-1 and 1871-2:

Grand total.....	\$74,173,618	\$82,639,663

It appears from the foregoing statement that 59 per cent. of the aggregate importations into the Provinces of Ontario, Quebec, Nova Scotia, and New Brunswick, during the last Fiscal Year, were from Great Britain, and 32.6 per cent. from the United States of America; the import trade with both these countries, amounting together to upwards of 91 per cent. of the whole importa-

tions into those Provinces. This ratio would have been still further increased had the imports into British Columbia and Manitoba been included; but the trade of these new Provinces was necessarily excluded from the comparative part of the statement, owing to the recent date at which they became integral and important portions of the Dominion of Canada.

It is worthy of remark that the trade with the British North American Provinces, outside the Dominion, that is to say Newfoundland and Prince Edward Island, is the next in point of rank after Great Britain and the United States, and that the British West Indies follow in order, thus exhibiting, between Canada and Great Britain, and between Canada and Britain's other possessions in this hemisphere, an aggregate amount of purely British Trade, of \$94,681,398.

## Population of Canadian Cities.

The following table gives the population of the twenty Canadian cities and towns having more than 5,000 inhabitants in 1871:

Cities.	Provinces.	1861.	1871.
Montreal.....	Quebec.....	90,323	107,225
(a) Quebec.....	Quebec.....	59,090	59,699
Toronto.....	Ontario.....	44,821	50,092
Halifax.....	Nova Scotia.....	25,026	29,482
St. John.....	N. Brunswick.....	27,317	28,805
Hamilton.....	Ontario.....	19,096	26,716
Ottawa.....	Ontario.....	14,669	21,545

Sorel.....	Quebec.....	4,778	5,636
Port Hope.....	Ontario.....	4,162	5,114
Brockville.....	Ontario.....	4,112	5,102

(a) The apparent decrease in the populations of Quebec and Kingston is accounted for by the fact that large garrisons in those cities in 1861 were counted as part of the population.

## The Shipping of the World.

The following table shows the number and tonnage of the vessels in the merchants' navies of the nations named in 1870 and 1872:

Flag.	—1870.—	—1872.—
	Vesse. Tonnage.	Vesse. Tonnage.

Denmark.....	1,415 183,518	1,236 165,697
Portugal.....	368 87,018	415 192,542
Belgium.....	72 26,148	48 16,518
Other countries.....	454 147,106	569 175,816

It will be seen by this that there was a marked falling off in the merchant navy of England in 1872 as compared with 1870, while there was a small increase in the number of American vessels. The effect of the strikes in Great Britain can be seen in the diminished list, the yards in Liverpool, Glasgow, Belfast, Sunderland, and Newcastle being exposed to the chances and uncertainties of the policy of the workman; and Germany shows a falling off from the same cause.

Secretary of the Treasury.

## THE TRANSPORTATION QUESTION.

## Statistics of the Businesses of the Canals and Trunk Railroads.

From the Western Lake ports to the entrance of the Erie Canal at Buffalo, and to that of the Canadian Welland Canal at Port Colborne, the distances are about equal. Of the 500 miles of water navigation between Buffalo and N. York, 345 are by the Erie Canal. Of the 375 miles of navigation between Port Colborne and Montreal, but 71 miles are canal navigation. The Erie Canal locks are 110 ft. long, 18 ft. wide, and 7 ft. deep. The present locks on the Welland Canal are 150 ft. long, 26½ ft. wide, and 10½ ft. deep. The locks of the enlarged Welland Canal will be 270 ft. long, 45 ft. wide and 12 ft. deep. The Erie Canal is navigable for boats 102 ft. long and 17½ ft. wide, drawing 7 ft. of water, and carrying 200 to 225 tons of cargo. The Welland Canal is navigable for vessels 142½ ft. long and 26 ft. wide, drawing 9½ ft. of water, and carrying 350 to 400 tons of cargo. The enlarged Welland Canal, which will probably be completed within four years, will accommodate vessels carrying from 1000 to 1200 tons of cargo.

It thus appears that the great struggle with the Welland Canal for the carriage of grain from the West to the seaboard, for shipment to Europe, is yet to come off. Meanwhile, the railroads, by their complete organization of through freight lines for the carriage of flour and grain, without transshipment, from the West to every village and town in the East which can be reached by the locomotive, have rapidly increased their grain carrying business, while that of the canal, though stimulated by low tolls and an unusual demand for export to foreign countries, appears to have attained its maximum. Unless, indeed, some means be found of increasing the capacity of the canals, grain will be crowded off by the coal, lumber and other bulky freight, for the transportation of which railroad competition is not so keen.

NOTE.—The principal article embraced under the head of manufactures is the Syracuse salt, of which 244,222 tons were carried in 1872. Under the head of merchandise is included railroad iron; of which 161,667 tons were carried in 1872. Under miscellaneous are classed iron ore, stone, lime and clay, which, together, amounted in 1872 to 675,780 tons, against 253,411 tons in 1862. For agricultural products and total tonnage, see Tables I and II.

The Champlain Canal extends from Albany and Troy, on the Hudson River, to Whitehall, on Lake Champlain, a distance of 73 miles from the first-named city. The distance from Whitehall to the junction of the Erie and Champlain canals, is 64 miles. The enlargement of this canal to the same capacity as the Erie, has been proceeding for a number of years, and but a small appropriation is required to complete the work.

\*Town, county, and city debt, as given by the Census of 1870.

## Notes.

In compiling the above statements of the indebtedness, revenue and expenditures of the several State governments, the object has been to give, as nearly as possible, the actual facts, divested of all technicalities. All bonds of the State held by any sinking or educational fund, have been uniformly deducted from the gross amount of the funded debt. The payment, for the support of public schools for instance, of \$100,000 in the shape of interest on State bonds held by a school fund is essentially the same thing as the payment of an appropriation of the same amount. The multiplication of "funds" of every description serves only to involve the financial statements of public officers in such an intricacy of labyrinth that the most clearheaded are only able to ascertain the simplest facts after long labor, while the common mind is absolutely powerless to ascertain how much money is raised

or how much expended for the support of government. Indeed, the compiler of these figures frankly confesses that in many cases he is able to give only approximate results. Money applied to the extinguishment of funded debt has been deducted from the expenditures. On the same principle the proceeds of loans are excluded from the receipts. In all cases the official statements of indebtedness have been accepted as authoritative, and it is believed that the obligations of the several States, whether floating or funded, have in no case been overstated. Further explanations will be found under the of the several States in the notes below.

**Alabama.**—In the year 1872-3, \$896,680.98 were derived from the sale of bonds, and \$120,000 from a temporary loan. A temporary loan of \$505,145 was paid off. The above items are not included in the above statement of receipts and expenditures. The expenditures include, however, \$178,868.95 for treasury warrants of 1870-72, paid off in 1873. The statement of the debt, which is for Sept. 30, 1872, does not include the indorsement of railroad bonds, which it is estimated will involve the State to the extent of

\$3,000,000, several of the railroads having defaulted. It is also exclusive of State stock to the amount of \$2,801,533.84, held by the Educational Funds of the State.

**Arkansas.**—The State does not pay the interest on its bonds. The statement of floating debt above given is exclusive of overdue interest on the debt, the amount of which is unknown. The statements of funded and floating debt are those given by the State Treasurer under the date of Aug. 1, 1873.

**California.**—From the receipts, as officially stated, are deducted \$597,812 from sales of bonds, and also the interest on State stocks held by the School and University funds. From the expenditures are deducted \$762,148 for bonds paid off and purchased, and also the interest on State stocks paid to the School and University funds. The floating debt consists of unpaid warrants.

**Connecticut.**—The expenditures do not include \$673,400, cash paid for bonds purchased.

**Delaware.**—This is the only State from which the compiler of these statistics has been unable to obtain official information. The statements of the valuation and indebtedness are derived from the U. S. Census of 1870.

**Florida.**—Part of the State debt consists of \$4,000,000 in bonds issued to the Jacksonville, Pensacola and Mobile Railroad Co., in exchange for the 1st mortgage bonds of that company, under an act of the Legislature, passed Jan. 23, 1870. No interest is paid on this portion of the debt. The floating debt consists of \$179,296, interest on bonds, exclusive of the J. P. & M. R. R. bonds above mentioned; \$262,045 due the State School and Seminary funds; \$165,000 secured by hypothecated bonds; and about \$242,000 unpaid warrants, &c.

**Georgia.**—Of the expenditures as above given, the sum of \$692,892 was for the payment of principal and interest on the public debt; \$236,162, derived from the sale of bonds and temporary loans, are not included in the above statement of the receipts.

**Illinois.**—Of the gross expenditures of this State, \$2,586,783.60 from the State Debt Fund, and \$1,014,872.32 from the Illinois Central Railroad Fund, which had been accumulating in the Treasury, were disbursed in the two years, 1871-2, for the extinguishment of the State debt. The sums given for receipts and expenses are one half of the amounts received and expended during the two years ended Nov. 30, 1872.

**Indiana.**—Of the funded debt, \$3,729,016 consists of non-negotiable bonds held by the School Fund. These are not included in our statement.

**Iowa.**—The receipts and disbursements are one half the amount for the two years ended Oct. 31, 1873.

**Kansas.**—The State has a Sinking Fund of \$135,527.34. The floating debt consists of unpaid warrants drawn on the Treasury.

**Kentucky.**—The State of Kentucky has outstanding bonds to the amount of \$331,394, but to offset them the Commonwealth has \$350,000 in U. S. 6 per cent. 6-20s on deposit in New York with the Bank of North America. Bonds of the State to the amount of \$1,628,123 are held by the School Fund.

**Maine.**—The State has a Sinking Fund of \$1,020,247. The State debt, as above given, is exclusive of \$998,200 in State bonds held by the Sinking Fund.

**Maryland.**—As an offset to its debt as above stated, the State owns stocks and bonds, on which the interest and dividends are regularly paid, to the amount of \$4,794,856. The receipts, as above given, do not include \$361,208.57, raised by the sale of State bonds for the Maryland Hospital and the Deaf and Dumb Asylum.

**Massachusetts.**—The gross amount of the funded debt of the State, on the 1st of January, 1873, was \$27,692,704. From this we have deducted \$1,816,600 for bonds of the State held by its sinking and trust funds. The Commonwealth holds, as an offset to its indebtedness, sinking and trust funds to the aggregate amount of \$12,999,894, including the \$1,816,600 of State bonds above mentioned. Expenditures do not include those defrayed from the proceeds of bonds, as the Hoosac tunnel. The School Fund amounted to \$2,182,419.98 on the 1st of January, 1873. The Commonwealth has never taken advantage of the legal tender act to pay the interest on its debts in paper. Since the suspension of specie payments in 1862, the amount paid as premium on purchases of gold to pay interest, has been \$2,475,673.

**Michigan.**—The valuation given is the equalized valuation of 1871. The statement of the funded debt excludes \$34,292.78 of past-due debt on which interest has ceased.

**Minnesota.**—The entire funded debt of the State is held by the Permanent School Fund. There are, however, \$2,275,000 in bonds issued in 1858, in aid of railroads, upon which the State has formally refused to pay interest. The valuation given is that of the census of 1870. The Permanent School Fund consists of securities to the par value of \$817,800.

**Mississippi.**—The \$7,000,000 repudiated debt of 1839 is not included in the above statement. The floating debt consists of outstanding warrants on the Treasury.

**Missouri.**—The sum given as the debt of Missouri, does not include \$3,000,000 in bonds issued to the Hannibal and St. Joseph Railroad Company, secured by first mortgage, and upon which the interest is regularly paid by the railroad.

**Nebraska.**—Except \$16,800 in Territorial bonds, held by the School Fund, the State has no bonded indebtedness. The cash in the Treasury is more than sufficient to pay all outstanding warrants. The receipts and disbursements given are one half of the receipts and disbursements for the two years ended Dec. 31, 1872.

**Nevada.**—This statement of the funded debt does not include \$104,000 of the State's bonds held by the School Fund. The cash in the Treasury is more than sufficient to pay the outstanding warrants.

**New Hampshire.**—In the statement of receipts and expenditures, we have omitted \$226,450 obtained by a temporary loan and payments of \$317,700 of the principal of the State debt. The valuation is that given by the U. S. census of 1870.

**New Jersey.**—The statements of receipts and expenditures include \$1,168,803, the proceeds of a tax of two mills on the taxable property of the State at large, apportioned to the several counties in proportion to the number of children between the ages of 5 and 13.

**New York.**—The receipts include \$1,202,571, surplus canal revenues over cost of superintendence and ordinary repairs; and \$354,197.07

from earnings of State Prison convicts. Receipts from taxes and payments of \$2,610,784 for the support of Schools are included in the receipts and expenditures. The expenditures are exclusive of ordinary canal repairs and redemptions of State debt. The amount of the State debt is exclusive of \$4,188,805 in State bonds held by the Trust and Sinking Funds. A special tax to the amount of \$7,000,000, was collected in 1873, which will still further reduce the State debt when paid into the Treasury. The amount of town, county and city debts is obtained from the statistics collected by Mr. Calkins, Clerk of the Constitutional Commission, in January, 1873.

**Oregon.**—The sums given for receipts and expenditures are one half the amounts for the two years ended Sept. 9, 1872.

**Pennsylvania.**—The receipts do not include \$100,000 received from the Pennsylvania Railroad Co., in payment of its debt to the State, and the expenditures are also exclusive of \$2,476,288, applied by the Commissioners of the Sinking Fund to the redemption of the State debt. The State holds the bonds of the Pennsylvania Railroad Company for \$9,300,000, which may fairly be considered a deduction from the amount of the debt as above stated. It also holds \$1,754,822 stock in various turnpike, bridge, canal, railroad and navigation companies. The valuation given is that of the U. S. census of 1870.

**Rhode Island.**—The valuation is that given by the U. S. census of 1870. The expenditures are exclusive of \$75,000 for redemption of State bonds.

**South Carolina.**—The valuation given is that of the census of 1870. The statement of receipts and expenditures is for nine months only. The expenditures include not a cent for interest on the State debt. The statements of the funded and floating debt are taken from Gov. Moses's Message of Oct. 21, 1873.

**Tennessee.**—The sum given as the debt of Tennessee represents the liabilities of the State after deducting bonds indorsed which are good, bonds of the State paid into the Treasury by various railroads, and amounts due to the State by solvent railroads. The receipts and expenditures are for four-fifths of fifteen months.

**Texas.**—\$344,745 of the floating debt consists of unpaid warrants on the Treasury.

**Virginia.**—The sum given as funded debt, represents two thirds of the debt on the 30th Sept., 1872, and accrued interest up to July 1, 1871, the other third "being deferred for settlement with West Virginia." The stocks and bonds of the State held by the Literary Fund (\$1,029,113) are not included as part of the debt of the Commonwealth. The valuation given is that of the census of 1870.

**West Virginia.**—This State, as yet, has incurred no debt. The amount given is one third of the debt of the old State of Virginia, which the latter holds that West Virginia should assume.

**Wisconsin.**—\$2,288,900 of the nominal debt of this State is in the shape of certificates of indebtedness to the Educational funds. The aggregate amount of taxes levied in Wisconsin in 1872, was \$7,395,181; viz., State tax, \$781,774; County taxes, \$1,777,651; County school taxes, \$257,875; Town taxes, \$2,447,067; School district taxes, \$1,263,805; Road district taxes, \$867,750.

## Local Indebtedness of the State of New York.

The following is a comparative statement by counties of the bonded debts of the counties, cities, towns, and villages of the State of New York in the years 1870 and 1873. The figures for the year 1870 are mostly taken from the Census. Those for 1873 were collected last winter for the Constitutional Commission then sitting at Albany. The amounts given for the cities of New York and Brooklyn are the net debt, after deducting the Sinking Funds. The aggregate amount of taxation for the year 1872-3 is annexed. For the county of New York the amount stated is that raised last autumn. The counties are arranged in the order of their population:

**Pennsylvania's New Constitution.**

This instrument contains many things that are new, and some that are good. Apparently, ample provision is made against hasty or unduly considered legislation, against unnecessary special and local legislation, and for the prevention of or punishment for corrupt legislation. The executive department consists of a Governor and Lieut. Governor elected for four years; a Secretary of State, Attorney-General, and Superintendent of Public Instruction, appointed by the Governor and Senate; a Secretary of Internal Affairs, an Auditor General and State Treasurer, to be elected by the people. Neither the Governor nor either of the elective State officers is eligible for the succeeding term. The judicial power of the State is vested in a Supreme Court of seven judges, Courts of Common Pleas, and other inferior courts. The judges are elective, Supreme Court judges for 21 years, ineligible for a second term, and inferior judges for 10 and 5 years. Provision is made for minority representation in the election of judges in certain cases, and also in the election of Directors or Trustees of Corporate Companies. In all cases of felonious homicide, the accused, after conviction and sentence, is entitled to take his case before the Supreme Court for review. Parties to civil suits may, by agreement, dispense with jury trial. On taking office, each officer elect is required to swear that he did not pay or promise to pay any money or other thing of value to procure his nomination or election, other than proper expenses authorized by law; and that he will not accept extra-judicial pay or consideration for the performance or non-

performance of his official duty. False swearing in this regard is made perjury. The pardoning power of the Governor can only be exercised by the concurrence of the Lieut. Governor, Secretary of State, Attorney General and Secretary of Internal Affairs, or any three of them. All elections are to be by ballot, and every ballot is to be numbered in the order in which it is received, the number to be recorded opposite the name upon the poll list. No Federal or State officer can be a judge or inspector of Election. The Court of Common Pleas may, on application of 5 voters in any election district, appoint overseers of election to supervise the proceeding of election officers. Any candidate for office guilty of bribery, fraud, or violation of any election law, shall be forever after disqualified from holding office. In acting on Executive nominations, the Senate must sit with open doors and enter the yeas and nays upon the journal. No Senator or Representative can be appointed to any civil office during the term for which he was elected, and no person holding any other civil office can be a member of the Legislature. The State must maintain public schools for all children over 6 years of age, and appropriate not less than \$1,000,000 per annum for that purpose. Any woman 21 years of age and upward, is eligible to any school office. No Federal officer can hold a State office. No State debt shall be created except for casual deficiencies in the revenue, to repel invasion, suppress insurrection, to defend the State in time of war, or to pay existing debt. No deficiency debt to exceed \$1,000,000.

## Proposed Appointment of Judges.

In accordance with the provisions of the new Judiciary Article of the Constitution, the following questions were decided the last election: I. Shall the Chief Judge and Associate Judges of the Court of Appeals, and the Justices of the Supreme Court, be hereafter elected or appointed? II. Shall the Judges of the Superior Courts of New York City and Brooklyn, of the Court of Common Pleas at Buffalo, and the several County Judges throughout the State, be hereafter elected or appointed? In both cases there was a large majority for the election of the Judges. The following is the vote by counties:

Robert W. Mackey's maj. for Treasurer, 25352; Isaac G. Gordon's maj. for Judge of the Supreme Court, 12286; Ulysses Mercer's maj. in 1872 for Judge of the Supreme Court, 40443; David Stanton's maj. in 1871 for Auditor-General, 14575. The vote of Pennsylvania, leaving out the City and County of Philadelphia, compares as follows: 1873, Hutchinson, 185205; Mackey, 185146; Hutchinson's maj. 59; Ludlow, 183214; Gordon, 188575; Gordon's maj. 5361. 1872, Thompson, 264505;

Mercur, 286207; Mercur's maj. 21642. Net Democratic gain over 1872: On vote for Treasurer, 21701; on vote for Judge, 16281. The net loss to the Republicans on the vote for Treasurer, compared with that for Judge, in 1873, is 5420. In 1871, the counties outside of Philadelphia voted as follows for Auditor-General: McCandless, Dem., 29091; Stanton, Rep., 22092; Stanton's maj. 3081. From a comparison of the honestly-counted vote for Judge in 1873 with that for Auditor-General in 1871, it would appear that, beyond the lack of interest shown by a falling off of about 90000 votes in the aggregate, there had been little change in the political sentiment of Pennsylvania. Mr. Hutchinson, in all probability, was the choice of a majority of the voters of the whole State for Treasurer. Total vote for Treasurer in 1873, 464294; for Judge of the Supreme Court in 1873, 466178; for Judge of the Supreme Court in 1872, 668195; for Auditor-General in 1871, 553619.

THE LEGISLATURE.—Under the Old Constitution the Senate consists of 33 members, 11 of whom are chosen annually. It is at present divided as follows: Democrats, 12; Republicans, 20; Liberal Republican, 1. The House numbers 43 Democrats and 57 Republicans. Republican majority: 7 in Senate, 14 in the House, and 21 on joint ballot. Under the New Constitution, members of the Assembly will be chosen at the general election every second year, their term of service beginning on the first day of December next after their election, and continuing two years. The Senate will be elected once in every four years. The General Assembly will meet on the first Tuesday in January every second year. There will be 50 Senators and 200 Representatives.

The general election in Pennsylvania will be held hereafter biennially, on the Tuesday after the first Monday in November.

## NORTH CAROLINA.

By an amendment to the Constitution, adopted  
 by popular vote in August, 1873, the sessions of  
 the Legislature are hereafter to be held once in  
 two years. Several other amendments were  
 adopted at the same time, but they are of no in-  
 terest to people outside of the State, except  
 that by which the constitutional obligation to  
 consider the public debt "inviolable and not to  
 be questioned," is erased from the Constitu- tion.

## The Tribune for 1874.

**A** YEAR AGO the editor of THE TRIBUNE promised to make this journal, during 1873, a much more valuable and complete newspaper than it had ever been before, and it now points to the achievements of these past twelve months with pardonable pride. Its purpose in 1874 is to surpass its previous record, strengthening its organization in every department, adding to its facilities for publishing the news of the world in advance of all competitors, while fully sustaining its ancient renown as the recognized organ of cultivated and thinking men, and a high authority in literature, science, and art. Never a neutral in politics, THE TRIBUNE is entirely independent of all parties and partizans. It maintains as earnestly as ever, and will always defend the republican principles of equality and justice, with which, under the control of its illustrious founder, HORACE GREELEY, it was for over thirty years identified. It values parties solely as means for securing honest government on sound principles, holds itself aloof from all entangling alliances, waits for the dictum of no caucus or convention, judges of every political act of whatever party solely on its own merits, and maintains the liberty of candid and impartial criticism. THE TRIBUNE endeavors to combine in its editorial discussions frankness with courtesy to all, and wastes no space in personal or professional wrangles with other papers. That the American public appreciate the efforts of THE TRIBUNE is sufficiently proved by the record of the past year. The beginning of 1874 finds the paper more prosperous than ever before, and the limits to its future usefulness and success widening and disappearing on every hand.

## DR. RADWAY'S SARSAPARILLIAN RESOLVENT.

Every drop of the Sarsaparillian Resolvent communicates through the Blood, Sweat, Urine, and other fluids and juices of the system the vigor of life, for it repairs the wastes of the body with new and sound material. Scrofula, Consumption, Glandular Disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the Glands, and other parts of the system, Sore Eyes, Strumorous discharges from the Ears, and the worst forms of Skin Diseases, Eruptions, Fever Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Vomb, and all Weakening and Painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of this wonder of Modern Chemistry, and a few days' use will prove to any person using it, for either of these forms of disease, its potent power to cure them. If the patient, daily becoming reduced by the wastes and decomposition that is continually progressing, succeeds in arresting these wastes, and repairs the same with new material made from healthy blood, and this the Sarsaparillian will and does secure, a cure is certain; for, when once this remedy commences its work of purification, and succeeds in diminishing the loss of wastes, its repairs will be rapid, and every day the patient will feel himself growing better and stronger, the food digesting better, appetite improving, and flesh and weight increasing. Not only does the SARSAPARILLIAN RESOLVENT excel all known remedial agents in the cure of Chronic, Scrofulous, Constitutional, and Skin diseases, but it is the only positive cure for Kidney, Bladder, Urinary and Womb Diseases, Gravel, Diabetes, Dropsy, Stoppage of Water, Incontinence of Urine, Bright's Disease, Albuminuria, and in all cases where there are brick-dust deposits, or the water is thick, cloudy, mixed with substance like the white of an egg, or threads like white silk, or there is a morbid, dark, bilious appearance, and white bone-dust deposits, and when there is a pricking, burning sensation when passing water, and pain in the Small of the Back along the Loins.

### Tumor of 12 years' growth cured by Radway's Resolvent.

BEVERLY, MASS., July 18, 1869.

DR. RADWAY: I have had Ovarian Tumor in the ovaries and bowels. All the doctors said "there was no help for it." I tried everything that was recommended, but nothing helped me. I saw your Resolvent, and thought I would try it, but had no faith in it, because I had suffered for TWELVE YEARS. I took six bottles of the Resolvent, one box of Radway's Pills, and used two bottles of your READY RELIEF; and there is not a sign of a tumor to be seen or felt, and I feel BETTER, SMARTER, and happier than I have for 12 years. The worst tumor was in the left side of the bowels, over the groin. I write this to you for the benefit of others. You can publish if you choose.

HANNAH P. KNAPP.

# A. A. CONSTANTINE'S PERSIAN HEALING, OR PINE TAR SOAP.

For the Toilet, Bath, and Nursery, and as a Hair Renovator this Soap has no equal. The proof is its unprecedented popularity.

It is THE SOAP for the people. All who use it say, "Try CONSTANTINE'S Soap; we want no other."

It cures Pimples on the Face, Prickly Heat, Chafing, Eruptions, Chapped Hands, Salt Rheum, Frosted Feet, Burns, Fresh Cuts, or Wounds of all kinds, Diseases of the Scalp and Skin, and is a GOOD SHAVING SOAP. It beautifies the Complexion by keeping the skin soft and smooth.

In presenting the above Soap, the proprietors feel confident that it merits all the praise which has been bestowed upon it by those who have used it.

The great and rapidly-increasing demand for this Soap places it foremost in the line of *FINE SOAPS FOR EVERY-DAY USE*, and for all *TOILET* purposes.

In the Bath Room, where its cleansing, tonic and healthful effects are experienced upon the cuticle and pores of the skin, it has taken the place of all other soaps, and no one will be without it.

In the Nursery, where mothers are often afflicted with sore nipples, and their children suffer from chafing, rash, prickly heat, sores, etc., its soothing and healing powers make it THE SOAP for every mother's use.

I have used your Soap in my practice extensively, and it has proved the best Healing Soap ever used. It has no equal as a soap for washing the heads and skin of children.

BALDNESS CURED.—I can recommend your Persian Healing Soap for Baldness; it is bringing my hair in beautifully. I consider it the best hair renovator in use.

M. H. COOMBS, 218 Atlantic St., Brooklyn, N. Y.

The wife of the Master Mechanic of the Oil Creek and Alleghany River Railroad lost all, or nearly all, of her hair, about two years ago. She used a cake of your Soap at my request, and her hair commenced to grow. And now, after using three cakes for her hair, she has the best and handsomest head of hair in the town, except one. She would not be without the Soap even if it cost \$1 a cake. Send me one gross of the Soap.

## THE WEEKLY TRIBUNE.

**T**HE WEEKLY TRIBUNE has been for the space of a generation the Farmer's favorite paper. Besides a complete condensation of the news of the week, a selection of literary and miscellaneous reading, and a full page of the best editorials from the Daily, it contains in every number a greater amount of agricultural matter than is furnished by any distinctively agricultural paper. This is prepared expressly for its columns by the best agricultural writers and practical farmers in the United States; and as its contributors are in every part of the country it will be found equally valuable in New England, in the South, on the Pacific slope, or in the Mississippi Valley. Great attention is paid to all subjects connected with the Farm, the Garden, and the Household, and some of the original articles every week are illustrated with wood-cuts. The market quotations of farm produce, cattle, provisions, breadstuffs, dry goods, and all kinds of merchandise, are exceedingly full and scrupulously accurate. The utmost care is bestowed upon the typographical arrangement of the paper, and the print is always clear and legible, and generally larger than that of any other New York paper.

## THE SEMI-WEEKLY TRIBUNE.

**T**HE SEMI-WEEKLY TRIBUNE has grown very rapidly in public favor of late. In addition to a careful summary of the news, it contains all the best of the foreign and domestic correspondence and leading articles of the Daily:—it gives specially the scientific intelligence (including the proceedings of all American scientific societies), with the best of the book reviews, and the miscellaneous matter relating to education, the arts, religion, &c. It has all the commercial news and market reports; all the agricultural articles of the Weekly; and gives, moreover, regularly, a serial work of fiction, presenting in the course of the year three or four of the latest productions of the most popular novelists. As it takes only a few select advertisements, it may be called, considering the extent and variety of its contents, the cheapest newspaper in the world. It is published every Tuesday and Friday, and reaches nearly every post-office east of the Mississippi within one or two days of its issue.

## THE TRIBUNE EXTRAS.

*An Illustrated LIBRARY for ONE DOLLAR.*

**A** NEW FEATURE has been added to American journalism by the valuable TRIBUNE Extra sheets, which have attained such an extraordinary popularity during the past year. They present the fresh fruit of the best intellects of this and other countries, the most remarkable lectures, the most valuable scientific and geographical researches, at a merely nominal price. The following is a full list of the principal contents of the Extras issued during 1873:—(1.) Tyndall, Light. (2.) Beecher, Compulsory Education; Phillips, Lost Arts; Bellows, Is there a God? Mark Twain, Sandwich Islands. (3.) Wilder, Brain and Mind; Barker, Spectroscope; Young, Solar Physics. (4.) Weiss, Shakespearean Studies; Seven Art Studies; Parton, Pilgrim Fathers; Bret Harte, Argonauts. (5.) Elsberg, Acoustics; Silliman, Gold Mining; Godwin, Limits of Science. (6.) Beecher, 7 Lectures. (7.) Beecher, 4 Lectures; T. Starr King, Sermon. (8.) Agassiz, 12 Lectures, Method of Creation; Yale College Fossils. (9.) Credit Mobilier Report. (10.) Science Congress at Portland and Deep Sea Dredging. (11.) Vienna Exhibition Correspondence. (12.) Evangelical Alliance Congress. (13.) Farmers' War Correspondence. (14.) FOR THE NEW YEAR, 1874

## THE GREAT FAMILY PAPER.

**T**IMES change; but there is no change in the *Ledger*, except that of constant improvement. The year which is past is another year added to our experience, and we flatter ourselves that good as we have endeavored to make the *Ledger* hereto, we shall be able to render it still better in the future.

Our means, in consequence of the generous support which we have received from an appreciative public, are very ample, and we employ them in paying more largely and liberally than any other publisher has ever paid, for the very best original matter.

We have the profound satisfaction of believing that we have succeeded in combining in the *Ledger* entertainment and instruction; and that while the *Ledger* is read with the warmest and most intense interest by hundreds of thousands of persons, it is doing as much as any one publication to inculcate sound principles wherever it goes, and to make better men and women of the rising generation.

All kinds of questions which interest the great family of man are answered in the columns of the *Ledger*; and a great amount of information on matters of Law, Business, Marriage, Love, Housekeeping, the Relations of Friends, Personal Differences, Etiquette, Plans of Life, etc., etc., etc., is thus communicated.

One great and guiding principle with us is to inculcate the sentiments of self-respect and self-reliance, and thus to strengthen and render more manly the characters which are just assuming form, to endure through all their days.

The *Ledger* is always full of life. Nobody ever complains that even a single number is dull.

It has the largest number of great and distinguished writers.

It contains the purest, sweetest, and most delightful stories, striking narratives, and instructive biographical and historical sketches.

It has the most popular and carefully prepared collection of scientific facts.

Many of the most distinguished clergymen of the country write for it.

All our favorite old writers will continue to write for the *Ledger*; and we are always on the keen look-out for any new developments of *real* rising genius.

However hard the times may be we apprehend there is nothing else of the same cost which our readers would not prefer to be deprived of rather than of the *Ledger*; and we also believe that the lessons of economy and thrift inculcated in our columns do much to prevent hard times, and to mitigate their severity.

Our readers will bear us witness that we are better at performing than at promising; and, with the assurance that, while our experience is greater, our efforts to make the *Ledger* the best family paper in the world will not be slackened, we leave them to judge our future by our past.

### Our Terms for 1874—Now is the Time to Subscribe.

Single copies, \$3 per annum; four copies, \$10, which is \$2.50 a copy; eight copies, \$20. The party who sends us \$20 for a club of eight copies (all sent at one time), will be entitled to a copy *free*. Postmasters and others who get up clubs, in their respective towns, can afterward add single copies at \$2.50. No subscriptions taken for a less period than one year. Canada subscribers must send twenty cents in addition to the subscription, to pay the American postage. When a draft or money-order can conveniently be sent, it will be preferred, as it will prevent the possibility of the loss of money by mail. The postage on the *Ledger* to all parts of the country is only twenty cents a year, or five cents a quarter, payable at the office where the paper is delivered.

We employ no traveling agents. Address all communications to

# TRIBUNE ALMANAC FOR 1875.

## Astronomical Department.

Computed and arranged expressly for this WORK, by SAMUEL H. WRIGHT, A. M., M. D.,  
Penn Yan, Yates County, N. Y.

Entered according to Act of Congress, in the year 1874, by THE TRIBUNE ASSOCIATION, in the office of the  
Librarian of Congress at Washington.

## ECLIPSES.

There will be two Eclipses this year:  
I. A Total Eclipse of the Sun, April 6. Invisible in the United States.

II. An Annular Eclipse of the Sun, Sept. 29. Visible east of the Mississippi river as a Partial Eclipse, the Sun rising Eclipsed. Also in Africa and Southwestern Europe. The Eclipse will be

annular or ring-like from Sodus Point, on the south shore of Lake Ontario, Lyons, Oswego, Syracuse, Utica, Saratoga, and Northern Massachusetts, to the ocean. Along the central line the size of the Eclipse will be 11½ digits.

## Explanation of the above Table.

In the table above it is to be understood that the word "near" and the character ☿ (conjunction) are synonymous, and mean that the two bodies are nearest each other at the time expressed, and that they are then on a line running from the North Pole through both bodies, and have the same right ascension. GR. ELON. means greatest elongation or greatest apparent angular distance from the SUN. STATIONARY means that the planet is then without apparent motion east or west with respect to the Stars, and is about to move in a direction contrary to

that it last had. The character ♀ indicates that the planet is opposite the Sun, or 180 deg., or a half circle, east of it, and rises when the Sun sets, and sets when he rises. When a planet is a quarter of a circle, or 90 deg. from the Sun, east or west, it is known by ☐.

PLANETARY CHARACTERS.—☿ Mercury, ♀ Venus, ♀ Mars, ♀ Jupiter, ♀ Saturn, ☿ Uranus, ☿ Neptune, ☿ Moon.

The above table enables us to find the planets throughout the year.

## TRADE AND COMMERCE.

The following tables of the foreign commerce of the United States, Great Britain and the Dominion of Canada, will be found interesting and instructive, as illustrating the transition from a period of great activity in trade to one of great depression. In order to enable the reader to make a full comparison, we have given the statistics of five consecutive years for the United States and Great Britain and three for Canada. It will be found, in the case of the United States, that the imports of sugar, molasses, tea and coffee show a great deal of steadiness, while those of iron, steel and lead, and cotton, woolen, silk and linen goods have heavily declined. Of these facts the table of quantities affords a better measure than that of values.

In examining the exports of the United States, the great fall in the value per cwt. of cotton and provisions, comparing 1865-70 with 1873-4, is to be noticed. Other striking features are the enormous quantities of breadstuffs and provisions exported in the last three years, the increase ranging from two to fivefold in four years. In the case of some of these articles the capacity of

the foreign markets to absorb our productions appears to have been reached, and no further increase is to be expected, at least until trade in Great Britain becomes more active. Bacon, hams, beef and lard are examples of the products to which we refer. On the other hand, there is reason to expect an increase in the exports of coal, leather, manufactures of iron and steel, and cotton goods. The nation is under a necessity to export, both in payment for its imports and for the settlement of its large debts to foreign ers. If cotton, breadstuffs, provisions, petroleum, tobacco and the available coin and bullion prove inadequate for such payments, other articles will be taken—namely, manufactures.

The imports of Great Britain are rated at their value, exclusive of duty, in the ports where they are entered, including freights and profits of the importer. They are chiefly raw materials and articles of food. The exports, on the contrary, are largely made up of manufactured goods. The values of the foreign trade of Great Britain are uniformly given in pounds sterling, the value of which is \$4.86 and 65-100ths cents in our gold coin.

## THE TRANSPORTATION QUESTION.

## Statistics of the Business of the Canals and Trunk Railroads.

From the Western Lake ports to the entrance of the Erie Canal at Buffalo, and to that of the Canadian Welland Canal at Fort Colborne, the distances are about equal. Of the 500 miles of water navigation between Buffalo and N. York, 35 are by the Erie Canal. Of the 375 miles of navigation between Port Colborne and Montreal, but 71 miles are canal navigation. The Erie Canal locks are 110 ft. long, 18 ft. wide, and 7 ft. deep. The present locks on the Welland Canal are 150 ft. long, 26½ ft. wide, and 10½ ft. deep. The locks of the enlarged Welland Canal will be 270 ft. long, 45 ft. wide and 12 ft. deep. The Erie Canal is navigable for boats 103 ft. long and 17½ ft. wide, drawing 7 ft. of water, and carrying

200 to 225 tons of cargo. The Welland Canal is navigable for vessels 142½ ft. long and 26 ft. wide, drawing 9½ ft. of water, and carrying 350 to 400 tons of cargo. The enlarged Welland Canal, which will probably be completed within three years, will accommodate vessels carrying from 1200 to 1500 tons of cargo.

It thus appears that the great struggle with the Welland Canal for the carriage of grain from the West to the seaboard, for shipment to Europe, is yet to come off. Meanwhile, the railroads, by their complete organization of thorough freight lines for the carriage of flour and grain, without transhipment from the West to every village and town in the East which can be

reached by the locomotive, have rapidly increased their grain carrying business, while that of the canal, though stimulated by low tolls and an unusual demand for export to foreign countries, appears to have attained its maximum. Unless, indeed, some means be found of increasing the capacity or efficiency of the canals, grain will be crowded off by the coal, lumber and other bulky freight, for the transportation of which railroad competition is not so keen.

## MARKETS FOR AND PRICES OF WHEAT.

The following tables, which have been compiled expressly for this work from the official documents of Great Britain and the United States, will be found to contain information which may be put to profitable use by the intelligent farmer:

## I.

Our first table is designed to show: (1.) That the quantity of wheat exported from the United States to foreign countries is subject to great fluctuations. Thus we see that it rose from 3 million bushels in 1859 to 37 millions in 1862;

then fell to below 6 million bushels in 1866 and 1867, and increased again to the enormous quantity of 71 million bushels in 1874. (2.) That the United Kingdom of Great Britain and Ireland is, by comparison with other countries, the only market which can absorb any great portion of our surplus wheat. We have counted the wheat which goes down the St. Lawrence as exported to Great Britain, for that is the destination of all but a small portion of it. After Great Britain, Portugal is our steadiest customer. Though the demands of France are in the aggregate larger, that nation is a purchaser only when her harvests are below an average. The same observation applies to Belgium.

## II.

We now direct our attention to the market afforded our wheat growers by the United Kingdom. It is to be observed, (1.) That the aggregate British importations have greatly increased since the year 1854, with which our table starts. The average quantity of wheat needed from abroad may be stated at 17 million cwt. fifteen years ago, and 34 millions now, the annual imports varying at present from 44 million cwt. to 24 millions. (2.) In ordinary seasons the three great competitors for the English market are the United States, Russia and Germany, while in years of great abundance France must be added to the list. On the other hand, in seasons of scarcity large quantities of wheat have been bought of Tur-

key, Egypt and Austria. (3.) Comparing the United States (including our shipments via Canada), Russia and Germany, we find that the United States ranked first as a source of supply in 1856, '60, '61, '62, '63, '64, '66, '70, '71 and '73-10 years; second in 1855, '57, '58, '68 and '72-5 years; and third in 1854, '59, '65, '66, '67-5 years. Russia ranked first in 1865, '66, '67, '68 and '72-5 years, and second in 1864, '66, '69, '70, '71 and '73-7 years, and third in 1855, '57, '58, '60, '61, '62, '63 and '64-8 years. Germany ranked first in 1861, '65, '67, '68 and '69-5 years; second in 1860, '61, '62, '63, '64, '65, '66 and '67-8 years, and third in 1856, '68, '69, '70, '71, '72 and '73-7 years. Thus Russia and the United States are now the great rivals, Germany having fallen to a secondary rank.

## III.

We next present a table of average monthly prices of British wheat. We have reduced them to dollars and cents, counting the English shilling as equal to 2½ cents in our coin. The English averages are obtained by computation from all the home-grown wheat sold in 250 market towns down to 1861, and since then in 150 towns. They are therefore a trustworthy measure, not only of the value of wheat in England, but of the changes in its value in the principal countries by which the English market is supplied, since when the price of wheat rises or falls in England it rises and falls in New York and Odessa. Table III should be carefully compared with Tables I, II, IV and V. The relations of cause and effect which will be exhibited by such a comparison are very instructive and of the highest importance. Care, however, must be taken not to mistake the cause for the effect, or the effect for the cause. Some of the more important results of these relations of cause and effect are as follows:

(1.) The wide range of the fluctuations, the price in seasons of short supply being sometimes double that in seasons of great abundance. For example, in November, 1855, the average was \$2.42 per bushel; in March, 1859, \$1.21; in May, 1868, \$2.21; and in February and March, 1870, \$1.24.

(2.) By a singular coincidence the highest and lowest yearly averages occur quite regularly once in six years. The years of highest prices are 1855-6, 1861-2, 1867-8, and 1873-4. The years of lowest prices are 1858-9, 1864-5, and 1869-70.

(3.) Of the four years of highest prices, two (1862 and 1874) are years of very heavy exports from the United States, and two (1855-6 and 1867-8) of only moderately heavy exports. In the two latter the year's average price rose to \$2.22 and \$2.05 per bushel respectively; while in the two former it rose only to \$1.74 and \$1.84.

(4.) The paramount influence of the English home-grown wheat over prices appears from a comparison of Tables IV and V with Table III. Take the first ten years, during which the sales of British wheat were returned from 250 markets. Of this series 1858-9 and 1863-4 are the years of lowest prices; and the three years, 1857-8, '58-9 and '59-60, form a series of low-priced years. It will be noticed that the supply of home-grown English wheat is very great in each of those years, and in strong contrast to that of the years 1860-1, '61-2 and '62-3 which intervene. (See Table IV.) But Table I shows that the imports in the same years are only of moderate amounts; while, on the other hand, in the years 1861, 2 and 3 they were very great, and greatest of all in 1861-2, the year of highest price and smallest home supply. This shows:

(a), that a full harvest in England depresses

prices and discourages imports, creating a competition among the wheat-producing nations in a market already well supplied; (b), that a short English harvest, by advancing prices, attracts wheat from all nations which produce a surplus. (c.) The tables do not show a single instance of sufficient competition among the exporting nations to make a low price in England, when the English harvest, as indicated by the returns of quantities sold, is materially below an average, though it is possible that such an event might happen. The reason it does not is probably because France and Germany are so near to England as to be similarly affected by any influences which cause the English crop to fall short of an average.

(5.) The highest prices, as we have seen, are produced by a short supply of English wheat, combined with only an average surplus for exportation in the United States. Of such years 1867-8 is the best example. The next highest are in years of deficient English supply and full harvests in the United States, of which 1862-3 and 1873-4 are the best examples. Lastly, when the English grown supply is large, as it was in all the years when the average is below \$1.40 per bushel, nothing but a failure of both the United States and Russia to produce their usual surplus for exportation can, of late years, at all events, prevent a low range of prices. In the year 1855-6 this contingency appears to have happened, the sales of English wheat being very great, and the prices extremely high, but the explanation is that no wheat could be had from Russia on account of the war, and only a little from the United States, we, too, having but little to spare.

(6.) It is a well-known fact that a small quantity of wheat in excess of the average supply depresses prices in a much greater proportion than the ratio of the excess to the average crop. The reverse is the case when there is a deficiency. This fact is amply illustrated by our tables.

(7.) The effect of the expansion or contraction of the currency on the price of wheat in the United States is exactly measured by its effect on the price of gold. The present low price of wheat is not in the least the result of any operation on the currency. The gold premium was as low four years ago, in November and December, 1870, as it is now, as may be seen by consulting the table of the monthly prices of gold on another page of this ALMANAC. On the other hand, it would not be possible to increase the price of wheat by expanding the currency and putting up the price of gold without putting up the prices of other articles in the same proportion, with the superadded disadvantage of fluctuations, which no farmer could foresee, and which would be more frequent and violent as the currency became less valuable.

## IV.

It will be found very instructive to compare the preceding tables with those on page 14, showing the carrying trade of the New York canals. The effect of lowering the tolls on the agricultural productions carried has been greatly overstated. The increased movement of wheat over the Erie canal in the years 1871, 1872, and 1873 was more the effect of the increased wants of Great Britain, and the consequent advance of 30 or 40 cents a bushel over the average price of the years 1863-6 and 1868-70, than of the reduction of three cents a bushel in the canal tolls from Buffalo to Troy. The high prices of 1867 and 1868 did not bring a great increase of business for the canal, for the excellent reason that the Western farmers did not have the wheat to send. If the wheat had been in existence, \$2.30 to \$2.80 for a bushel of No. 2 Milwaukee at New York would have brought it forward.

## V.

The exports of wheat and wheat flour from the United Kingdom are of insignificant amount, compared with the imports. The following

## VI.

The quantity of wheat grown in the United Kingdom is estimated at 14 million quarters, or 112 million bushels, in average years. The average quantity imported may be reckoned at 8 million quarters, or 64 million bushels in the shape of grain, and 1½ million quarters, or 12 million bushels, in the shape of flour. It is, therefore, apparent that the wheat included in the

following tables is in no case one-half of the annual growth of the United Kingdom. For the period from 1854 to 1864, when the quantities sold were returned from 200 towns, we may reckon them at one-third the entire produce of the United Kingdom, and from 1864 to 1874, when they are returned from 150 towns, at from one-fourth to one-fifth the total harvest.

## VII.

The following chart, or diagram, is intended to show at one view, most of the separate facts presented in the three preceding pages.

The figures at the extreme right and left mark a scale of prices per bushel.

The columns adjoining them on the inside denote the number of millions of quarters, the quarter consisting of eight bushels.

The line at the top marks the harvest year, beginning with September.

The characters "oooo," by their position with reference to the scale of quarters at the slides, denote in millions of quarters the estimated supply of British wheat. The estimate is made by multiplying the number of millions of quarters sold, as shown in Tables V and VI, by three down to 1861, and in the years since then by four.

The characters "xxx" denote in the same manner the number of millions of quarters of foreign wheat imported into Great Britain.

The heavy black line marks the average price per bushel for the year.

The line at the bottom gives a rough approximation of the total supply, being the total of the estimated English product and the imports. It is not, of course, strictly accurate, but it illustrates the principle that a comparatively small excess or deficiency of supply produces a much greater fluctuation in price.

The dotted lines running straight across the diagram are merely for convenience in applying the scales at the side.

The following will further illustrate the use of the diagram. Take the year 1862, which is the seventh of the 10th column. The line "ooo" opposite the 10th scale of quarters, showing that the supply of British wheat was, in round numbers,  $\frac{1}{4}$  million quarters. The line "xxx" is opposite to  $\frac{1}{4}$  in the same scale, showing that the imports of wheat were  $\frac{1}{4}$  million quarters. The heavy blackline is opposite  $\$1.30$  in the scale of prices, showing that the average price was  $\$1.30$  per bushel in gold. Comparing the above with the supplies and price of 1867-8,

three spaces to the right, we notice a falling off to 10½ million quarters in the British supply, an increase to 8½ millions in the imports, and an advance in the price to \$2.05 per bushel, all which is denoted by the changed position of the characters.

We may remark, in explanation of the discrepancy in the total supply, which appears to have been one less million quarters, greater in 1867-8, than in 1864-5, that the effect of high price is to bring to the market a larger proportion of the total yield, wheat being held back in the cheap years. It is undoubtedly the fact that 2,618,891 quarters of British wheat sold in the dear year, 1867-8, constituted a larger proportion of the total harvested than did the 3,440,510 quarters which were sold in the same markets in the cheap year, 1864-5. Unfortunately, there are no means of measuring the operation of this principle.

When the plan upon which the diagram is constructed is once understood, it will be found to illustrate the principles which we have endeavored to explain much more clearly than solid columns of statistics.

As a general conclusion, it may be considered as established that the effect of unrestricted importation, improved means of communication by land and sea, and the use of the telegraph, has been to give greater steadiness to the price of wheat in England and throughout the world. They neither rise so high, nor sink so low as was formerly the case. It is clear, however, that no effort of human ingenuity can prevent the price of food from rising when there is a scarcity, and falling when there is an abundance, and that, too, on a considerable scale. The peculiar situation of Great Britain, as the greatest commercial nation in the world and, at the same time, in no slight degree, dependent on other nations for bread, causes the price of wheat in all civilized nations to turn on the relation of England's to the surplus of other countries, and this is particularly the case with regard to prices in the United States.

## ABSTRACT OF PUBLIC LAWS,

PASSED AT THE FIRST SESSION OF THE FORTY-THIRD CONGRESS, WITH A SUMMARY OF APPROPRIATIONS MADE.

**Chap. 7.**—Limits the steam pressure of steamboats used exclusively for towing and carrying freight on the Mississippi river to 150 lbs., in place of 110 lbs., as provided in the act approved February 28, 1871.

## REPEAL OF THE SALARY GRAB.

**Chap. 11.**—*An act repealing the increase of salaries of members of Congress, and other officers.*—Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That so much of the act of March third, eighteen hundred and seventy-three, entitled, "An act making appropriations for legislative, executive, and judicial expenses of the Government for the year ending June thirtieth, eighteen hundred and seventy-four," as provides for the increase of the compensation of public officers and employees, whether members of Congress, Delegates, or others, except the President of the United States and the Justices of the Supreme Court, be, and the same is hereby, repealed, and the salaries, compensation, and allowances of all said persons, except as aforesaid, shall be as fixed by the laws in force at the time of the passage of said act: *Provided*, That mileage shall not be allowed for the first session of the Forty-third Congress; that all moneys appropriated as compensation to the members of the Forty-second Congress, in excess of the mileage and allowances fixed by law at the commencement of said Congress, and which shall not have been drawn by the members of said Congress respectively, or which having been drawn, have been returned in any form to the United States, are hereby covered into the Treasury of the United States, and are declared to be the moneys of the United States absolutely, the same as if they had never been appropriated as aforesaid.

Approved, January 20, 1874.

(For the text of the Salary Grab, see page 25 of the Tribune Almanac for 1874.)

**Chap. 35.**—*In relation to Engineers in the Navy.*—Changes the title of first assistant engineers to passed assistant engineers, and of second assistant engineers to assistant engineers. Makes the course of instruction for cadet engineers at the naval academy four years.

## TREE PLANTING ON WESTERN PRAIRIES.

**Chap. 55.**—*An act to amend the act entitled "An act to encourage the growth of timber on western prairies."*—Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled, That the act entitled "An act to encourage the growth of timber on western prairies," approved March third, eighteen hundred and seventy-three, be, and the same is hereby, amended so as to read as follows: That any person who is the head of a family or who has arrived at the age of twenty-one years, and is a citizen of the United States, or who shall have filed his declaration of intention to become such, as required by the naturalization laws of the United States, who shall plant, protect, and keep in a healthy, growing condition for eight years,

forty acres of timber, the trees thereon not being more than twelve feet apart each way, on any quarter-section of any of the public lands of the United States, or twenty acres on any legal subdivision of eighty acres, or ten acres on any legal subdivision of forty acres, or one-fourth part of any fractional subdivision of land less than forty acres, shall be entitled to a patent for the whole of said quarter-section, or of such legal subdivision of eighty or forty acres, or fractional subdivision of less than forty acres, as the case may be, at the expiration of said eight years, on making proof of such fact by not less than two credible witnesses: *Provided*, That not more than one-quarter of any section shall be thus granted, and that no person shall make more than one entry under the provisions of this act, unless fractional subdivisions of less than forty acres are entered which, in the aggregate, shall not exceed one quarter-section.

**Sec. 2.** That the person applying for the benefit of this act shall, upon application to the register of the land-district in which he or she is about to make such entry, make affidavit before the register, or the receiver, or some officer authorized to administer oaths in the district where the land is situated, who is required by law to use an official seal, that said entry is made for the cultivation of timber, and upon filing said affidavit with said register and said receiver, and on payment of ten dollars, he or she shall thereupon be permitted to enter the quantity of land specified; and the party making an entry of a quarter-section under the provisions of this act shall be required to break ten acres of the land covered thereby the first year, ten acres the second year, and twenty acres the third year after date of entry, and to plant ten acres of timber the second year, ten acres the third year, and twenty acres the fourth year after date of entry. A party making an entry of eighty acres shall break and plant at the times hereinbefore prescribed, one-half of the quantity required of a party who enters a quarter-section, and a party entering forty acres shall break and plant, at the times hereinbefore prescribed, one-quarter of the quantity required of a party who enters a quarter-section, or a proportionate quantity for any smaller fractional subdivision: *Provided, however*, That no final certificate shall be given or patent issued for the land so entered until the expiration of eight years from the date of such entry; and, if at the expiration of such time, or at any time within five years thereafter, the person making such entry, or if he or she be dead, his or her heirs or legal representatives shall prove, by two credible witnesses, that he, or she, or they have planted, and, for not less than eight years, have cultivated and protected such quantity and character of timber as aforesaid, they shall receive a patent for such quarter-section or legal subdivision of eighty or forty acres of land, or for any fractional quantity of less than forty acres, as herein provided. And in case of the death of a person who has complied with the provisions of this act for the period of three years, his heirs or legal representatives shall have the option to comply with the provisions of this act, and receive, at the ex-

piration of eight years, a patent for one hundred and sixty acres, or receive without delay a patent for forty acres, relinquishing all claim to the remainder.

SEC. 3. That if at any time after the filing of said affidavit, and prior to the issuing of the patent for said land, the claimant shall abandon the land, or fail to do the breaking and planting required by this act, or any part thereof, or shall fail to cultivate, protect, and keep in good condition such timber, then, and in that event, such land shall be subject to entry under the homestead laws, or by some other person under the provisions of this act: *Provided*, That the party making claim to said land, either as a homestead settler or under this act, shall give, at the time of filing his application, such notice to the original claimant as shall be prescribed by the rules established by the Commissioner of the General Land Office, and the rights of the parties shall be determined as in other contested cases.

SEC. 4. That each and every person who, under the provisions of the act entitled "An act to secure homesteads to actual settlers on the public domain," approved May twentieth, eighteen hundred and sixty-two, or any amendment thereto, having a homestead on said public domain, who, at any time after the end of the third year of his or her residence thereon, shall, in addition to the settlement and improvements now required by law, have had under cultivation, for two years, one acre of timber, the trees thereon not being more than twelve feet apart each way, and in a good thrifty condition, for each and every sixteen acres of said homestead, shall, upon due proof of such fact by two credible witnesses, receive his or her patent for said homestead.

SEC. 5. That no land acquired under the provisions of this act shall in any event become liable to the satisfaction of any debt or debts contracted prior to the issuing of certificate therefor.

SEC. 6. That the Commissioner of the General Land Office is hereby required to prepare and issue such rules and regulations, consistent with this act, as shall be necessary and proper to carry its provisions into effect; and that the registers and the receivers of the several land offices shall each be entitled to receive two dollars at the time of entry, and the same sum when the claim is finally established and the final certificate issued.

SEC. 7. That the fifth section of the act entitled "An act in addition to an act to punish crimes against the United States, and for other purposes," approved March third, eighteen hundred and fifty-seven, shall extend to all oaths, affirmations, and affidavits required or authorized by this act.

SEC. 8. That parties who have already made entries under the act approved March third, eighteen hundred and seventy-three, of which this is amendatory, shall be permitted to complete the same upon full compliance with the provisions of this act.

Approved, March 18, 1874.

(The act hereby amended is given in full in the Tribune Almanac for 1874.)

#### ENCOURAGEMENT OF PUBLIC MARINE SCHOOLS.

**Chap. 339.**—*An act to encourage the establishment of public marine schools.—Be it enacted by the Senate and House of Repre-*

*sentatives of the United States of America in Congress assembled*, That the Secretary of the Navy, to promote nautical education, is hereby authorized and empowered to furnish, upon the application in writing of the Governor of the State, a suitable vessel of the Navy, with all her apparel, charts, books, and instruments of navigation, provided the same can be spared without detriment to the naval service, to be used for the benefit of any nautical school, or school or college having a nautical branch, established at each or any of the ports of New York, Boston, Philadelphia, Baltimore, Norfolk, and San Francisco, upon the condition that there shall be maintained, at such port, a school or branch of a school for the instruction of youths in navigation, seamanship, marine engineering and all matters pertaining to the proper construction, equipment and sailing of vessels or any particular branch thereof: And the President of the United States is hereby authorized, when in his opinion the same can be done without detriment to the public service, to detail proper officers of the Navy as superintendents of, or instructors in, such schools: *Provided*, That if any such school shall be discontinued, or the good of the naval service shall require, such vessel shall be immediately restored to the Secretary of the Navy, and the officers so detailed recalled: *And provided further*, That no person shall be sentenced to, or received at, such schools as a punishment or commutation of punishment for crime.

Approved, June 20, 1874.

#### THE CURRENCY.

The following is the Dawes Compromise Bank Note Redemption, Inflation, Redistribution bill, in full:

**Chap. 343.**—*An act fixing the amount of United States notes, providing for a redistribution of the national bank currency, and for other purposes.—Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled*, That the act entitled "An act to provide a national currency secured by a pledge of the United States bonds, and to provide for the circulation and redemption thereof," approved June third, eighteen hundred and sixty-four, shall hereafter be known as "the national bank act."

#### *Release of Reserves on Circulation. Reserves on Deposits Retained.*

SEC. 2. That section thirty-one of the "the national bank act" be so amended that the several associations therein provided for shall not hereafter be required to keep on hand any amount of money whatever, by reason of the amount of their respective circulations; but the moneys required by said section to be kept at all times on hand shall be determined by the amount of deposits in all respects, as provided for in the said section.

#### *Provisions for Redemption of Bank Notes.*

SEC. 3. That every association organized, or to be organized, under the provisions of the said act, and of the several acts amendatory thereof, shall at all times keep and have on deposit in the treasury of the United States, in lawful money of the United States, a sum equal to five per centum of its circulation, to be held and used for the redemption of of such circulation; which sum shall

be counted as a part of its lawful reserve, as provided in section two of this act; and when the circulating notes of any such associations, assorted or unsorted, shall be presented for redemption, in sums of one thousand dollars, or any multiple thereof, to the Treasurer of the United States, the same shall be redeemed in United States notes. All notes so redeemed shall be charged by the Treasurer of the United States to the respective associations issuing the same, and he shall notify them severally, on the first day of each month, or oftener, at his discretion, of the amount of such redemptions; and whenever such redemptions for any association shall amount to the sum of five hundred dollars, such association so notified shall forthwith deposit with the Treasurer of the United States a sum in United States notes equal to the amount of its circulating notes so redeemed. And all notes of national banks worn, defaced, mutilated, or otherwise unfit for circulation shall, when received by any assistant treasurer, or at any designated depository of the United States, be forwarded to the Treasurer of the United States for redemption as provided herein. And when such redemptions have been so reimbursed, the circulating notes so redeemed shall be forwarded to the respective associations by which they were issued; but if any of such notes are worn, mutilated, defaced, or rendered otherwise unfit for use, they shall be forwarded to the Comptroller of the Currency and destroyed and replaced as now provided by law: *Provided*, That each of said associations shall reimburse to the Treasury the charges for transportation, and the costs for assorting such notes; and the associations hereafter organized shall also severally reimburse to the Treasury the cost of engraving such plates as shall be ordered by each association respectively; and the amount assessed upon each association shall be in proportion to the circulation redeemed, and be charged to the fund on deposit with the Treasurer: *And provided further*, That so much of section thirty-two of said national bank act requiring or permitting the redemption of its circulating notes elsewhere than at its own counter, except as provided for in this section, is hereby repealed.

#### *Withdrawal of Circulation.*

SEC. 4. That any association organized under this act, or any of the acts of which this is an amendment, desiring to withdraw its circulating notes, in whole or in part, may, upon the deposit of lawful money with the Treasurer of the United States in sums of not less than nine thousand dollars, take up the bonds which said association has on deposit with the Treasurer for the security of such circulating notes; which bonds shall be assigned to the bank in the manner specified in the nineteenth section of the national bank act; and the outstanding notes of said association, to an amount equal to the legal tender notes deposited, shall be redeemed at the Treasury of the United States, and destroyed as now provided by law: *Provided*, That the amount of the bonds on deposit for circulation shall not be reduced below fifty thousand dollars.

#### *Charter Numbers of Associations to be Printed on National Bank Notes.*

SEC. 5. That the Comptroller of the Currency shall, under such rules and regulations as the

Secretary of the Treasury may prescribe, cause the charter numbers of the association to be printed upon all national bank notes which may be hereafter issued by him.

#### *Increase of the Lawful Legal Tender Circulation.*

SEC. 6. That the amount of United States note outstanding and to be used as a part of the circulating medium, shall not exceed the sum of three hundred and eighty-two million dollars, which said sum shall appear in each monthly statement of the public debt, and no part thereof shall be held or used as a reserve.

#### *Withdrawal of Currency to Secure Equitable Distribution.*

SEC. 7. That so much of the act entitled "An act to provide for the redemption of the three per centum temporary loan certificates, and for an increase of national bank notes," as provides that no circulation shall be withdrawn under the provisions of section six of said act, until after the fifty-four millions granted in section one of said act shall have been taken up, is hereby repealed; and it shall be the duty of the Comptroller of the Currency, under the direction of the Secretary of the Treasury, to proceed forthwith, and he is hereby authorized and required, from time to time, as applications shall be duly made therefor, and until the full amount of fifty-five million dollars shall be withdrawn, to make requisitions upon each of the national banks described in said section, and in the manner therein provided, organized in States having an excess of circulation, to withdraw and return so much of their circulation as by said act may be apportioned to be withdrawn from them, or, in lieu thereof, to deposit in the Treasury of the United States lawful money sufficient to redeem such circulation, and upon the return of the circulation required, or the deposit of lawful money, as herein provided, a proportionate amount of the bonds held to secure the circulation of such association as shall make such return or deposit shall be surrendered to it.

#### *Delinquent Banks, How Dealt With.*

SEC. 8. That upon the failure of the national banks upon which requisition for circulation shall be made, or of any of them, to return the amount required, or to deposit in the Treasury lawful money to redeem the circulation required, within thirty days, the Comptroller of the Currency shall at once sell, as provided in section forty-nine of the national currency act approved June third, eighteen hundred and sixty-four, bonds held to secure the redemption of the circulation of the association or associations which shall so fail, to an amount sufficient to redeem the circulation required of such association or associations, and with the proceeds, which shall be deposited in the Treasury of the United States, so much of the circulation of such association or associations shall be redeemed as will equal the amount required and not returned, and if there be any excess of proceeds over the amount required for such redemption, it shall be returned to the association or associations whose bonds shall have been sold. And it shall be the duty of the Treasurer, assistant treasurers, designated depositaries, and national bank depositaries of

the United States, who shall be kept informed by the Comptroller of the Currency of such associations as shall fail to return circulation as required, to assort and return to the Treasury for redemption the notes of such associations as shall come into their hands until the amount required shall be redeemed, and in like manner to assort and return to the Treasury, for redemption, the notes of such national banks as have failed, or gone into voluntary liquidation for the purpose of winding up their affairs, and of such as shall hereafter so fail or go into liquidation.

#### *Redistribution of Bank Note Circulation.*

SEC. 9. That from and after the passage of this act it shall be lawful for the Comptroller of the Currency, and he is hereby required, to issue circulating notes without delay, as applications therefor are made, not to exceed the sum of fifty-five million dollars, to associations organized, or to be organized, in those States and Territories having less than their proportion of circulation, under an apportionment made on the basis of population and of wealth, as shown by the returns of the census of eighteen hundred and seventy; and every association hereafter organized shall be subject to, and be governed by, the rules, restrictions, and limitations, and possess the rights, privileges, and franchises, now or hereafter to be prescribed by law as to national banking associations, with the same power to amend, alter, and repeal provided by "the national bank act." *Provided*, That the whole amount of circulation withdrawn and redeemed from banks transacting business shall not exceed fifty-five million dollars, and that such circulation shall be withdrawn and redeemed as it shall be necessary to supply the circulation previously issued to the banks in those States having less than their apportionment: *And provided further*, That not more than thirty million dollars shall be withdrawn and redeemed as herein contemplated during the fiscal year ending June thirtieth, eighteen hundred and seventy-five.

Approved, June 20, 1874.

#### AMENDMENTS TO THE BANKRUPT ACT.

**Chap. 390.**—*An act to amend and supplement an act entitled "An act to establish a uniform system of bankruptcy throughout the United States," approved March 2, 1867, and for other purposes*—The court may direct the receiver or assignee to take possession of the property and carry on the business of the debtor, but not for a period exceeding nine months. Such order shall not be made, however, until the court shall be satisfied that it is approved by a majority in value of the creditors. Unless otherwise ordered by the court, the assignee shall sell the property of the bankrupt at public auction. The court may, in its discretion, order any real estate of the bankrupt to be sold for one-fourth cash at the time of sale, and the residue within eighteen months, in such installments as the court may direct, bearing interest at seven per cent., and secured by mortgage. Penalties for neglect, fraud, &c., on part of assignee are prescribed.

#### *Composition with Creditors.*

In all cases of bankruptcy the creditors may

resolve that a composition proposed by the debtor shall be accepted, provided that the proposition is agreed to by a majority in number and three-fourths in the amount of their claims. Creditors whose debts amount to less than \$50 shall not be reckoned in determining the majority in number. Creditors whose debts are fully secured shall not be entitled to vote upon the proposition.

#### *Reduction of Fees.*

The fees, commissions, charges, and allowances, excepting actual and necessary disbursements, are reduced to one-half those formerly provided.

(A synopsis of the act, to which the above is an amendment, is given in the Tribune Almanac for 1869.)

#### MOIETIES REPEALED.

**Chap. 193.**—*To amend the Customs-Revenue laws and repeal Moieties.*—Abolishes moieties to officers of the revenue and informers, provides for the payment of all fines into the Treasury, and appropriates \$100,000 to the Secretary of the Treasury, out of which to make suitable compensation in certain cases. Not to exceed \$5,000 shall be paid to informers who are not officers of the United States.

#### *Production of Books, Papers, &c.*

SEC. 5. That all suits and proceedings other than criminal arising under any of the revenue laws of the United States, the attorney representing the Government, whenever, in his belief, any business-book, invoice, or paper belonging to or under the control of the defendant or claimant, will tend to prove any allegation made by the United States, may make a written motion, particularly describing such book, invoice, or paper, and setting forth the allegation which he expects to prove; and thereupon the court in which suit or proceeding is pending may, at its discretion, issue a notice to the defendant or claimant to produce such book, invoice, or paper in court, at a day and hour to be specified in said notice, which, together with a copy of said motion, shall be served formally on the defendant or claimant by the United States marshal, by delivering to him a certified copy thereof, or otherwise serving the same as original notices of suit in the same court are served; and if the defendant or claimant shall fail or refuse to produce such book, invoice, or paper, in obedience to such notice, the allegations stated in the said motion shall be taken as confessed, unless his failure or refusal to produce the same shall be explained to the satisfaction of the court. And if produced, the said attorney shall be permitted, under the direction of the court, to make examination (at which examination the defendant or claimant, or his agent, may be present) of such entries in said book, invoice, or paper as relate to or tend to prove the allegation aforesaid, and may offer the same in evidence on behalf of the United States. But the owner of said books and papers, his agent or attorney, shall have, subject to the order of the court, the custody of them, except pending their examination in court as aforesaid.

#### *Penalty for False Invoices.*

SEC. 12. That any owner, importer, consignee,

agent, or other person who shall, with intent to defraud the revenue, make, or attempt to make, any entry of imported merchandise, by means of any fraudulent or false invoice, affidavit, letter, or paper, or by means of any false statement, written or verbal, or who shall be guilty of any wilful act or omission, by means whereof the United States shall be deprived of the lawful duties, or any portion thereof, accruing upon the merchandise, or any portion thereof, embraced or referred to in such invoice, affidavit, letter, paper, or statement, or affected by such act or omission, shall, for each offense, be fined in any sum not exceeding five thousand dollars, nor less than fifty dollars, or be imprisoned for any time not exceeding two years, or both; and, in addition to such fine, such merchandise shall be forfeited; which forfeiture shall only apply to the whole of the merchandise in the case or package containing the particular article or articles of merchandise to which such fraud or alleged fraud relates; and anything contained in any act which provides for the forfeiture or confiscation of an entire invoice in consequence of any item or items contained in the same being undervalued, be, and the same is hereby, repealed.

The omission to add to market value the cost of packing, shipping, charges for inland transportation, &c., without intent to defraud the revenue, shall not be a cause of forfeiture; but where such cost, &c., is omitted, the collector or appraiser shall add double such cost to the dutiable value of the goods.

#### *Salaries of Custom House Officers.*

SEC. 23. That in lieu of the salaries, moieties, and perquisites of whatever name or nature, and commissions on disbursements, now paid to and received by the collectors, naval officers, and surveyors connected with the customs service in the several collection districts of the United States hereinafter named, there shall be paid, from and after the first day of July, eighteen hundred and seventy-four, an annual salary as follows:

To the collector of the district of New York, twelve thousand dollars.

To the collectors of the districts of Boston and Charlestown, Massachusetts; and Philadelphia, Pennsylvania, each eight thousand dollars.

To the collectors of the districts of San Francisco, California; Baltimore, Maryland; and New Orleans, Louisiana, each seven thousand dollars.

To the collector of the district of Portland and Falmouth, Maine, six thousand dollars.

To the naval officer for the district of New York, eight thousand dollars.

To the naval officers of the districts of Boston and Charlestown, Massachusetts; and San Francisco, California; and Philadelphia, Pennsylvania, each five thousand dollars.

To the surveyor of the port of New York, eight thousand dollars.

To the surveyors of the ports of Boston, Massachusetts; and San Francisco, California; and Philadelphia, Pennsylvania, each five thousand dollars.

#### THE ALABAMA CLAIMS.

**Chap. 459.**—*Creates a Court of Five Commissioners to adjudicate Claims on the Alabama Indemnity Fund of \$15,500,000 received from Great Britain.*—SEC. 11. That it

shall be the duty of said court to receive and examine all claims admissible under this act that may be presented to it, directly resulting from damage caused by the so-called insurgent cruisers Alabama, Florida, and their tenders, and also all claims admissible under this act directly resulting from damage caused by the so-called insurgent cruiser Shenandoah, after her departure from Melbourne on the eighteenth day of February, eighteen hundred and sixty-five, and to decide upon the amount and validity of such claims, in conformity with the provisions hereinafter contained, and according to the principles of law and the merits of the several cases. All claims shall be verified by oath of the claimant, and filed in said court within six months next after the organization thereof, as provided in section eight of this act; and no claim shall be received, docketed, or considered that shall have not been so filed within the time aforesaid; but every such unrepresented claim shall be deemed and held to be finally and conclusively waived and barred.

#### *What Claims are not to be Allowed.*

SEC. 12. That no claim shall be admissible or allowed by said court for any loss or damage for or in respect to which the party injured, his assignees or legal representatives, shall have received compensation or indemnity from any insurance company, insurer, or otherwise; but if such compensation or indemnity so received shall not have been equal to the loss or damage so actually suffered, allowance may be made for the difference. And in no case shall any claim be admitted or allowed for or in respect to unearned freights, gross freights, prospective profits, freights, gains, or advantages, or for wages of officers or seamen for a longer time than one year next after the breaking up of a voyage by the acts aforesaid. And no claim shall be admissible or allowed by said court by or in behalf of any insurance company or insurer, either in its or his own right, or as assignee, or otherwise, in the right of a person or party insured as aforesaid, unless such claimant shall show, to the satisfaction of said court, that, during the late rebellion, the sum of its or his losses, in respect to its or his war risks, exceeded the sum of its or his premiums or other gains upon or in respect to such war risks; and, in case of any such allowance, the same shall not be greater than any such excess of loss. And no claim shall be admissible or allowed by said court arising in favor of any insurance company not lawfully existing at the time of the loss under the laws of some one of the United States. And no claim shall be admissible or allowed by said court arising in favor of any person not entitled, at the time of his loss, to the protection of the United States in the premises, nor arising in favor of any person who did not at all times during the late rebellion bear true allegiance to the United States.

#### POSTPONEMENT OF EXPENDITURES FOR PUBLIC BUILDINGS.

**Chap. 476.**—*An act to authorize the Secretary of the Treasury to suspend work upon the public buildings.*—Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Treasury be, and he is hereby, authorized and directed to defer

and upon the final completion of each or any of said buildings, and the payment of all outstanding liabilities therefor, the balance or balances re-

maining shall be immediately covered into the Treasury.

The second section of this act relates to the selection of sites.

## THE CURRENCY QUESTION.

RECORD OF THE SENATE AND HOUSE OF REPRESENTATIVES, SHOWING HOW EACH SENATOR AND REPRESENTATIVE VOTED ON SIX IMPORTANT FINANCIAL PROPOSITIONS INVOLVING THE QUESTION OF INFLATION.

## Record of the Senate.

1.—March 25, 1874, Mr. Schurz moved to amend the first section of the Senate Currency Bill so as to make the maximum limit of United States notes \$356,000,000, which was voted down by 18 to 40.

2.—The same day Mr. Wright moved to strike out the first section and insert: "That the maximum amount of United States notes is hereby fixed at \$400,000,000," which was agreed to by 31 to 26.

3.—April 2, 1874, the Senate passed its Inflation Bill, which is given in full under the head of 4, in the introduction to the Record of the House on Inflation. The vote was 29 to 24, with 19 absent or not voting.

4.—April 27, 1874, a vote was taken in the Senate on the question, "Shall the (Senate Inflation) bill pass notwithstanding the objections of the President?" The vote was, yeas 34, nays 30—not two thirds.

5.—June 12, 1874, the Senate, by a vote of 32 to 23, passed the Maynard-Morton Compromise Inflation Bill, which (June 13) was rejected by the House. (See 5 of the Record of the House.) This so-called "Compromise" released the re-

serves required to be held by banks against their circulation, authorized unlimited expansion of bank note circulation, provided for redemption of bank notes with greenbacks by the U. S. Treasurer, and extended the legal limit of the legal tender circulation to \$382,000,000.

6.—June 19, 1874, the Senate passed the Dawes Compromise Inflation bill by a vote of 43 to 10, which, June 22, was signed by the President and became a law. It is given in full on another page of this ALMANAC, under the Abstract of the more important Acts passed at the first Session of the XLIIIrd Congress.

Explanation.—In the following lists the letter Y signifies in every case a vote in favor of an increased issue of paper money, or of legalizing the increase of the legal tender circulation beyond \$356,000,000. The letter N signifies a vote against such increase, and the letter A shows that the senator or representative was absent or did not vote. The names of Republicans are printed in Roman, those of Democrats in *Italic*, and those of Liberal Republicans in *SMALL CAPS*. An \* shows that the individual was not a senator or representative at the time the vote was taken.

## Record of the House.

1.—January 19, 1874, Mr. Wilson, of Indiana, moved that the rules be suspended and that the following preamble and resolutions be adopted:

Whereas, by reason of the present monetary stringency and the insufficiency in the amount of circulating medium, the industries and commercial affairs of the country have been greatly depressed; and whereas, by reason of said stringency, the revenues of the Government have been largely diminished, in consequence where-

of Congress has been asked to increase taxation to the amount of \$42,000,000; and whereas until the recent panic the revenues were ample to meet the current expenses of the Government: Therefore,

Resolved, That instead of levying additional taxes the true policy lies in the enactment of such a law or laws as will relieve such stringency and supply the means necessary to the business wants of the country, by increasing the circulating medium, thereby reviving business,

increasing revenues, and thus avoiding the necessity of increasing the present rates of taxation or duties, or the imposition of additional taxes or duties.

*Resolved*, That the Committee on Banking and Currency be, and is hereby, instructed to prepare and report to the House, without delay, a bill for the purpose in the first resolution expressed, and that said committee have leave to report at any time.

Mr. Wilson required a two-thirds vote to carry his motion, but obtained only 135 to 98, 53 not voting.

2.—March 23, 1874, the following bill passed the House by a vote of 166 to 77:

*A Bill to fix the amount of legal tender notes at \$400,000,000.*

*Whereas*, The existing uncertainty as to whether the amount of legal tender notes now authorized by law to be kept in general circulation, is \$356,000,000, or \$400,000,000, is calculated to derange the business of the country and unsettle values; therefore

*Be it enacted, &c.*, That the provisions of law existing prior to the passage of the act approved April 12, 1866, entitled "An act to amend an act to provide ways and means to support the Government," approved March 3, 1865, be and the same are hereby declared to be in force, so as to authorize the amount of legal tender notes of the United States to the amount of \$400,000,000, to be kept in general circulation, and the total amount of United States notes, issued or to be issued, shall never exceed \$400,000,000.

3.—April 14, 1874, the House, by a vote of 129 to 116, passed the Maynard "free banking" Inflation Bill. This bill provided that the national banks should not be required to keep a reserve for the redemption of their circulating notes; that there should be no limit to the aggregate circulation of the national banks; that bank notes should be "redeemed" at the Treasury in legal tenders, out of a five per cent. "redemption fund," to be kept and maintained there by the banks for that purpose; that banks should keep their reserves in their own vaults, and not on deposit at "redemption cities."

4.—April 14, 1874, the House, by a vote of 140 to 102, passed the Senate Inflation Bill which, April 22, was vetoed by the President. The following is the full text of this bill:

*A Bill to fix the amount of United States notes and the circulation of national banks, and for other purposes.*

*Be it resolved, &c.*, That the maximum amount of United States notes is hereby fixed at \$400,000,000.

Section 2. That \$45,000,000 in notes for circulation, in addition to such circulation now allowed by law, shall be issued to national banking associations now organized, and which may be organized hereafter, and such increased circulation shall be distributed among the several States as provided in section 1 of the Act entitled "An Act to provide for the redemption of the three per centum temporary loan certificates, and for an increase of national bank notes," approved July 12, 1870; and each national banking association now organized, or hereafter to be organized, shall keep and maintain, as a part of its reserve required by law, one fourth part of the coin received by it as interest on bonds of the United States, deposited as security for circulating notes or Government deposits, and that hereafter only one fourth of the reserve now prescribed by law for national banking associations shall consist of balances due to an association available for the redemption of its circulating notes from associations in cities of redemption, and upon which balances no interest shall be paid.

5.—June 13, 1874, the House, by a vote of 108 to 146, rejected the Maynard-Morton Compromise Inflation Bill, such inflationists as Butler, Coburn and Kelley voting against it as not furnishing adequate "relief" to the business community. See 6, Record of the Senate.

6.—June 20, 1874, the House, by a vote of 221 to 40, passed the Dawes Compromise Currency Bill, which, June 22, was assigned by the President and became a law. It is given in full on another page of this ALMANAC, under the Abstract of the more important acts passed at the first Session of the XLIII Congress.

### Monthly Range of the Gold Premium for Thirteen Years.

The following tables show the lowest and highest prices of gold at New York, for each month in the last thirteen years. The left-hand column of each year shows the lowest price, and the right-hand column the highest.

The last two columns of the second table show for each month the lowest and highest prices for the five years since 1870, when the lower range of the gold premium, from 110 to 120, was established:

## THE AMENDMENTS TO THE CONSTITUTION OF THE STATE OF NEW YORK.

The method prescribed by chapter 380 of the laws of 1874 for voting on the proposed amendments to the Constitution was by a ballot, on which was printed or written the following words:

For all propositions on this ballot which are not canceled with ink or pencil; and against all which are so canceled.

(1) For the proposed amendments to article two, "relative to suffrage and bribery."

(2) For the proposed amendment to article three, part first, "Legislature and its organization," sections one to eight, inclusive.

(3) For the proposed amendment to article three, part two, "powers and forms of Legislature," being sections seventeen to twenty-five, inclusive.

(4) For the proposed amendments to article four, "the Governor and Lieutenant-Governor, their power and duties."

(5) For the proposed amendments to article seven, "finance and canals."

(6) For the proposed amendments to article eight, part one, being sections four and eleven, "relating to corporations, local liabilities and appropriations."

(7) For the proposed amendments to article eight, part two, section ten, "State appropriations."

(8) For the proposed amendment to section nine of article ten, being section "relative to compensation of certain officers."

(9) For the proposed amendment to article twelve, "oath of office."

(10) For the proposed amendment to add a new article to be known as article fifteen, "relating to official corruption."

(11) For the proposed amendment to add a new article to be known as article sixteen, "time for amendments to take effect."

Each ballot was counted as a vote cast for every proposition thereon not canceled with ink or pencil, and against each proposition so canceled.

The following synopsis of the provisions of the amendments is made to refer to the propositions on the above ballot:

(1) *Amendments to Article II.*—Sec. 1. Every male citizen, of the age of 21, a citizen for 10 days, inhabitant of the State one year, of the county for 4 months, and for thirty days a resident of the election district in which he may offer his vote, is entitled to vote for all officers and on all questions submitted to the people.

"Sec. 2. No person who shall receive, expect or offer to receive, or pay, offer or promise to pay, contribute, offer or promise to contribute to another, to be paid or used, any money or other valuable thing as a compensation or reward for the giving or withholding a vote at an election, or who shall make any promise to influence the giving or withholding any such vote, or who shall make or become directly or indirectly interested in any bet or wager depending upon the result of any election, shall vote at such election; and upon challenge for such cause, the person so challenged, before the officers authorized for that purpose shall receive his vote, shall swear or af-

firm before such officers that he has not received or offered, does not expect to receive, has not paid, offered or promised to pay, contributed, offered or promised to contribute to another, to be paid or used, any money or other valuable thing as a compensation or reward for the giving or withholding a vote at such election, and has not made any promise to influence the giving or withholding of any such vote, nor made or become directly or indirectly interested in any bet or wager depending upon the result of such election. The Legislature, at the session thereof next after the adoption of this section, shall, and from time to time thereafter may, enact laws excluding from the right of suffrage all persons convicted of bribery or of any infamous crime."

(2) *Amendments to Article III, part 1.*—Members of the Assembly, 123 in number, elected for one year, shall be apportioned among the several counties by the Legislature, as nearly as may be, according to population, as determined by the State census of 1875, and those taken decennially thereafter. The Board of Aldermen in New York, and the Supervisors in the other counties, shall district their several counties. No town is to be divided in the formation of Assembly Districts. Every county, except Hamilton, shall be entitled to at least one Assemblyman. No new county shall be formed having not sufficient population to entitle it to a member of Assembly, and the county of Hamilton may be abolished, and its territory annexed to the contiguous counties.

Sec. 6. Each member of the Legislature shall receive \$1,500 a year for his services, and 10 cents a mile, going and returning from his home once in each session, for traveling expenses. Senators, in the trial of impeachments, and managers of the trial appointed from the Assembly, not exceeding 9 in number, shall receive \$10 a day additional.

Sec. 7. No member of the Legislature shall receive any civil appointment within this State, or the Senate of the United States, from the Governor, the Governor and Senate, or from the Legislature, or from any city government.

Sec. 8. If any person shall, after his election to the Legislature, be elected to Congress, or appointed to any office, civil or military, under the Government of the United States or any city government, his acceptance thereof shall vacate his seat, and no person can be elected to the Legislature who, within 100 days of his election, has been a Member of Congress, an officer of the United States, or an officer under any city government.

(3) *Amendments to Article III, part 2.*—The following are additional sections to Article III as it formerly stood: On account of their great importance, we give them in full:

Sec. 17. No act shall be passed which shall provide that any existing law, or any part thereof, shall be made or deemed a part of said act, or which shall enact that any existing law, or any part thereof, shall be applicable, except by inserting it in such act.

Sec. 18. The Legislature shall not pass a private or local bill in any of the following cases:

Changing the names of persons.

Laying out, opening, altering, working or discontinuing roads, highways or alleys, or for draining swamps or other low lands.

Locating or changing county seats.

Providing for changes of venue in civil or criminal cases.

Incorporating villages.

Providing for election of members of boards of supervisors.

Selecting, drawing, summoning or impaneling grand or petit jurors.

Regulating the rate of interest on money.

The opening and conducting of elections or designating places of voting.

Creating, increasing or decreasing fees, percentage or allowances of public officers, during the term for which said officers are elected or appointed.

Granting to any corporation, association or individual, the right to lay down railroad tracks.

Granting to any private corporation, association or individual, any exclusive privilege, immunity or franchise whatever.

Providing for building bridges, and chartering companies for such purposes, except on the Hudson river below Waterford, and on the East river, or over the waters forming a part of the boundaries of the State.

The Legislature shall pass general laws providing for the cases enumerated in this section, and for all other cases which, in its judgment, may be provided for by general laws. But no law shall authorize the construction or operation of a street railroad except upon the condition that the consent of the owners of one-half in value of the property bounded on, and the consent also of the local authorities having the control of that portion of a street or highway upon which it is proposed to construct or operate such railroad be first obtained, or in case the consent of such property owners cannot be obtained, the general term of the Supreme Court in the district in which it is proposed to be constructed may, upon application, appoint three commissioners, who shall determine, after a hearing of all parties interested, whether such railroad ought to be constructed or operated, and their determination, confirmed by the court, may be taken in lieu of the consent of the property owners.

Sec. 19. The Legislature shall neither audit nor allow any private claim or account against the State, but may appropriate money to pay such claims as shall have been audited and allowed according to law.

Sec. 20. Every law which imposes, continues or revives a tax, shall distinctly state the tax and the object to which it is to be applied, and it shall not be sufficient to refer to any other law to fix such tax or object.

Sec. 21. On the final passage, in either house of the Legislature, of any act which imposes, continues or revives a tax, or creates a debt or charge, or makes, continues or revives any appropriation of public or trust money or property, or releases, discharges, or commutes any claim or demand of the State, the question shall be taken by yeas and nays, which shall be duly entered upon the journals, and three-fifths of all the members elected to either house shall, in all such cases, be necessary to constitute a quorum therein.

Sec. 22. There shall be in the several counties,

except in cities whose boundaries are the same as those of the county, a board of supervisors, to be composed of such members, and elected in such manner, and for such period, as is, or may be, provided by law. In any such city the duties and powers of a board of supervisors may be devolved upon the common council or board of aldermen thereof.

Section seventeen of said article is hereby made section twenty-three of the proposed amendment, and is amended so as to read as follows:

SEC. 23. The Legislature shall, by general laws, confer upon the boards of supervisors of the several counties of the State such further powers of local legislation and administration as the Legislature may, from time to time, deem expedient.

SEC. 24. The Legislature shall not, nor shall the common council of any city, nor any board of supervisors, grant any extra compensation to any public officer, servant, agent or contractor.

SEC. 25. Sections seventeen and eighteen of this article shall not apply to any bill, or the amendments to any bill, which shall be reported to the Legislature by commissioners, who have been appointed pursuant to law to revise the statutes.

(4) *Amendments to Article IV.*—The terms of office of the Governor and Lieut.-Governor are extended to three years, but this provision does not apply to the terms of Gov. Tilden and Lieut.-Gov. Dorsheimer, who go out of office Dec. 31, 1876.

SEC. 2. Citizens of the United States, aged 30 years or more, and for at least 5 years residents of the State, are alone eligible as Governors and Lieut.-Governors.

SEC. 8. Increases the salary of the Governor to \$10,000 a year, and provides him with a residence.

SEC. 8. Gives the Lieut.-Governor \$5,000 a year.

SEC. 9. Requires a vote of two-thirds of all the members elected to pass a bill over the Governor's veto. Allows the Governor 30 days after the adjournment of the Legislature in which to sign bills. Authorizes the Governor to veto items in appropriation bills without vetoing the entire bill.

(5) *Amendments to Article VII.*—Adds to section 3 a provision that no extra compensation shall be made to any canal contractor, but if the terms of any contract shall prove to be unjust or oppressive, the Canal Board may cancel the contract.

SEC. 6. Leaves it within the discretion of the Legislature to sell or lease any of the canals, except the Erie, Oswego, Champlain, and Cayuga and Seneca. The expenditures for collections, superintendence, ordinary and extraordinary repairs on the four canals named, shall not exceed in any year their gross receipts for the preceding year.

SEC. 13. The Sinking Funds for the payment of the State's debts shall be separately kept and safely invested, and neither of them shall be appropriated or used except for the specific purpose for which it shall have been provided.

SEC. 14. Neither the Legislature, Canal Board, Canal Appraisers, nor any person or persons acting in behalf of the State, shall audit or allow any claim which, as between citizens of the State, would be barred by lapse of time.

(6) *Amendments to Article VIII, part 1.*—Section 8 is made to require the Legislature, by general law, to conform all charters of savings banks to a uniformity of powers, rights, and liabilities. The trustees shall have no interest, direct or indirect, in the profits, or interested in any loan, or in the use of any money or property of such institutions.

(7) *Additional Sections to Article VIII.*—Two sections are added to Article VIII, prohibiting the State, or any county, town, or city, from loaning its credit or giving its money in aid of any association, corporation, or private undertaking, provision for the education and support of the blind, deaf and dumb, &c., being excepted.

(8) *Additional Section to Article X.*—SEC. 9. No officer, whose salary is fixed by the Constitution, shall receive any additional compensation. Each of the other State officers, named in the Constitution, shall, during his continuance in office, receive a compensation, to be fixed by law, which shall not be increased or diminished during the term for which he shall have been elected or appointed; nor shall he receive, to his use, any fees or perquisites of office or other compensation.

(9) *Amendment to Article XII.*—Prescribes a form of oath or affirmation to be made by members of the Legislature and executive and judicial officers, including an avowal in the case of elective officers, that they have not practiced bribery or corruption.

(10) *Additional Article XV.*—"SEC. 1. Any person holding office under the laws of this State, who, except in payment of his legal salary, fees, or perquisites, shall receive or consent to receive, directly or indirectly, anything of value or of personal advantage, or the promise thereof, for performing or omitting to perform any official act, or with the express or implied understanding

that his official action or omission to act is to be in any degree influenced thereby, shall be deemed guilty of a felony. This section shall not affect the validity of any existing statutes in relation to the offense of bribery.

"SEC. 2. Any person who shall offer or promise a bribe to any officer, if it shall be received, shall be deemed to be guilty of felony, and liable to punishment, except as herein provided. No person offering a bribe shall, upon any prosecution of the officer for receiving such bribe, be privileged from testifying in relation thereto, and he shall not be liable to civil or criminal prosecution therefor, if he shall testify to the giving or offering of such bribe. Any person who shall offer or promise a bribe, if it be rejected by the officer to whom it is tendered, shall be deemed guilty of an attempt to bribe, which is hereby declared to be a felony.

"SEC. 3. Any person charged with receiving a bribe, or with offering or promising a bribe, shall be permitted to testify in his own behalf in any civil or criminal prosecution therefor.

"SEC. 4. Any district attorney who shall fail faithfully to prosecute a person charged with the violation in his county of any provision of this article which may come to his knowledge, shall be removed from office by the Governor, after due notice and an opportunity of being heard in his defense. The expenses which shall be incurred by any county in investigating and prosecuting any charge of bribery, or attempting to bribe any person holding office under the laws of this State, within such county, or of receiving bribes by any such person in said county, shall be a charge against the State, and their payment by the State shall be provided for by law."

(11) *Additional Article XVI.*—Provides that the amendments shall be in force from January 1, 1875, except where otherwise provided.

## THE PROPOSED NEW CONSTITUTION FOR OHIO.

The new Constitution proposed for the State of Ohio was submitted to the people on the 18th of August, and voted down by a large majority. A full synopsis of it may be found in McPherson's *Hand-Book of Politics* for 1874, pages 72-77. It contained many excellent provisions designed to restrict special legislation, the growth of public indebtedness, &c., but we can give only such information regarding it as is necessary to explain the voting. Four votes were taken on it:

1. For and Against the Constitution.
2. For and Against a separate proposition providing that where three or more judges of either the Supreme or Circuit Courts were to be chosen at the same election, no elector should vote for a greater number of candidates than a majority of the number to be chosen to each bench.
3. For and Against a separate provision authorizing towns, cities and villages, under general laws, to aid railroad companies, subject to the following restrictions and such others as may be prescribed by law: "No subscription, loan or contribution, for such purpose, shall be made, unless authorized at an election held in pursuance of law, by at least two-thirds of all the electors of such township, city or village, to be ascertained in such manner as may be prescribed by law, and subject to the further conditions of section four of article eleven, when applicable. Nor shall such aid be granted until the township, city or village granting the same shall have adequate se-

curity that the road so aided will be completed. At such election, no person shall vote who shall not have resided in the township, city or village for six months prior thereto. No such election shall be held until the part of the road upon which the expenditure is to be made has been located and established, nor oftener than once a year, nor shall aid be voted to more than one railroad at any election. The order for election shall specify all the conditions of such loan, subscription or contribution, the consideration proposed to be given therefor, the estimated cost of the proposed work, the means secured for its completion, and the part of the work on which the proposed subscription, loan or contribution is to be expended. Provision may be made by law, for the issue of stock or bonds for the amount of any such subscription or loan; but no township, city or village shall be liable for the debts of the company. The obligations of a township, city or village, incurred for such purpose, shall not bear a greater interest than 7 per centum per annum, nor shall the aggregate thereof at any time exceed 5 per centum of the value of the property of such township, city or village, as ascertained by the latest tax duplicate. The aggregate of taxes levied by a township, city or village, to pay such obligations and interest, shall in no year exceed 1 per centum of such value."

4. For and Against giving the Legislature power to license the trade in spirituous liquors.

## Elections of Representatives in Congress in 1876 and following years.

The following sections of Chapter XI of the Statutes at Large, passed at the 11d Session of the XLIIId Congress, fix the Tuesday after the 1st Monday of November as the day on which elections of representatives in Congress shall hereafter be held in all the States:

SEC. 3. That the Tuesday next after the first Monday in November, in the year eighteen hundred and seventy-six, is hereby fixed and established as the day, in each of the States and Territories of the United States, for the election of Representatives and Delegates to the forty-fifth Congress; and the Tuesday next after the first Monday in November, in every second year thereafter, is hereby fixed and established as the day for the election, in each of said States and Territories, of Representatives and Delegates to

the Congress commencing on the fourth day of March next thereafter.

SEC. 4. That if, upon trial, there shall be a failure to elect a Representative or Delegate in Congress in any State, District, or Territory, upon the day hereby fixed and established for such election, or if, after any such election, a vacancy shall occur in any such State, District, or Territory, from death, resignation, or otherwise, an election shall be held to fill any vacancy caused by such failure, resignation, death, or otherwise, at such time as is or may be provided by law for filling vacancies in the State or Territory in which the same may occur.

SEC. 5. That no State shall be hereafter admitted to the Union without having the necessary population to entitle it to at least one Representative according to the ratio of representation fixed by this bill.

## LOUISIANA.

The attention of the whole country has been fixed on the rascally operations of Kellogg's so-called Returning Board, which does not permit the will of the voters of this State to have effect. It is well known that the Conservatives carried the State in November by a large majority, but the result of the election is not officially announced.

NOTE.—The new Constitution of Pennsylvania provides that "Members of the General Assembly shall be chosen at the general election every second year. Their term of service shall begin on the first day of December next after their election. Senators shall be elected for the term of four years, and Representatives for the term of two years." It is further provided in the schedule that at the general elections in the years 1874 and 1875, Senators shall be elected in all districts where there shall be vacancies, those elected in 1874 to serve two years, and those elected in 1875 to serve one year, the Senators already elected under the old Constitution continuing to represent the districts in which they reside until the expiration of the terms for which they were elected. Of the 22 Senators holding over, 13 were Republicans and 9 Democrats were elected.

## NEBRASKA.

At an election held in this State on the 13th of  
 October, the Republicans elected Silas Garber,  
 their candidate for Governor, and the other State  
 officers, carried the Legislature, and re-elected  
 Lorenzo Crounse to the U. S. House of Repre-  
 sentatives. An application to the Secretary of  
 State for the official returns for publication in  
 this ALMANAC was refused, that officer profess-  
 ing to be under obligations to keep the returns  
 sacredly secret until after they have been passed  
 upon by the State Legislature, which assembles  
 in January. Should we succeed in obtaining  
 them, we will publish the returns in the ALMA-  
 NAC for 1876.

**" HOLD**

firmly to the great principle, that in sickness Nature should be *assisted not prostrated*. It is because TARRANT'S EFFERVESCENT SELTZER APERIENT refreshes and invigorates the system, while it removes, without pain, all obstructive matter from the bowels, that it has become a standard alternative, and is

**FAST**

superseding all the stereotyped purgatives which have heretofore racked, and scourged, and weakened the human frame. The tonic, cathartic, and anti-bilious ingredients so happily blended in the waters of the celebrated Seltzer Spring, as well as the ebullience peculiar to that natural corrective and febrifuge, impart

**TO**

this *chemical counterpart* of the German Spa a purifying, renovating, and regulating influence, which does not exist in any other medicinal preparation in use. It quiets the disturbed stomach, promotes perspiration, quickens the action of the kidneys, and superinduces

**THAT**

delightful tranquility of the nervous system which is hailed by every invalid as a certain indication of convalescence. The saline elements of the SELTZER APERIENT, being taken up by the absorbents, have also a salubrious effect upon the secretions and the blood. This is the preparation

**WHICH IS**

now being prescribed by physicians everywhere as a superior cathartic nerve tonic, and blood depurent. Violent drugs have had their day. The faculty and the sick alike discard them, and having proved the excellence of the APERIENT, are determined to "*hold fast to that which is*

**GOOD."**

The preparation will keep for a length of time, and all that is necessary to convert the powder into a sparkling, foaming, thirst-quenching, and delicious draught, is the addition of a little cold water. Thus may every invalid have a duplicate of the Seltzer Spa at his elbow, although the natural fountain bubbles from the earth in Prussia, four thousand miles away.

# MOTHERS' RELIEF.

A PAMPHLET ACCOMPANIES EACH BOTTLE.

*Ask your Druggist to procure one or more bottles for you, price, \$2 per bottle, 3 bottles for five dollars.*

"Mothers' Relief" will so prepare the system that the mother will be enabled to pass through the process of giving birth to her offspring with but a small portion of the pain to which she would be subjected were she not thus prepared; and that she need fear none of those dangerous accidents which frequently attend during and subsequent to the labor.

We are fully aware of the great responsibility resting on us in reference to the effects of the "Mothers' Relief" on the constitution of the mother and the health of the infant; and we here declare, upon the known effects of the medicine, and upon our own observation, as well as upon the opinion of many practitioners of medicine, that the most delicate constitution cannot in the least be injured (but to them it is most particularly recommended), nor will it affect the offspring of the mother.

We guarantee that this medicine contains no deleterious drugs; and positively assert that in no instance has the "Mothers' Relief" had an injurious effect, either on the mother or child. We say this in order to quiet any fears that may arise in the minds of any one, disposed to try this really meritorious remedy, as to its effects.

## DIRECTIONS.

To prepare the system for the process of parturition, the woman should follow the directions as given on the wrapper accompanying each bottle, commencing to take it three weeks before confinement. She should be particular to keep the bowels moderately loose, by taking small doses of castor oil or cream of tartar, and when she feels the premonitory symptoms of labor, she should not fail to relieve the bowels by a full dose of castor oil. The diet should be small in quantity, but nutritious in quality. Gentle exercise should be taken daily, and, if practicable, riding in the open air.

# PURE AIR, PURE BLOOD.

THE more pure the air we breathe, the more surely does it take out the refuse from the bowels and the circulation. Thus the blood and the body are made sound. There are elevated portions of our country, where the air is so pure, and so rich in mysterious ozone, that medicine is little needed in those favored regions. No health can exist but by the absence of impurities from the body; all the tonics, all the blood remedies, in fact every kind of physic is only valuable according as it takes out the morbid and refuse materials from the bowels and circulation.

BRANDRETH'S PILLS secure these indications; the use by the world for

## One Hundred and Twenty-Four Years

has established this character beyond all doubt. Their reputation is still growing. This Great Physic never hurts even the most delicate; simply removes impediments to health; being equally adapted to Diarrhoea and Costiveness. In the one case removing sources of irritation, and in the other assisting nature's expulsive efforts.

Usually we have more to fear from disease generated in our own body, than from all the sewers or dirty streets in the world. In Diphtheria, Small Pox, Scarlet Fever, Cholera, and Yellow Fever, the effects produced by BRANDRETH'S PILLS seem to establish that purging with them, in these diseases, immediately induce a healthy disposition of body, and recoveries often take place, which under the old medical treatment would keep the patient in bed for weeks, if it did not kill him outright.

But Diphtheria, Cholera, Yellow Fever, and even in most fevers and blood diseases, I am satisfied they mostly proceed from a vegetable fungus; in one case depositing on the throat, and in the others upon the organs of the stomach and bowels. BRANDRETH'S PILLS usually, in these cases, bring away discharges like to mushroom spawn. A few doses remove the fungus and effectually stop the fungus growth.

Some persons have administered this medicine to their cattle and poultry when they have been affected with Choleraic symptoms, which affect man and animal alike; and while their near neighbors have had great losses, they have lost none. Their use removes fungus from the surface of the bowels and the interior organs, as well as any poisonous or morbid matters in the blood, and cleanses the body very effectually. *They do more, they give off a vapor which permeates every fibre of the body, and which for a long time acts as a preventive against infection.*

Yet this wonderful physic is composed of simple herbs and essences, whose use prevents measurably the inroad of time and disease upon the constitution. General Paez used them for forty-four years; Nathaniel Hyatt for over fifty years, living to the age of ninety-two. Joseph Golden took them for over seventy years, and lived to 101 years. Read testimonials from Mr. Ayles, who has known BRANDRETH'S PILLS for over fifty years.

The little four-footed creature that kills the poisoning snake, if bitten herself, finds an herb powerful enough to quell that poison, though stronger and quicker of operation than any mortal remedy.

And in BRANDRETH'S PILLS man finds a remedy whose qualities begin to be developed as soon as swallowed, and that saves and cures by occasioning all matters disease producing, to be expelled from the body.

## Fifty Years' Knowledge.

MOUNT PLEASANT, Westchester Co., N. Y., Jan. 2, 1874.

HON. B. BRANDRETH,

*My dear Doctor* :—I have known and used your pills for the last fifty years, and, from my personal experience and that of my family and friends, can safely say that, as a family medicine, they are unrivaled. I have used them for colds, coughs, rheumatism, indigestion, and neuralgia, with wonderful results, while the children and females of my family, in all their complaints, have found Brandreth's Pills invaluable. I cheerfully give my testimony in their favor, for time has fully tested their merits.

Yours truly,

STEPHEN AYLES,

## What Brandreth's Pills are Doing.—Cure of Gastric Vertigo.

APRIL, 1874.

TO DR. B. BRANDRETH.

*Dear Sir* :—Impelled by a strong sense of duty in the cause of humanity, and with heart-felt gratitude to you personally, as being the dispenser and proprietor of so valuable an agent in the cure of disease, I write you this letter.

In the summer of 1867 (having up to that period from a child enjoyed the best of health) I was prostrated with an illness of a very peculiar and marked character; a fearful dizziness, accompanied with a terrible sickness at the stomach; the attack alternating, at first, in periods of from three to four months, and then becoming more frequent, until in the early part of the year 1871, when the symptoms assumed a chronic form, prostrating entirely the nervous system; rendering me unfit for the enjoyment of life, and an anxiety to my family and friends.

During the four years of the continuance of my illness, the very highest order of medical skill was engaged in the investigation of the difficulty; and in consultation and examination the disease was pronounced to be Dyspeptic or Gastric Vertigo.

In crossing the river, on my way to New York, in the month of May, 1872, a gentleman, in conversing with me upon the phenomena of my illness not yielding to the very powerful remedies employed in its subjugation, related to me the history of Mr. Archibald Bliss, of Greenpoint, Brooklyn, E. D., who in the years past of his life had been afflicted, as he stated to me, in much the same way as myself, and who had received much and permanent benefit by the free and persistent use of the very simple remedy—"Brandreth's Pills," and strongly advised me to try their effect upon my own trouble.

Acting upon the advice of my friend, I commenced the same night with four pills, alternating for one week four pills every other night. Then the next week reducing the number to two pills, and finally to one pill every other night, which practice I continued for one whole year, and with this great result: A perfect restoration to health and spirits.

My opinion, if it is of value to humanity, is fixed and unalterable in relation to the positive remedial qualities of Brandreth's Pills, and their beautiful action upon the circulation and purification of the blood. So, as this is written in the interest of the afflicted and suffering, by one of the many thousands whose health has been restored by the use of this marvellous agent, is it wise for any household in our republic to be without Brandreth's Pills?

In gratitude and Justice, yours,

DAN'L GODWIN,

No. 13 Bedford Avenue, Brooklyn.

Dr. BRANDRETH.

*Dear Sir:*—I have been thinking that it is my duty to my fellow-man to alleviate his sufferings in time of sickness by directing him to a cure. I have used your pills for over twenty years, and have found them true, sure to do the work; namely, to cleanse the body and purify the blood. This being accomplished, your health is safe. In the last twenty years I have never been without a box of Brandreth's Pills. I take, when I need them, from two to four at night on retiring; this seems, from my experience, to be the best time to take them. Since I have used this medicine it has cost me nothing for doctors. There are many persons who pay from twenty to one hundred dollars a year for doctors' bills; if these would use your pills they would enjoy more health, and for about one per cent. of the money they pay their doctors.

You do not push your Pills as you ought; they should be advertised everywhere until all the world are made fully aware of their virtues. When one feels a cold approaching, known by chills and creeping of cold all over you, take four of Brandreth's Pills, and for a neglected cold do the same. They cure you like magic; taking away a load of impurities from the bowels and blood, relieving and restoring the health in a wonderful manner. Your Pills never injure, except say Quacks and Doctors generally.

I once prevailed upon an old lady, years ago, to take two of your pills when she was given up to die; by persevering she soon recovered her health and she is now in her eighty-seventh year. Would that men and women could be brought to comprehend the great value of Brandreth's Pills in sickness! I thank God for the gifts he has given you, and more especially for such a remedy as Brandreth's Pills. Believe me dear sir, yours very truly

MICHAEL CROSBY.

### I ask especial attention to this.

Let us inquire how a state of sickness comes to exist? *Because the natural powers of the body have not enough strength to get rid of decayed or waste portions of used-up body.* For instance, we have a cold; the pores are said to be closed; there is checked respiration; we have chills; the matters which should have passed by the pores are thrown back upon blood; the blood immediately causes these matters to be returned to the bowels, which, if aroused to activity, all soon becomes well. Should, however, costiveness prevail at such times, then affairs become serious, for these terrible impurities are again reabsorbed into the blood, and must be at once removed by appropriate means, or fever, erysipelas, coughs, pleurisies, scarlet fever, small pox, and a host of evils consequent upon a bad state of the blood, are sure to exist. Costiveness alone may be the cause of similar evils, because reabsorption takes place into the blood from the bowels. This cause is the most fertile of all others in giving rise to blood diseases. By the administration of BRANDRETH'S PILLS, these diseases have speedily been removed. Besides, these Pills are strictly anti-spasmodic. I have often known complete relief to be obtained before the medicine had operated. In fact, the patients thought opium had been a part of the Pills. We must not regulate their use by weight and measure, but by effect. Here is shown the importance in possessing a medicine that may be used *ad libitum* to procure action on the bowels. The directions from "two to twenty," on Brandreth Pill Box, has more significance than was originally supposed it possessed.

If you wish the advice of a physician, secure the services of an Eclectic.

# POROUS PLASTER.

## DISTRESSING COUGH CURED.

*Letter from the Rev. Dr. Beattie.*

SCOTCHTOWN, Orange Co., N. Y., October 20, 1869.

THOMAS ALLCOCK & Co., Sing Sing: Your Porous Plasters are a great blessing. My daughter, Isabella, had whooping cough some twelve months since; when the severity of the disease abated, she still for six months had a distressing cough, and became very weak and thin. Finding internal remedies of no avail an Allcock's Porous Plaster was applied to her chest. The cough was relieved from the day it was put on, and in one month was entirely cured.

I am yours truly,

D. BEATTIE.

ALLCOCK'S POROUS PLASTER.—*In water on the chest they are a perfect cure.* They appear to have a peculiar effect upon the nerves, allaying irritability while supplying warmth. They seem to accumulate electricity, and aid the circulation of the blood through the part where applied, by which healthy actions are induced.

## NERVOUS AFFECTION OF THE HEAD CURED.

For two years I have been a great sufferer from neuralgia in the head, and found only temporary relief from all the various remedies that I have tried, until I applied one of Allcock's Porous Plasters. I cut it into three strips, placing one under each shoulder blade and the other over the small of the back; and for the past three months I have had scarcely a twinge of the old pain.

I advise all who suffer from nervous diseases to lose no time in making a trial of the wonderful Porous Plaster.

*Letter from J. R. Decatur, Esq.*

WATER STREET, New York, August 7, 1872.

THOMAS ALLCOCK & Co.:

For many years I have suffered from lame and weak back, it being so weak I could not raise a ten-pound weight from the floor. It was painful for me to stand five minutes without leaning on something for support, and it was necessary for me to be very careful in walking, for the least misstep or jar caused me intense pain. The ALLCOCK POROUS PLASTER was often recommended, but my prejudices were so strong that it was a long time before I concluded to try them. Suffering so much, I was prevailed upon to give one plaster a trial. Wonderful to relate, it gave me immediate relief, and now I have, as it were, a new back; have no difficulty in standing, walking or lifting. I send you this evidence for the benefit of my fellow men. I feel that I would like every person to know of the value of ALLCOCK'S POROUS PLASTERS for weak backs. I have recommended them to many of my friends, who have sincerely thanked me for the good they have done them.

Yours respectfully,

J. R. DECATUR,

197 Water St., New York.

## RELAXATION OF THE ABDOMINAL BELTS—RUPTURE OF THE NAVEL, WEAKNESS ABOUT THE LIVER.

Wearing one or more of Allcock's Plasters across the bowels, over the navel, has often cured these difficulties. But worn when weakness is first felt in these parts, the weakness is cured and the greater evils prevented.

## BLISTERS.

# POPULAR SCIENCE MONTHLY

(Established May, 1872.)

Conducted by Prof E. L. YOUNG.

THE POPULAR SCIENCE MONTHLY was started to promote the diffusion of valuable scientific knowledge, in a readable and attractive form, among all classes of the community, and has thus far met a want supplied by no other periodical in the United States.

The great feature of the magazine is, that its contents are not what science was ten or more years since, but what it is to-day, fresh from the study, the laboratory, and the experiment; clothed in the language of the authors, inventors, and scientists themselves, which comprise the leading minds of England, France, Germany, and the United States.

THE POPULAR SCIENCE MONTHLY is published in a large octavo, handsomely printed on clear type, and, when the subject admits, fully illustrated. Each number contains 128 pages.

TERMS: \$5 per Annum, postage free, or 50 cents per Number.

APPLETONS' JOURNAL and THE POPULAR SCIENCE MONTHLY, together, for \$8.00 per annum, postage prepaid by the publishers.

# The New National Series.

MESSRS. A. S. BARNES & CO. have the satisfaction to announce the completion of their new or supplementary Series of Text-Books, embracing the choicest recent works on every subject pursued in our schools.

They are the only publishers in this country, and, it is believed, in the world, who can offer to their patrons, for selection, TWO COMPLETE SERIES OF TEXT-BOOKS, each independent of the other, and each possessing incontestable merits, peculiar to itself. The elder, or "STANDARD COURSE," is composed of such works as Davies' Mathematics, McNally's Geography, Parker and Watson's Readers, Willard's History; Peck, Porter, Jarvis, Wood and others in the sciences, etc. All of these have been recently revised or re-written, so as to be fully up to the most exacting modern demand, and are sold to the extent of many hundred thousands of volumes annually, with the undiminished approbation of the public.

The NEW SERIES finds its *raison d'être* largely in the demand for "brief" text-books forced upon us by the crowded courses of instruction which now prevail. We believe, however, that there is a limit of concession here, in the interest of schools, and our books have not accordingly been reduced to the minimum, but are sufficiently full to afford a THOROUGH AND PRACTICAL EDUCATION to those who depend upon them for all they acquire. The difficult attempt to reconcile the popular clamor with a really adequate course has been brought to a most successful issue in the several series enumerated below, of which the publishers are as justly proud as of their STANDARD COURSE, and predict for them an equal degree of popularity.

# THE TRIBUNE

## FOR 1875.

During the year 1874 the position of **THE TRIBUNE** as the "leading American newspaper" has come to be generally recognized. It has won the position, and it means to hold it by the employment of the best ability, by the most watchful, conscientious attention, and by the most lavish expenditure of money to procure whatever money will buy, in its readers' service. Its expenditures in this way during the past year were over One Million and a Half of Dollars. For the result of this outlay it asks from each single subscriber to the **WEEKLY**, Two Dollars; from each subscriber in a Club of thirty or more, One Dollar; and it pays the postage itself.

The events of 1874 have vindicated **THE TRIBUNE's** political course, as well as its newspaper superiority. Maintaining, with all its old fervor, those Republican principles of equality and justice with which, under its illustrious founder, it was for thirty years identified, it nevertheless warned the country that the party in power had, in a long course of prosperity, grown reckless and corrupt. The people were slow to believe, and some, for a time, resented the warning. At last it was seen that **THE TRIBUNE**, as usual, was merely a few years in advance of its time. The people have come up to it. They recognize that the new conditions of the country have brought new needs and new duties; that parties cannot live forever on their past, no matter how glorious; and that the men to be trusted with the Government should be men who have shown an understanding of the popular wants, rather than men who have understood how to pack caucuses and manage conventions.

**THE TRIBUNE** can never be a neutral in politics; but it maintains its independence of any partisan dictation. It believes that the mere organ of politicians can never be a good newspaper or deserve the popular trust. It aims to judge every act of whatever party solely on its individual merits; commends the President where it thinks him right as heartily as it condemns him where it thinks him wrong; waits on no caucus for its opinions; suffers no partisan need to color its news or warp its utterance, and maintains the liberty of candid and impartial criticism of their rulers in the interest of its readers. It endeavors to combine the utmost frankness and independence with judicial fairness; keeps its columns free from all low abuse and personal wrangling, has no quarrels with other papers, and never replies to or even notices their attacks.

From those who believe such a Journal a desirable visitor in their families, **THE TRIBUNE** solicits a continuance of the popular favor it has so conspicuously enjoyed in the past, and never more conspicuously than during the hard times of 1874. It has reduced its rates thirty cents on each weekly (by prepaying postage, 20 cent., and waiving the old charge for separate addresses to club subscribers, 10 cents), and it asks those who think well of it to reciprocate by kindly efforts to increase its circulation.

**THE WEEKLY TRIBUNE** has been for the space of a generation the Farmer's favorite paper. Besides a complete condensation of the news, literary and miscellaneous reading, and best editorials from the Daily, it contains in every number a greater amount of agricultural matter than is furnished by any distinctively agricultural paper. This is prepared expressly for its columns by the best agricultural writers and practical farmers in the United States; and as its contributors are in every part of the country, it will be found equally valuable in New England, in the South, on the Pacific Slope, or in the Mississippi Valley. Great attention is paid to all subjects connected with the Farm, the Garden, and the Household, and some of the original articles every week are illustrated with wood cuts. The market quotations of farm produce, cattle, provisions, breadstuffs, dry goods, and all kinds of merchandise are exceedingly full and scrupulously accurate. The utmost care is bestowed upon the typographical arrangement of the paper, and the print is always clear and legible, and generally larger than that of any other New York paper.

## MADAME ZADOC PORTER'S Curative Cough Balsam

The Best, Cheapest, and most effectual Remedy for  
COUGHS, COLDS, &c., the World has ever produced.

**PURELY VEGETABLE.**

Contains no Mineral or Deleterious Drugs.

The CURATIVE BALSAM is Warranted, if used according to directions, to *Cure or Relieve* in all cases, *Coughs, Colds, Croup, Whooping-Cough, Asthma, and all local Affections of the Throat and Lungs tending to Consumption.*

Madame Zadoc Porter's BALSAM is a purely Vegetable Expecto-  
rant, prepared with great care and scientific skill

It is not a violent remedy, but emollient, warming, searching and effective: can be taken by the oldest person or youngest child, AND IS VERY AGREEABLE TO THE TASTE.

If you have a Cold, (however slight), do not fail to give the BALSAM a trial. The very low price at which it is sold brings it within the reach of every one. The timely use of a 25 cent bottle will often prove it to be worth a hundred times its cost, and therefore it should be kept on hand conveniently for use.

PRICE, 25, 50, and 75 Cents per Bottle.

**The 75 cent bottle is more profitable to the consumer, as it contains four times the quantity contained in the small bottle**

# SAN ANTONIO LIEBIG'S MEAT EXTRACT

MANUFACTURED BY THE

San Antonio Meat Extract Factory,  
SAN ANTONIO, TEXAS.

**CHEAPEST and BEST in the MARKET.**

This Extract having been analysed by our most eminent American and European Chemists, is pronounced by them to be superior to any in the market.

It is a pure Extract of Beef, free from fat and gelatine, each pound of which contains the soluble, nutritive constituents of 34 to 36 pounds of the finest beef, exclusive of bones, corresponding to about 45 pounds of good butcher's meat.

It will keep unchanged for years in any climate, even if not tightly closed.

The Extract of Meat is of a great service in the preparation of soups and a variety of dishes; it can be added to weak soups, vegetables, sauces, etc., to which it imparts all the nutritive properties of the best fresh beef; it is recommended to all households as well as to restaurants and hotels. At sea and on the road it is an excellent substitute for fresh beef.

Its low price, small bulk and keeping properties have led to its adoption in the U. S. Army, in the Navy, in Hospitals and other public institutions.

For the sick, invalid, convalescent, also for persons or children of weak constitution, nothing is more strengthening than the juice of fresh beef.

I would further say that the results of the analyses are in favor of the SAN ANTONIO MEAT EXTRACT FACTORY'S product in almost every particular. Very respectfully yours, C. F. CHANDLER, Ph. D.,

*Professor of Analytical and Applied Chemistry.*

SCHOOL OF MINES, COLUMBIA COLLEGE, NEW YORK.

The SAN ANTONIO MEAT EXTRACT answers perfectly all demands made on good Meat Extract in regard to taste and flavor.

WIESENADEN.

DR. R. FRESSENIUS.

I have examined the SAN ANTONIO MEAT EXTRACT, and regard it useful as a tonic and as an article of diet in Health and Sickness when properly prepared.

Awarded the highest premiums at New York State Fair, Albany, 1873, American Institute Fair, New York, November, 1874, Franklin Institute Fair, Philadelphia, November, 1874.

These Engines and Boilers have been thoroughly examined and inspected by the best mechanics, engineers and experts, all of whom pronounce it to be the *best Portable Engine ever presented to the public.*

The Engine is not attached to the Boiler, but is on the same base, making the whole

**COMPACT AND STRONG.**

It allows the adjusting of all its parts, whenever steam is on, if necessary, thereby avoiding the many delays and repairs so common to other portable engines.

Any kind of fuel can be used in this Boiler.

## READY FOR USE.

The great objection which farmers, planters and many others have against the use of steam power is, viz.: the danger from sparks. This is overcome in the Shapley.

Parties desirous of putting in a compact, cheap and economical power are invited to call and examine these Engines, as we believe they are not surpassed by any in the market.

# GENUINE Peruvian Guano.

NEW YORK, SEPT. 1st, 1874.

I have the pleasure to inform the agricultural community that the Special Agency established for the sale of Genuine Peruvian Guano, in small or large lots, at the same price at which it may be sold by Messrs. Hobson, Hurtado & Co., the sole agents of the Peruvian Government in this country, has met with great success so far.

Verbal reports and numerous letters received daily at this Agency, subject to the perusal of those interested, express entire satisfaction with the Guano sold by me last spring.

Farmers and country dealers are finding out that the Guano imported now is as good as it was until adulterated by unscrupulous jobbers, in such a manner that many consumers were obliged to abandon its use. As, however, the knowledge of this Agency has spread, they are availing themselves of this opportunity to obtain again the genuine article.

By instructions of the Peruvian Government their agents here have advanced the price of Guano from this date to sixty-two dollars and fifty cents (\$62.50) gold, per ton of 2240 lbs. gross, establishing at the same time a new scale of discounts, the lowest being of 50 cents on parcels from 50 to 100 tons, and the highest \$4 on 500 tons and over. As usual, they will not sell in lots of less than 10 tons.

Under this new arrangement I am enabled to fill orders for lots of ten tons and upwards at less price than the agents of the Peruvian Government. I will, as heretofore, supply quantities under ten tons at the same rate as charged by them.

Full particulars given in Circular, mailed free on application.

## THE BRADBURY PIANOS

Are now called the most RELIABLE, the BEST, the  
STANDARD PIANOS of the present day.

The manufacturer believes that the American public are ever ready and willing to pay a fair price for a superior article. He is, therefore, not afraid to add *real* improvements, even if they enhance the cost of the instrument to the purchaser, because his patrons are willing to reimburse him. Purchasers ought never to lose sight of the fact that when a maker constantly aims to cheapen his manufactures, the buyer loses double in quality what he gains in cheapness. The manufacturer has therefore proceeded upon the principle that the very best possible instrument is really the cheapest, and the result has been an increase in the sale of Pianos of 210 per cent. in the past two years, as per Internal Revenue Returns, and this in the face of general business depression, unparalleled in the records of Piano-forte manufacture in this country. It is easily accounted for when the above facts are taken into consideration, together with the fact that the **BRADBURY PIANO** has become the favorite instrument of all our great artists, and is used in public by them.

**STRONG INDORSEMENT.**—The musical profession in the city of New York have, with most unprecedented unanimity awarded to the Bradbury, the highest meed of praise, for their new and beautiful Piano-Fortes. They state among other high complimentary notices, that they have examined with much care, The Bradbury new Scale Piano-Fortes, and it is their opinion that, in power, purity, richness, equality of tone, and thorough workmanship, The Bradbury instruments cannot be excelled.

*Executive Mansion, Washington, D. C., March, 3, 1874.*

Mr. F. G. SMITH: DEAR SIR—The Bradbury Piano, for which I sent my Square Grand Chickering in part pay and now enclose you my check for the balance, gives entire satisfaction. Mrs. Grant wishes me also to say that the Square Grand Bradbury Piano, for which she exchanged

in part pay five years ago her Steinway Piano, still gives the greatest satisfaction to her and her many friends who perform upon it in the parlors of the Executive Mansion, and having such great confidence in your celebrated Bradbury Pianos, and after having been performed upon and tested by some of the first musicians of Washington, their opinion is unqualified approbation for the Bradbury Piano, she has therefore requested me to order another of your celebrated Bradbury Pianos for the President's Cottage at Long Branch.

I am very truly yours,

O. E. BABCOCK,  
Secretary to the President, and in Charge of Public Works.  
*War Department, Washington, Jan. 28, 1874.*

Mr. F. G. SMITH: DEAR SIR—Enclosed please find my check for the Bradbury Square Grand Piano, so promptly sent us on my order. Mrs. Belknap and myself are both very much delighted with it. Mrs. Belknap wishes me to thank you kindly, and to say it is the sweetest-toned piano she ever heard, and all her friends are equally enthusiastic in their opinion of its beauty of finish and elastic touch; it cannot be excelled. The young ladies who are with us are accomplished musicians and say it is the finest instrument they have played on in Washington.

Very truly yours,

WM. H. BELKNAP, Secretary of War.

*Howard University, Washington, D. C., March 3, 1874.*

Mr. F. G. SMITH: DEAR SIR—Mrs. Howard and myself cannot speak too highly or recommend too strongly the beautiful Bradbury Piano just received from your justly celebrated Bradbury Piano Factory; in tone and touch and finish and all that combines to make in every sense a splendid first-class Piano is combined in this. I heartily wish you success, as successors to Mr. Bradbury, whose name and music is a household word, and a Bradbury Piano should be in every household.

I am very truly yours,

O. O. HOWARD, Brig-Gen. U. S. Army.

Dr. T. DeWitt Talmage: "Friend Smith is a Methodist, but his pianos are all orthodox; you ought to hear mine talk and sing!"

*Baltimore, Md., Jan., 1874.*

Bishop Ames says: "My Bradbury is found after a severe test and trial to be equal to all you promised, and is in all respects, in richness of tone and singing qualities, every thing that could be desired.

Yours truly,

E. R. AMES."

Dr. E. O. Haven says: "My Bradbury Piano continues to grow better every day, and myself and family more and more in love with it."

Dr. J. H. Vincent: "For family worship, social gatherings, the Sabbath schools and all kinds of musical entertainments, give me, in preference to all others, the sweet-toned Bradbury Piano. It excels in singing qualities. Mine is excellent."

# The Christian Advocate

## FOR 1875.

The great merit of *The Christian Advocate* is universally conceded. The interest and utility of the information which it furnishes are attested by its increasing circulation in all sections of the country and in every branch of the Church. Notwithstanding the great competition on every side its patronage is increasing at home, and extends into every Christian country. It is not only the oldest and most widely circulated weekly Methodist journal in the world, but also has the largest subscription list of any one of the great denominational weeklies.

### MAGNIFICENT PREMIUM ENGRAVING!!!

The Publishers have arranged to favor every subscriber to *The Christian Advocate* for 1875 with the most meritorious and valuable Premium ever offered by any religious weekly to all its subscribers without additional charge. For this purpose they have purchased of that eminent artist, Mr. A. H. Ritchie, his new, original, and magnificent steel engraving, "MERCY KNOCKING AT THE WICKET GATE," (single copies of which sell at \$5 each,) and will send a copy free of charge to every subscriber for 1875, old and new.

The subscription for 1875 is \$2.50; postage for one year, twenty cents; total for paper and postage, \$2.70.

**REMEMBER THE PRICE, \$2.70 a year, post-paid, including New Premium Engraving.**

Advertisers who have used its columns recommend it highly as a first-class medium, and show their faith in it by their constant patronage.

**RATES FOR ADVERTISING.**—Ordinary advertisements, per nonpareil line, each insertion, 40 cents; Special Notices, 60 cents; Financial Notices, 75 cents; Reading Notices, \$1. Special discounts made for continuous advertising. All inquiries promptly answered.

At Prices ranging from

**\$2.00 to \$10.00 PER ACRE.**

**FIVE and TEN Years' Credit Given, with Interest at  
SIX PER CENT.**

**CONVENIENT TO MARKETS EAST AND WEST.**

The Lands of the Union Pacific Railroad Company are the odd-numbered Sections for twenty miles on each side of the road. They are located in the valley of the Platte and its tributaries—a region widely celebrated for its beautiful scenery, rich productive soil, and mild and healthful climate. The winters are short, and the atmosphere dry and invigorating. Epidemic diseases are unknown. The surface is undulating, covered with nutritious grasses, and watered with numerous clear running streams. All the productions of the Eastern and Middle States are grown with success. Wheat and Corn are the staples, and it is well adapted to the cultivation of Fruit. For stock-raising, in all its branches, these lands are unsurpassed. The Union Pacific and its branch railroads furnish market facilities unequalled. Education is free. One-eighteenth part of the entire area forms a permanent endowment of the Public Schools. Good society, Schools, Churches, Post Offices, Mills, Stores, and other advantages of civilization, are enjoyed.

The liberal provisions made for Education, the freedom from State debt, the rapidity with which this section is settling, the numerous towns and villages springing up, offering inducements to the merchant, farmer and mechanic, render this tract a most desirable location for the industrious man of limited means to secure a comfortable home, and acquire competence, independence, and position.

These lands are granted directly to the Railroad Company. The title given to the purchaser is absolute, in fee simple, free from incumbrances.

They are sold in tracts of forty acres and upwards, giving the man of small means an equal chance with the capitalist to make a safe and profitable investment, one which cannot be destroyed by fire or flood, a provision for future support, not affected by *revulsions*, or liable to the fluctuations of stocks.

Full information in reference to particular localities will be furnished, good lands selected, and sales made, free of charge, for persons not desiring to incur the expense of coming to examine the land in person; also

## THROUGH SLEEPING CARS FOR SAN FRANCISCO.

This great corporation now operates over two thousand (2,000) miles of its own road, and has "running arrangements" over nearly eight hundred miles of road owned by other companies. Taking CHICAGO as its starting point, the various lines owned by this Company radiate north, northwest, and west, like the fingers on the human hand. With one line it reaches MILWAUKEE, FOND DU LAC, GREEN BAY, and MARQUETTE. With another it runs through MADISON (the capital of Wisconsin), ELROY, and to ST. PAUL and MINNEAPOLIS. Another of its lines stretches far across Illinois, Wisconsin, Minnesota, and terminates in Central Dakota. Still another runs from Chicago, through ELGIN and ROCKFORD to FREEPORT, and with connections there for Galena, Dubuque, etc. Still another line of this corporation runs northwardly through JANESVILLE, FORT ATKINSON, WATERTOWN, to Fond du Lac, and beyond. However, the greatest and most important of the roads of this Company is their Omaha and California Line, or, as it is called, "THE TRANS-CONTINENTAL ROUTE." This is the pioneer line between Chicago and the Pacific Coast, and was the first to connect with the great Pacific roads, and form the OVERLAND ROUTE. This line is the shortest rail line between Chicago and Omaha; the track is of the best steel rail, and is well ballasted, and as free from dust as a road can be made; the bridges are strong and durable; and all the appointments are first-class in every respect. The trains that run over this line are made up of elegant new Pullman Palace Drawing Room and Sleeping Coaches, *built expressly for this line*, luxurious, well lighted and well ventilated Day Coaches, and pleasant lounging and smoking cars—all built by this Company in their own shops. The cars are all equipped with the celebrated Miller Safety Platform, and Patent Buffers and Couplings, Westinghouse Safety Air Brakes, and every other appliance that has been devised for the safety of passenger trains. All trains are run by telegraph. In a word, this GREAT CALIFORNIA LINE has the best and smoothest track, and the most elegant and comfortable equipment of any road in the West, and has no competitor in the country. It is eminently the favorite route with Chicagoans traveling west, and is acknowledged by the traveling public to be the popular line for all points in Western Iowa, Nebraska, Wyoming, Colorado, Utah, Montana, Idaho, Nevada, California, and the Pacific Slope. *All Ticket Agents sell Tickets by this route.*

# REMARKABLE STATEMENT.

[From Hall's Journal of Health for October.]

It is evident that medicine will be taken just as long as our worn-out bodies demand remedial agents. That the sick will forever fly to the doctor and the druggist for relief from all the ills that flesh is heir to, is clear; and it is equally apparent that it is the duty of the medical man not only to refine and purify and concentrate the drugs employed, but also to eliminate from them the nauseating and unpleasant conditions by which the use of the larger part of medical preparations is attended. We hail with pleasure all intelligent efforts which we observe in this direction, and shall rejoice most heartily in any discovery which will deprive the medicines exhibited of their offensive flavor. To this end it has been common of late years to coat the surface of pills with a sugar compound by the aid of which they are swallowed without exciting emotions of disgust. But only solid substances can be readily formed into pills. There are many fluid medicines of great therapeutic value, but unpleasant to the taste, and these must either be swallowed in their natural form—to the infinite annoyance of the palate—or must be partially disguised by the addition of some more palatable substance, or must be conveyed into the stomach by the means of some tasteless vehicle. Against the use of a large class of unprotected fluid medicines the sense of taste utters its strong protest; so strong, indeed, that the stomach is very apt to join with it in condemning the aggression. This is the most serious obstacle met with by physicians—the reluctance of the stomach to receive and retain the medicines swallowed. If the sense of taste could be shorn of its power during the administration of remedial agents, "irritable stomachs" would be far less common, and the best effects of the medicines employed would be more frequently secured. We should be rejoiced if the use of all drugs could cease at once and forever. It would delight us to know that in the future all diseases were to be successfully treated without medicines. But that happy millennium has not yet reached us. We must still swallow our unpleasant potions, and fight fire with fire. Let us, then, seek to render the means which we believe it to be our duty to employ as endurable as possible. An expert chemist, DUNDAS DICK, of this city, is accomplishing great good in this direction. His method of administering unpleasant fluids is to put them up in little bottles for the use of physicians and the public, and to cause the patient to swallow bottle and all! Our readers may think this a singular statement, but it is strictly true. The only explanation requisite to a clear understanding of the case is as to the nature of the bottle. The fact is, the bottle is made of pure gelatine—such as jellies are made of—and while it affords a perfect protection to the confined medicine, it is almost instantly dissolved in the stomach. The full effect of the medicine is thus secured without unpleasantness, while the vehicle or vessel used simply acts as demulcent and useful food. Dr. Dick confines within these small gelatinous cells several kinds of medicines, which are largely employed, and which are difficult of administration in their naked condition. These are castor oil, cod liver oil, oil of sandal

wood, the balsams, etc., and the protection thus afforded the palate is securing for these potent drugs a very large sale. Of course it would be a very easy thing for a chemist who lacked conscience and was devoid of principle to deceive the consumers of his articles. It is known that very impure and wretched drugs have been put up in this form by the unprincipled, and that the use of the capsule covering has thus been brought into great disrepute. To heighten the reputation of this admirable vehicle is the work of Dr. DICK, and he accomplishes it by the strictest fidelity in the preparation of his goods. He secures only pure articles, regardless of cost, and puts them up with scrupulous care. His prices are necessarily higher than those of the cheap and obscure vendor, but they leave for him only a small margin of profit, because of the superior excellence of his goods. In nothing is more necessary than in the selection of the articles swallowed. If this is true in the matter of food used by the healthy, how much more important is this caution in that of the medicines taken by the sick! The reputation of the remedies of which we have spoken rests entirely upon their purity, and leading physicians testify to their trustworthy qualities. So apparent is this to medical men in large practice that they are careful to prescribe no capsules except these, for the purity of the contents of which they can personally vouch. So far as we have been able to learn, Dr. DICK's products stand at the head of all articles in his line. That they are precisely what they purport to be is, we believe, universally admitted. It is curious to observe the manufacture of these tasteless preparations. Every capsule passes through not less than twenty hands, and is subjected to not less than five critical examinations. They are then carefully wrapped in tinfoil and neatly boxed for transportation. The industry is a rapidly growing one, and new articles of recognized merit are being thus protected by the film of harmless gelatine. The articles thus put up are solely such as are employed by the educated medical man, and no quack compounds or secret preparations are found in his catalogues. The vehicle of gelatine is employed, not for purposes of concealment or disguise, but simply to secure for the remedies an easy passage to the stomach. Each article used has its place in medical science, and none has more rapidly attained to a position of prominence than the oil of sandal wood, which is found to be superior in the diseases to which it is adapted to all other remedies. Castor oil, generally so unpleasant to the taste, is readily swallowed in its delicate envelope, and its effects are in no degree impaired. We are convinced we are doing a real service to those who imagine themselves compelled to swallow nauseating medicines when we call their attention to these elegant preparations of Dr. DICK. If we were able to convince them that they could get along without drugs in many cases in which they deem them of the first importance, we should most heartily congratulate them and ourselves. But, since this cannot be, let us urge them not to unnecessarily offend the palate, with which the stomach is so sure to sympathize. These tasteless medicines are sold by all good druggists.

# A LARGE ENGRAVING GIVEN EVERY TWO MONTHS, OR SIX ENGRAVINGS A YEAR TO EVERY SUBSCRIBER OF THE NEW YORK FIRESIDE COMPANION.

PROSPECTUS FOR 1875.

THE NEW YORK FIRESIDE COMPANION stands at the head of all the weekly papers published in the United States. Its circulation is equal to that of the most widely circulated journals in the world.

The great feature of *The New York Fireside Companion* is **Good Continued Stories**. It contains the sweetest and purest love stories. It has the largest list of popular story writers, and constantly offers better stories than any other paper. Our readers will bear witness to our unwearied efforts in securing the best writers. During 1875 we hope to furnish a greater number of good stories and a greater amount of good matter of all descriptions, than has ever been given before. As a Family Paper, *The New York Fireside Companion* is without a peer. **At least Six Continued Stories** will be published constantly, and a new story will be commenced about every second week, so that new readers will be able to get the beginning of a story of the newsdealers, or of us, no matter at what time they may subscribe. Back numbers can always be had, containing the commencement of every story.

*The following is a partial list of our Contributors for 1875.*

OLIVER OPTIC, Dr. JOHN B. WILLIAMS, TONY PASTOR, PETROLEUM V. NASBY, CLARA PERCY, LUCY RANDALL COMFORT, Mrs. SUMNER HAYDEN, J. W. MACKEY, P. HAMILTON MYERS, LESLIE THORNE, FRANK COREY, AGILE PENNE, Prof. JAMES DE MILLE, CAPT. CARLETON, MARY GRACE HALPINE, SHIRLEY BROWNE, BRICKTOP, MARY J. WINES, S. W. PEARCE, G. L. AIKEN, G. G. SMALL, ALBERT W. AIKEN, JOHN ELDERKIN, ALLAN DEANE.

No effort is spared to add to the interest and variety of the contents of the paper. Beautiful engravings are distributed to subscribers free as supplements. Early in 1875 we shall publish

*A New Story by Mrs. Sumner Hayden.* *A New Story by Agile Penne.*

*A New Story by Oliver Optic,* Author of "True to his Alm," etc., etc.

*A New Story by Tony Pastor,* Author of "Old Sleuth, the Detective;" "The Shadow Detective;" "The Lightning Detective," etc.

*A New Story by Prof. James De Mille,* Author of "The Babes in the Wood;" "The Dodge Club;" "Cryptogram;" "Cord and Cresse," etc.

*A New Story by Dr. John B. Williams,* Author of "Deadly Foes;" "Fighting for a Fortune;" "Maurice Flint;" "Under a Mask," etc.

*A New Story by Mrs. Lucy Randall Comfort,* Author of "Little Gay, or Disinherited," etc.

*Humorous Articles by Petroleum V. Nasby.*

*A New Story by Frank Corey,* Author of "Sweetheart and Wife," etc.

The paper will have the best **Short Stories, Sketches, Poetry, Biography, Fashion Articles, Humor, Gossip, and Notices to Correspondents.**

No effort or pains are spared to make the CORRESPONDENTS' COLUMN most attractive and useful to our readers. This department is edited by a gentleman of wide experience and sound judgment, and a vast amount of information is given: answers to questions relating to love and etiquette; legal and medical questions; information for the kitchen and household; in fact, answers to all questions that turn up in life, can be found in this column.

**READING FOR LITTLE FOLKS.**—This is and will continue to be one of the prominent features of the paper. The contributions to this department are by the very foremost writers for children in the country. This alone makes the FIRESIDE COMPANION invaluable to every household where there are children. We know of instances where the little ones insist upon having these articles read over and over again to them before the paper of the following week is issued.

## MUNRO'S GIRLS AND BOYS OF AMERICA.

The largest and most select popular weekly for young folks. It is the only paper which contains the kind of stories which mothers want to read aloud to little ones, and which every father may unhesitatingly place in the hands of his children. It contains a larger amount and variety of good reading for girls and boys than can be had in any other weekly or monthly periodical.

**TERMS FOR 1875—NOW IS THE TIME TO SUBSCRIBE.**

**MUNRO'S GIRLS AND BOYS OF AMERICA and THE NEW YORK FIRESIDE COMPANION:** One copy of *Munro's Girls and Boys of America* will be sent for one year to any subscriber in the United States on receipt of \$2.50; two copies for \$4; or, nine copies for \$16. *The New York Fireside Companion* will be sent for one year on receipt of \$3; two copies for \$5; or, nine copies for \$20. Getters up of Clubs can afterwards add single copies at \$2.50 each. We will be responsible for remittances sent in Registered Letters, or by Post Office Money Orders. # THE NEW YORK LEDGER

## FOR THE NEW YEAR 1875.

### THE GREAT FAMILY PAPER.

**IT PAYS THE HIGHEST AND GETS THE BEST.**

Our best and most popular old writers—whose places could not, in our opinion, be supplied by any others on the American Continent—will continue to write, most of them exclusively, for the *Ledger*.

In addition to the old favorites, we have made arrangements with eminent new writers, whose names will be announced hereafter.

We do not hesitate at any price necessary to obtain the contributions of the first authors of the day.

We believe that hundreds of thousands of young men and women, through the attractive and entertaining matter in the *Ledger*, have formed a taste for reading which has now become fixed, and will remain with them, a source of happiness and improvement, through life.

As we said on a former occasion, one great and guiding principle with us is to inculcate the sentiments of self-respect and self-reliance, and thus to strengthen and render more manly the characters which are just assuming form, to endure through all their days.

The *Ledger* advocates the strictest fidelity in all the relations of life, and the inviolability of the marriage contract.

Our old readers will all bear us witness that the *Ledger* has always been better at performing than at promising. Every year it has furnished much more than was promised at the beginning.

The *Ledger* is always full of life and spirit; and a person once accustomed to reading it finds it too pleasant a companion to willingly part with it.

It contains the purest, sweetest and most delightful stories, striking narratives, and instructive biographical and historical sketches.

It has the most popular and carefully prepared collection of scientific facts.

We shall continue to reply to questions on all interesting subjects as heretofore. Not only are these questions genuine, coming directly from the people, but we receive thousands more than we have space to answer.

After the first of January, 1875, *our subscribers will have no postage to pay*. We shall prepay the postage on every paper that we mail. Notwithstanding this, there will be no increase in the price of the *Ledger*. As will be seen by the following, our rates remain unchanged:

#### **OUR TERMS FOR 1875.**

Single copies, \$3 per annum; four copies, \$10, which is \$2.50 a copy; eight copies, \$20, *postage free*. The party who sends us \$20 for a club of eight copies (all sent at one time), will be entitled to a copy *free*. Postmasters and others who get up clubs, in their respective towns, can afterward add single copies at \$2.50. No subscriptions taken for a less period than one year. When a draft or money order can conveniently be sent, it will be preferred, as it will prevent the possibility of the loss of money by mail. Remember that the postage on the *Ledger* to all parts of the country will be paid by us, so that our subscribers will have no postage to pay.

 We employ no travelling agents. Address all communications to

## Explanation of the above Table.

In the table above it is to be understood that the word "near" and the character ☿ (conjunction) are synonymous, and mean that the two bodies are *nearest* each other at the time expressed, and that they are then on a line running from the North Pole through both bodies, and have the same *right ascension*. GR. ELON. means greatest elongation, or greatest apparent angular distance from the Sun. STATIONARY means that the planet is then without apparent motion east or west with respect to the Stars, and is about to move in a direction contrary

to that it last had. The character ☿ indicates that the planet is opposite the Sun, or 180 deg., or a half circle, east of it, and rises when the Sun sets, and sets when he rises. When a planet is a quarter of a circle, or 90 deg. from the Sun, east or west, it is known by ☐.

PLANETARY CHARACTERS. — ☿ Mercury, ♀ Venus, ☿ Mars, ♃ Jupiter, ♄ Saturn, ♅ Uranus, ♆ Neptune, ☾ Moon.

The above table enables us to find the planets throughout the year.

## TRADE AND COMMERCE.

NOTE.—In the following tables it will be understood that the fiscal year of the United States and that of the Dominion of Canada, end with the 30th of June. That of Great Britain ends with the 31st of December. The imports of the United States are rated at their coin value in the ports from which they are shipped. The imports of Great Britain are rated at their value, exclusive of duty, in the British ports where they are entered, including freights and profits of the importer. The values of the foreign trade of Great Britain are uniformly given in pounds sterling, the value of which is \$4 86 and 65-100ths cents in our gold coin.

The following statistical summaries of the foreign commerce of the United States, Great Britain and the Dominion of Canada, illustrate

the transition from a period of great activity to one of extreme depression. The last commercial crisis which was common to Europe and America, previous to the one of two years ago, was in 1857. That was followed, in the case both of England and the United States, by a heavy decline in the imports and exports, which lasted until 1860. The crisis of 1873 has been followed by similar effects, and so was the panic of 1866, the consequences of which were mainly confined to Great Britain. At the present time (November, 1875) the appearances are that the effects of the panic and the general commercial depression will continue to the end of the current fiscal year.

By comparing the five years with each other, it will be found that the imports and consumption of tea, coffee, sugar and molasses are main-

tained with great steadiness, both in the United States and Great Britain. The greatest falling off in the imports of the United States and the exports of Great Britain, is shown in iron and steel and the manufactures of these articles. The quantities of the various manufactures of iron imported into the United States in 1874-5 are not one-fifth those imported in 1871-2. Next come the manufactures of cotton, woolen, silk and linen. The British exports of cotton manufactures, however, though greatly diminished in value, still show an increase in quantity. As

might be inferred from the state of trade, the falling off in values of articles which show a decline is usually greater than the decline in quantities. In 1875, as compared with 1874, the exports of the United States show a serious decrease in cotton, wheat and wheat flour, petroleum, bacon and hams, tallow and leaf tobacco, the decrease in these important articles showing itself in quantities as well as values.

In THE TRIBUNE ALMANAC of last year, we made the following observations in regard to the export trade of the United States, the truth of [Concluded on page 14.]

which is confirmed by the events of the twelve months which have passed since the tables for last year were compiled: "In examining the exports of the United States, the great fall in the value per cwt. of cotton and provisions, comparing 1869-70 with 1878-4, is to be noticed. Other striking features are the enormous quantities of breadstuffs and provisions exported in the last three years, the increase ranging from two to fivefold in four years. In the case of some of these articles, the capacity of the foreign markets to absorb our productions appears to have been reached, and no further increase is to be

expected, at least until trade in Great Britain becomes more active. Bacon, hams, beef and lard are examples of the products to which we refer. On the other hand, there is reason to expect an increase in the exports of coal, leather, manufactures of iron and steel and cotton goods. The nation is under a necessity to export, both in payment for its imports and for the settlement of its large debts to foreigners. If cotton, breadstuffs, provisions, petroleum, tobacco and the available coin and bullion prove inadequate for such payments, other articles will be taken—namely, manufactures."

### No. 9.—Foreign Trade of the Dominion of Canada.

[The Dominion of Canada consists of the six Provinces of Ontario, Quebec, New Brunswick, Nova Scotia, British Columbia and Manitoba. The British North American Provinces, outside of the Dominion, are Newfoundland and Prince Edward Island. The population of the four principal Provinces of the Dominion was 3,090,561 in 1861, and 3,485,761 in 1871.]

It appears, from the foregoing statement, that nearly 50 per cent. of the aggregate importations into the Dominion during the last fiscal year, were from Great Britain, and 43 per cent. from the United States; the import trade with both these countries amounting together to nearly 93 per cent. of the whole importations.

**STATISTICS of the IRON MANUFACTURES of the UNITED STATES.**

COMPILED FROM THE REPORT OF JAMES M. SWANK, SECRETARY OF THE AMERICAN IRON AND STEEL ASSOCIATION.

Presented to the members, October 1, 1875.

**PRODUCTION OF PIG IRON IN THE UNITED STATES IN 1874.**

The American Iron and Steel Association has received from the producers and from its correspondents full statistics of the production of pig iron in the United States in 1874. The total production was 2,689,413 net tons, against 2,868,278 net tons in 1873, and 2,854,558 net tons in 1872, showing a decrease of 178,865 tons as compared with 1873, and 165,145 tons as compared with 1872. Notwithstanding this decrease, the production in 1874 was much larger than has been generally estimated—much larger even than partial returns made to the Association at the close of 1874 indicated.

In 1872 there was every inducement for furnace-owners to make all the iron that was possible, for prices were high and the demand was constant; hence the hitherto unexemplary yield of that year, 2,854,558 tons. In 1873 a number of large new furnaces, built in that year and in 1872, were put in blast, and during the first half of the year greatly augmented the production of iron over that of the corresponding period of 1872. Had the prices of 1872 been maintained during 1873, and the demand for iron experienced no abatement, there can be no doubt that the production of 1873 would have reached 3,500,000 tons. But at the beginning of summer it became evident that production was outrunning consumption, and it will be remembered that on the 19th of June a convention of pig iron makers assembled at Cleveland, and adopted a resolution recommending a restriction of production. This recommendation was so far followed or anticipated as to cause the blowing out during the summer of a number of furnaces. Others were blown out for repairs, at various periods during the year, and were not again put in blast. In September the panic came, and it was at once made evident, by the resultant shrinkage in prices and decrease in consumption, that production would have to be still further reduced, and accordingly a number of additional furnaces were blown out, so that, by the close of the year, of 665 furnaces then completed, 252 were out of blast and 413 were in blast. The production of the year was 2,868,278 tons, or 13,720 tons in excess of that of 1872. The year 1874 opened with 413 furnaces in blast, in which nearly every one of the large new and improved furnaces built in 1872 and 1873 was included. The hopes of a revival of business that were entertained at the beginning of the year were soon found to be delusive, and then began the agitation of the policy of still further restricting production by means of a definite system which should aim at an equitable division of the trade. This agitation proved fruitless, but while it was pending very few furnaces were blown out, while fully as many others, some of which were new, were blown in. It was not until near the close of the year that a general determination to blow out furnaces was reached, and when the year closed, of 701 furnaces then completed, 836 were out of blast and 865 were in blast. The produc-

tion of the year was 2,689,413 tons, or 178,865 tons less than the product of 1873.

When we consider that the furnaces which made 2,854,558 tons of iron in 1872 were mostly small; that the lessened number of furnaces which made 2,868,278 tons in 1873 included all the large and improved new furnaces; and that there were almost as many furnaces in blast in 1874 as in 1873, the best furnaces running, while the poorest stood idle, we need no longer wonder that the production of 1874 was 2,689,413 tons, or only 178,865 tons less than the product of 1873.

The quantity of pig iron of all kinds which was on hand and unsold at the close of 1874 in the hands of makers or their agents was 795,784 net tons. The quantity which was held by speculative parties, or was in the hands of creditors, or in the hands of consumers, was undoubtedly large; so that, at the close of 1874, the total quantity of pig iron in the country, exclusive of the small stocks of foreign iron, may be safely estimated at 1,000,000 tons. Prices could not be expected to improve under such circumstances, and, although more furnaces have blown out since the 1st of January than have been blown in, the quantity of iron that has been made since then, joined to the 1,000,000 tons then on hand, has been entirely too large to exercise any other than a depressing effect on the market. On the 1st of February, 1875, of 701 completed furnace stacks in the country, there were in blast 303 stacks, and out of blast 398 stacks. Sixty-two furnaces had been blown out in January. Since February 1st the number of furnaces out of blast has been slightly increased. The number of new furnaces completed in 1874 was 88, against 50 in 1873 and 41 in 1872. The astonishing number of 46 stacks is reported as being in course of erection in 1875, while others are projected.

Below we present a table showing the growth of the pig iron branch of the iron trade of the United States from 1854 to 1874, compiled from statistics procured by this Association.

# PRODUCTION OF ROLLED IRON IN THE UNITED STATES IN 1874.

Below will be found a table showing the production in net tons by States of all forms of rolled iron produced in the United States in 1874, including all kinds of rails, and nails and spikes. As heretofore explained, our statistics of rolled iron embrace bar, band, hoop, plate, sheet, angle, girder, beam, boat, guide, rod, and bridge iron, and rolled axles. All forged iron, such as anchors, anvils, hammered axles, cranks, ships' knees, etc., is carefully excluded, because it is impossible to learn the whole amount of iron hammered or forged in the vast number of machine-shops, locomotive works, marine engine works, anchor works, and similar establishments of the country.

The total production of all rolled iron in 1874, Bessemer steel rails included, was 1,839,560 net tons, against 1,966,445 tons in 1873, a decrease of only 126,885 tons. This decrease was all in rails. Of the total product of the rolling mills in 1874, 1,110,147 tons were rolled iron other than rails, against 1,076,868 tons in 1873, an increase of 33,279 tons. The number of tons of nail plate consumed in 1874 was 245,609 net tons, against 201,285 tons in 1873, an increase of 44,324 tons. The increase of 33,279 tons in the aggregate production of rolled iron other than rails in 1874 was therefore wholly in the department of cut nails and spikes. The total number of kegs of cut nails and spikes produced in 1874 was 4,912,180, against 4,024,704 kegs in 1873.

The following table will show the comparative production of rolled iron, excluding rails, and of cut nails and spikes, in all the States in 1873 and 1874.

## PRODUCTION OF RAILS IN THE UNITED STATES IN 1874.

The total production of rails of all kinds in the United States in 1874, was 729,413 net tons, against 890,077 tons in 1873, 1,000,000 tons in 1872, and 775,788 tons in 1871. The following table will show the States which produced rails in 1874, and the character of the product, in net tons.

The whole number of rail rolling mills in the country in 1874 was 91, of which 57 make heavy rails mainly, and 34 make only light or street rails. Of the whole 91 mills, 22 made no rails in 1874. The product of the year was therefore rolled by 69 mills, and many of these ran only a part of the time. The capacity of all the rail rolling mills of the country is at least double the product of 1874, which was 729,413 net tons. Of the 67 mills which made rails in 1874, 7 made both iron and Bessemer steel rails, 1 made Bessemer steel rails exclusively, 2 made steel-headed

#### PRODUCTION OF BESSEMER STEEL IN THE UNITED STATES IN 1874.

The eight completed Bessemer steel establishments in this country were not fully occupied in filling orders during 1874. Nevertheless, the product of the year was greater than that of 1873. The production of Bessemer steel rails in 1874 was 144,944 net tons, against 129,015 net tons in 1873—a gain of 15,929 tons. The production of Bessemer steel rails in this country, since 1867, when they were first made upon orders, has been as follows in net tons:

1867.....	2,550	1871.....	38,250
1868.....	7,225	1872.....	94,070
1869.....	9,650	1873.....	129,015
1870.....	34,000	1874.....	144,944

Below is a table of the annual production in this country of merchantable Bessemer steel for all purposes, from 1867 to 1874, in net tons:

1867.....	3,000	1871.....	45,000
1868.....	8,500	1872.....	110,500
1869.....	12,000	1873.....	157,000
1870.....	40,000	1874.....	176,579

The total quantity of pig iron converted by the Bessemer or Pneumatic process was 140,404 net tons in 1872, 183,534 tons in 1873, and 204,332 tons in 1874.

The Edgar Thomson Steel Company Limited made their first blow on Thursday, August 26th last, started their blooming mill on Friday, Aug. 27th, and rolled their first rail on Wednesday, Sept. 1st. The works at once went into full operation. This company makes the ninth that is now engaged in making Bessemer steel rails in this country. The Lackawanna Iron and Coal Company will follow before the close of this year. The foundations of the Bessemer plant of the Vulcan Iron Works at St. Louis have just been laid.

The quantity of Bessemer ingots made in the United Kingdom during the last five years is stated as follows, by competent authority, in gross tons: In 1870, 215,000 tons; 1871, 329,000; 1872, 410,000; 1873, 496,000; 1874, 540,000.

The imports of steel rails from all countries into the United States in the calendar year 1874 were 100,486 net tons, against 159,571 tons in 1873, and 149,786 tons in 1872. Prior to 1872 the imports of steel rails were not separately classified, and there is consequently no record of the quantity imported. In the following table we give in net tons the production and importation of steel rails during the past three years, the combined figures indicating the consumption in those years:

Consumption, ditto.....	243,856	288,586	245,430

The average price in currency at which American steel rails have been sold at the works since the establishment of the industry, is shown in the following summary:

1867... \$1.60	1869... \$1.32½	1871... \$1.02½	1873... \$1.20½
1868... 1.83½	1870... 1.06½	1872... 1.12	1874... 94½

The prices obtained at the works thus far during 1875, have averaged about \$75.

Below is a table showing, in net tons, the total production of steel other than Bessemer in this country during the past ten years:

1865.....	15,262	1870.....	35,000
1866.....	18,973	1871.....	37,000
1867.....	19,000	1872.....	38,000
1868.....	21,500	1873.....	50,000
1869.....	23,000	1874.....	47,481

During the calendar year 1874 our imports of steel ingots, bars, sheets and wire amounted to \$2,678,611, against \$3,863,316 in 1873, \$4,106,067 in 1872, and \$3,460,735 in 1871. Our exports of these articles in 1874 amounted to 343 net tons of the value of \$29,537, against 26 tons in 1873 of the value of \$5,431, 9 tons in 1872 of the value of \$3,624, and 80 tons in 1871 of the value of \$7,364. The increase in our exports and the decrease in our imports of these commodities in 1874 are very marked, and the statistics for 1874 are equally encouraging to the home manufacturer.

#### SUMMARY OF IRON AND STEEL PRODUCTION IN 1874.

From the foregoing statistics of the production of pig iron, rails, bar iron, steel, etc., in the United States in 1872, 1873 and 1874, the following table of the aggregate production of iron and steel is compiled, embracing the different branches of the iron trade:

PRODUCTS—NET TONS	1872.	1873.	1874.
Pig iron.....	2,854,558	2,868,278	2,689,413
All rolled iron, including nails.....	1,941,992	1,666,445	1,839,560
All rolled iron, including nails and excluding rails.....	941,992	1,076,368	1,110,147
Rails of all kinds.....	1,000,000	890,077	729,413
Bessemer steel rails.....	94,070	129,015	144,944
Iron and all other rails.....	905,930	761,062	584,469
Street rails.....	15,000	6,430	6,739
Kegs of cut nails and spikes.....	4,065,322	4,024,704	4,912,880
Merchantable Bessemer steel other than rails.....	16,430	27,985	31,635
Total of merchantable Bessemer steel.....	110,500	157,000	176,579
Crucible cast steel.....	27,260	32,786	34,128
Open-hearth steel.....	3,000	3,500	7,000
All other steel.....	7,740	13,714	6,353
Blooms from ore and pig iron.....	58,000	62,554	61,670

The consumption of rails in any given year can be ascertained with a great degree of accuracy by assuming that the quantity carried over from year to year is always about the same, and that the total of imports and production is therefore consumed. The following table will show the probable consumption of rails in this country during 1872, 1873 and 1874:

RAILS.	1872. Net Tons	1873. Net Tons	1874. Net Tons
Production of iron rails.....	905,930	761,062	584,469
Production of Bessemer rails.....	94,070	129,015	144,944
Importation of iron rails.....	381,064	99,202	7,796
Importation of Bessemer rails.....	149,786	150,571	100,486
Probable consumption.....	1,530,850	1,148,850	837,695

These figures indicate a reduced consumption of rails of all kinds in 1874 of 311,155 tons, as compared with 1873, and of 698,155 tons as compared with 1872.

#### COTTON STATISTICS.

Previously to 1790, the United States did not export a pound of cotton. A little had been raised for domestic use before the Revolution, but the quantity was of no importance. In 1791 the trifling quantity of 189,316 lbs. was exported, and in 1792, 138,323 lbs.—not enough in both years to load an average sized schooner. About this time Eli Whitney invented the cotton gin, by which the wool of the upland cotton is separated from the seed with facility, whereas before the process was so difficult that the cotton was hardly worth the labor of preparing it. The effect of this invention was immediately perceptible in the exports of cotton, which increased in 1794 to 1,601,760 lbs., and in 1795 to 5,276,800 lbs. By 1821 they had increased to 124,593,405 lbs. of the value of \$20,157,484, and at present the exports upon an average exceed 1,100,000,000 lbs. of the average value in our paper currency of \$200,000,000. The following table shows the annual production of cotton in bales in the United States for a period of 54 years.

1838-39	1,360,532	1856-57	2,609,519	1874-75	3,832,991

The above statistics show an average for the last three years of nearly 4,000,000 bales. Of this aggregate, on an average of the last four years, 1,200,000 bales a year have been consumed by the manufacturers of our own country. According to the valuable statistics of *The Commercial and Financial Chronicle*, Northern manufacturers took from the crop 896,860 bales in 1869-70; 1,008,956 bales in 1870-1; 977,540 bales in 1871-2; 1,063,465 bales in 1872-3; 1,177,417 bales in 1873-4, and 1,062,522 bales in 1874-5. Manufacturers in the Southern States took 90,000 bales in 1869-70; 91,240 bales in 1870-1; 120,000 bales in 1871-2; 137,662 bales in 1872-3; 128,526 bales in 1873-4, and 130,483 bales in 1874-5.

The late J. K. McCulloch, an eminent authority in political economy among the inhabitants of the British Isles, expatiates in his Dictionary of Commerce on the immense obstacles to be overcome before the cotton manufacture could gain a secure footing in the United States. He regarded that species of industry as having been forced into a premature existence here by a protective tariff, and expressed the opinion that such a misdirection of capital and industry could

end in nothing but ruin to the parties involved in it. While the people of the United States can agree with Mr. McCulloch that without the protection of the tariff the cotton manufacture could never have reached its present development in our country, it may at the present time be seriously debated whether the manufacture might not continue to flourish with unabated vigor were the protective duties abolished and revenue duties alone collected, as is the case in Canada. The fact, however, is beyond doubt that the United States rank next to Great Britain and far in advance of all other countries in the manufacture of cotton goods, though the products of our factories are almost exclusively for home consumption.

The United States produce more cotton than all the rest of the world together. The annual consumption of cotton in Europe and North America is now estimated at 2,700,000,000 lbs., of which 1,250,000,000 are worked up in Great Britain, 925,000,000 lbs. on the Continent of

Europe, and 525,000,000 lbs. in the United States. Of this total of 2,700,000,000 lbs., over 1,700,000,000 lbs. are grown in the United States, and less than 1,000,000,000 in India, Egypt, Brazil, and other countries. By consulting Table No. 2, on the preceding page, it will be seen that Great Britain is the destination of from two-thirds to three-quarters of all our exports of cotton, the greater portion of the remainder going to the Continent of Europe. Table No. 3 shows that previously to 1861 more than three-fourths of all the cotton imported into Great Britain came from the United States, whereas upon an average of the last four years but little more than one-half of the British imports came from this country. It will be noticed that a large quantity of cotton, which is finally manufactured by the nations of Continental Europe is first imported by Great Britain, and then re-exported to its final place of destination. The quantity for the last ten years has ranged from 220,000,000 to 339,000,000 lbs.

### AMERICAN AND BRITISH SHIPPING.

The following tables exhibit, in the strongest light, the decadence in the foreign commerce of American shipping since 1860, and the great increase, during the same period, of British tonnage. Fifteen years ago two-thirds of the tonnage which entered and cleared at our ports, carried our own flag, and in British ports

our flag was seen almost as often as British colors. The state of things is now reversed, British-built steamers and other vessels doing, we suppose, two-thirds of the foreign carrying trade of the world. The accompanying statistics, which have never before been placed in juxtaposition, will be found an interesting study.

## UNITED STATES REVENUE AND EXPENDITURE.

*It is sufficiently evident that, whilst one-third of the national revenue is necessarily absorbed by the payment of interest, a persevering application of the resources afforded by seasons of peace and prosperity, to the discharge of the principal, in the manner directed by the Legislature, is the only effectual mode by which the United States can ultimately obtain the full command of their revenue, and the free disposal of all their resources.—Albert Gallatin, Report on the Finances, Dec. 9, 1865.*

## THE FOREIGN MARKETS FOR OUR BREADSTUFFS.

The first of the subjoined tables shows that while the exports of our wheat to foreign countries are subject to great fluctuations, the movement for the last two fiscal years has been on a greater scale than during any former period. The total exported, exclusive of flour, rose from 8 million bushels in 1859, to 87 millions in 1862; then fell to less than 6 millions in 1866, and increased again to 71 millions in 1874. The second table shows that the British imports of wheat from each country are subject to corresponding vicissitudes, the fluctuations in the aggregate imported being less violent, but still considerable. The average quantity imported into Great Britain for five years past, including 1875, which is not embraced in our table, is about 4½ million cwt., or 80 million bushels. The United States, counting the exports directly from our own ports and indirectly through the ports of Canada, are by far the most important source of supply. For

the annual value of the wheat exported from the United States to all countries, and imported into Great Britain from all countries, see the tables on pages 10 and 11.

In addition to the exports of wheat, there were exported from the United States, in the fiscal year 1874, 4,094,094 barrels of wheat flour, and in 1875, 3,951,086 barrels. The principal countries to which flour is exported from the United States are Great Britain, the West India, Brazil, the British North American Provinces, New Grenada and Venezuela.

For four years past the exports of Indian corn have been of great consequence, the quantity averaging more than 30,000,000 bushels a year, and the value exceeding \$25,000,000 in paper currency. Great Britain is the principal market for this product, the quantities sent to other countries being comparatively insignificant.

The foregoing is a correct statement of the Public Debt, as appears from the books and Treasurer's Returns in the Department at the close of business, November 30, 1875.

BENJAMIN H. BRISTOW,  
Secretary of the Treasury.

## ABSTRACT OF PUBLIC LAWS,

PASSED AT THE SECOND SESSION OF THE FORTY-THIRD CONGRESS, WITH A SUMMARY OF APPROPRIATIONS MADE

### THE CURRENCY.

[The following is the Act of Jan. 14, 1875, providing for the resumption of specie payments on Jan. 1, 1879. This act was agreed upon by a caucus of Republican Senators, and made a party measure both in the Senate and House of Representatives, the Democrats, as a general thing, voting against it.]

**Chap. 15.**—*An act to provide for the resumption of specie payments.—Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That the Secretary of the Treasury is hereby authorized and required, as rapidly as practicable, to cause to be coined at the mints of the United States, silver coins of the denominations of ten, twenty-five, and fifty cents, of standard value, and to issue them in redemption of an equal number and amount of fractional currency of similar denominations, or, at his discretion, he may issue such silver coins through the mints, the subtreasuries, public depositories, and post-offices of the United States; and, upon such issue, he is hereby authorized and required to redeem an equal amount of such fractional currency, until the whole amount of such fractional currency outstanding shall be redeemed.

**Sec. 2.** That so much of section three thousand five hundred and twenty-four of the Revised Statutes of the United States as provides for a charge of one-fifth of one per centum for converting standard gold bullion into coin is hereby repealed, and hereafter no charge shall be made for that service.

**Sec. 3.** That section five thousand one hundred and seventy-seven of the Revised Statutes of the United States, limiting the aggregate amount of circulating notes of national banking associations, be, and is hereby, repealed; and each existing banking association may increase its circulating notes in accordance with existing law without respect to said aggregate limit; and new banking associations may be organized in accordance with existing law without respect to said aggregate limit; and the provisions of law for the withdrawal and redistribution of national bank currency among the several States and Territories are hereby repealed. And whenever, and so often, as circulating notes shall be issued to any such banking association, so increasing its capital or circulating notes, or so newly organized as aforesaid, it shall be the duty of the Secretary of the Treasury to redeem the legal-tender United States notes in excess only of three hundred million of dollars, to the amount of eighty per centum of the sum of national bank notes so issued to any such banking association as aforesaid, and to continue such redemption as such circulating notes are issued until there shall be outstanding the sum of three hundred million dollars of such legal-tender United States notes, and no more. And on and after the first day of January, anno Domini eighteen hundred and seventy-nine, the Secretary of the Treasury shall

redeem, in coin, the United States legal-tender notes then outstanding on their presentation for redemption, at the office of the assistant treasurer of the United States in the city of New York, in sums of not less than fifty dollars. And to enable the Secretary of the Treasury to prepare and provide for the redemption in this act authorized or required, he is authorized to use any surplus revenues, from time to time, in the Treasury not otherwise appropriated, and to issue, sell, and dispose of, at not less than par, in coin, either of the descriptions of bonds of the United States described in the act of Congress approved July fourteenth, eighteen hundred and seventy, entitled, "An act to authorize the refunding of the national debt," with like qualities, privileges and exemptions to the extent necessary to carry this act into full effect, and to use the proceeds thereof for the purposes aforesaid. And all provisions of law inconsistent with the provisions of this act are hereby repealed.

Approved, January 14, 1875.

**Chap. 19.**—Removes the limit on the circulation of banks issuing notes payable in gold, which was formerly a maximum of \$1,000,000 by any one bank.

### THE CIVIL RIGHTS BILL.

**Chap. 114.**—*An act to protect all citizens in their civil and legal rights.*—Whereas, it is essential to just government we recognize the equality of all men before the law, and hold that it is the duty of government, in its dealings with the people, to mete out equal and exact justice to all, of whatever nativity, race, color, or persuasion, religious or political, and it being the appropriate object of legislation to enact great fundamental principles into law: Therefore,

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That all persons within the jurisdiction of the United States shall be entitled to the full and equal enjoyment of the accommodations, advantages, facilities, and privileges of inns, public conveyances on land or water, theaters, and other places of public amusement; subject only to the conditions and limitations established by law, and applicable alike to citizens of every race and color, regardless of any previous condition of servitude.

**Sec. 2.** That any person who shall violate the foregoing section by denying to any citizen, except for reasons by law applicable to citizens of every race and color, and regardless of any previous condition of servitude, the full enjoyment of any of the accommodations, advantages, facilities, or privileges in said section enumerated, or by aiding or inciting such denial, shall, for every such offense, forfeit and pay the sum of five hundred dollars to the person aggrieved thereby, to be recovered in an action of debt, with full costs; and shall also, for every such offense, be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined not less than five hundred nor more than one thousand dollars, or shall be imprisoned not less than thirty days nor

more than one year: *Provided*, That all persons may elect to sue for the penalty aforesaid, or to proceed under their rights at common law and by State statutes; and having so elected to proceed in the one mode or the other, their right to proceed in the other jurisdiction shall be barred. But this proviso shall not apply to criminal proceedings, either under this act or the criminal law of any State: *And provided further*, That a judgment for the penalty in favor of the party aggrieved, or a judgment upon an indictment, shall be a bar to either prosecution respectively.

SEC. 3. That the district and circuit courts of the United States shall have, exclusively of the courts of the several States, cognizance of all crimes and offenses against, and violations of, the provisions of this act; and actions for the penalty given by the preceding section may be prosecuted in the territorial, district or circuit courts of the United States wherever the defendant may be found, without regard to the other party; and the district attorneys, marshals, and deputy marshals of the United States, and commissioners appointed by the circuit and territorial courts of the United States, with powers of arresting and imprisoning, or bailing, offenders against the laws of the United States, are hereby specially authorized and required to institute proceedings against every person who shall violate the provisions of this act, and cause him to be arrested and imprisoned, or bailed, as the case may be, for trial before such court of the United States, or territorial court, as by law has cognizance of the offense, except in respect of the right of action accruing to the person aggrieved; and such district attorneys shall cause such proceedings to be prosecuted to their termination as in other cases: *Provided*, That nothing contained in this section shall be construed to deny or defeat any right of civil action accruing to any person, whether by reason of this act or otherwise; and any district attorney who shall willfully fail to institute and prosecute the proceedings herein required, shall, for every such offense, forfeit and pay the sum of five hundred dollars to the person aggrieved thereby, to be recovered by an action of debt, with full costs, and shall, on conviction thereof, be deemed guilty of a misdemeanor, and be fined not less than one thousand nor more than five thousand dollars: *And provided further*, That a judgment for the penalty in favor of the party aggrieved against any such district attorney, or a judgment upon an indictment against any such district attorney, shall be a bar to either prosecution respectively.

SEC. 4. That no citizen possessing all other qualifications which are, or may be, prescribed by law shall be disqualified for service as grand or petit juror in any court of the United States, or of any State, on account of race, color, or previous condition of servitude; and any officer or other person charged with any duty in the selection or summoning of jurors who shall exclude or fail to summon any citizen for the cause aforesaid shall, on conviction thereof, be deemed guilty of a misdemeanor, and be fined not more than five thousand dollars.

SEC. 5. That all cases arising under the provisions of this act in the courts of the United States shall be reviewable by the Supreme Court

of the United States, without regard to the sum in controversy, under the same provisions and regulations as are now provided by law for the review of other causes in said court.

Approved, March 1, 1875.

#### TAXES ON LIQUORS AND TOBACCO; AND DUTIES ON SUGARS AND VARIOUS IMPORTED COMMODITIES INCREASED.

Chap. 127.—*An act to further protect the sinking fund and provide for the exigencies of the Government.—Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled*, That from and after the passage of this act there shall be levied and collected on all distilled spirits thereafter produced in the United States, a tax of ninety cents on each proof gallon, or wine-gallon when below proof, to be paid by the distiller, owner or person having possession thereof, before removal from the distillery bonded warehouse; and so much of section three thousand two hundred and fifty-one of the Revised Statutes of the United States as is inconsistent herewith is hereby repealed.

SEC. 2. That section three thousand three hundred and sixty-eight of the Revised Statutes be, and the same is hereby, amended by striking out the words "twenty cents a pound" (on tobacco and snuff), and inserting in lieu thereof, the words "twenty-four cents a pound;" and that section three thousand three hundred and ninety-four of the Revised Statutes be, and the same is hereby, amended by striking out the word "five" wherever it occurs therein, and inserting instead thereof the word "six," and by striking out the word "fifty" and inserting instead thereof the words "seventy-five" (these two amendments apply to the tax on cigars): *Provided*, That the increase of tax herein provided for shall not apply to tobacco on which the tax under existing law shall have been paid when this act takes effect. *And provided further*, That whenever it shall be shown to the satisfaction of the Secretary of the Treasury by testimony under oath that any person liable to pay the increased tax by this section imposed had prior to the tenth day of February, eighteen hundred and seventy-five, made a contract for the future delivery of such tobacco, cigars, and cigarettes at a fixed price, which contract was in writing prior to that date, such tobacco may be delivered to the contracting party entitled thereto under special permit from the Commissioner of Internal Revenue provided therefor, without previous payment of such additional tax; but the said additional tax shall be a lien thereon, and shall be paid by and collected from the purchaser under such contract before the sale or removal thereof by him, and when demanded by the collector of internal revenue for the district to which the same shall be removed for delivery to the purchaser; and any sale or removal by such purchaser, prior to the payment of such tax, shall subject him and such tobacco so sold or removed to all the penalties and processes of law provided in the case of manufacturers of tobacco so selling or removing tobacco to avoid the payment of tax.

SEC. 3. That on all molasses, concentrated molasses, tank-bottoms, syrup of sugar cane juice, melada, and on sugars according to the Dutch standard in color, imported from foreign

countries, there shall be levied, collected and paid, in addition to the duties now imposed in schedule G, section two thousand five hundred and four of the Revised Statutes, an amount equal to twenty-five per centum of said duties as levied upon the several articles and grades therein designated; *Provided*, That concentrated melada, or concrete, shall hereafter be classed as sugar dutiable according to color by the Dutch standard: and melada shall be known and defined as an article made in the process of sugar-making, being the cane-juice boiled down to the sugar point, and containing all the sugar and molasses resulting from the boiling process and without any process of purging or clarification, and any and all products of the sugar-cane imported in bags, mats, baskets or other than tight packages shall be considered sugar and dutiable as such. *And provided further*, That of the drawback on refined sugars exported allowed by section three thousand and nineteen of the Revised Statutes of the United States, only one per centum of the amount so allowed shall be retained by the United States.

Sec. 4. That so much of section two thousand five hundred and three of the Revised Statutes as provides that only ninety per centum of the several duties and rates of duty imposed on certain articles therein enumerated by section two thousand five hundred and four shall be levied, collected, and paid be, and the same is hereby, repealed; and the several duties and rates of duty prescribed in said section two thousand five hundred and four shall be and remain as by that section levied, without abatement of ten per centum as provided in section two thousand five hundred and three.

Sec. 5 That the increase of duties provided by this act shall not apply to any goods, wares, or merchandise actually on shipboard and bound to the United States, on or before the tenth day of February, eighteen hundred and seventy-five, nor on any such goods, wares, or merchandise on deposit in warehouses or public stores at the date of the passage of this act.

Sec. 6. That nothing contained in the act entitled "An act to amend existing customs and internal revenue laws, and for other purposes," approved February eighth, eighteen hundred and seventy-five, shall be construed to impose any duty on bolting-cloths theretofore admitted free of duty; nor to require the use of a stamp upon the receipt in the receipt-book of a savings bank or institution for savings having no capital stock, and doing no other business than receiving deposits to be loaned or invested for the sole benefit of the parties making such deposits without profit or compensation to the association or company, when money is paid to a depositor on his pass-book.

Approved, March 3, 1875.

**Chap. 139.**—Enables the people of Colorado to form a Constitution and State Government, and provides for the admission of the State of Colorado into the Union as soon as its Constitution is formed and adopted by vote of the people.

## Currency Contraction.

The laws in force affecting the paper currency of the country have produced a contraction of the circulating medium during the 17 months ended Nov. 30, beyond the expectation of the general public, as may be demonstrated by the light cast upon the subject by the recent report of Controller Knox on the National banks, viz.:

I. The legal-tender money, issued directly by the Government, was,

On 1st of July, 1874..... \$382,000,000

On 1st of December, 1875..... 372,471,772

Decrease..... \$9,528,228

The above decrease is to compensate for the issue since Jan. 14, 1875, of \$11,010,360 additional circulation to the National banks.

II. The fractional currency outstanding was,

On 1st of July, 1874..... \$15,281,290

On 1st of December, 1875..... 42,356,105

Decrease..... \$1,425,101

III. The National bank circulation outstanding was,

On June 30, 1874..... \$349,894,182

On November 1, 1875..... 345,526,902

Decrease..... \$4,367,280

IV. Under the Act of June 30, 1874, for retiring bank circulation, the greenbacks remaining on deposit with the U. S. Treasurer, for the redemption and retirement of bank notes was,

On November 1, 1875..... \$20,238,642

On June 30, 1874..... 3,813,675

Increase..... \$16,424,967

V. The currency balance of the Treasury was,

On June 30, 1874..... \$14,576,011

On November 30, 1875..... 12,014,662

Decrease..... \$2,561,349

Finally, summing the above changes, we have the following as the net result:

Decrease of legal tenders..... \$9,528,228

Decrease of postal currency..... 3,525,191

Decrease of bank notes..... 4,367,280

Increase of legal tenders on deposit for redemption of bank notes..... 16,424,967

Total contraction..... \$33,865,666

Treasury balance reduced..... 2,561,349

Net contraction..... \$31,224,617

As regards the banks, the contraction is \$16,233,192 greater than the above total, that being the amount of permanent deposit with the U. S. Treasurer for the redemption and return of their notes.

Three judges of the Supreme Court were elected, but the Democrats nominated but one candidate. George B. Lake, Daniel Gantt and Samuel Maxwell, the successful Republican candidates, were re-elected, having been first chosen by the people in 1872.

Silas Garber a maj. for Governor in 1874, 7,117 over all. Lorenzo Crounse a maj. for Congressman in 1874, 8,011; Grant's maj. in 1872, 10,517. Total vote for Governor in 1874, 36,019; for Congressman in 1874, 35,833; for President in 1872, 26,141.

In 1875, the counties of Frontier and Red Willow did not send in their returns in season to be included in the official canvass. We have included their vote in the above table.

In 1875, a new Constitution was adopted by a vote of 30,302 in favor of to 5,474 against.

**" HOLD**

firmly to the great principle, that in sickness Nature should be *assisted not prostrated*. It is because TARRANT'S EFFERVESCENT SELTZER APERIENT refreshes and invigorates the system, while it removes, without pain, all obstructive matter from the bowels, that it has become a standard alternative, and is

**FAST**

superseding all the stereotyped purgatives which have heretofore racked, and scourged, and weakened the human frame. The tonic, cathartic, and anti-bilious ingredients so happily blended in the waters of the celebrated Seltzer Spring, as well as the ebullience peculiar to that natural corrective and febrifuge, impart

**TO**

this *chemical counterpart* of the German Spa a purifying, renovating, and regulating influence, which does not exist in any other medicinal preparation in use. It quiets the disturbed stomach, promotes perspiration, quickens the action of the kidneys, and superinduces

**THAT**

delightful tranquillity of the nervous system which is hailed by every invalid as a certain indication of convalescence. The saline elements of the SELTZER APERIENT, being taken up by the absorbents, have also a salubrious effect upon the secretions and the blood. This is the preparation

**WHICH IS**

now being prescribed by physicians everywhere as a superior cathartic nervine tonic, and blood depurent. Violent drugs have had their day. The faculty and the sick alike discard them, and having proved the excellence of the APERIENT, are determined to "*hold fast to that which is*

**GOOD."**

The preparation will keep for a length of time, and all that is necessary to convert the powder into a sparkling, foaming, thirst-quenching, and delicious draught, is the addition of a little cold water. Thus may every invalid have a duplicate of the Seltzer Spa at his elbow, although the natural fountain bubbles from the earth in Prussia, four thousand miles away.

# NEW YORK TRIBUNE.

**"THE LEADING AMERICAN NEWSPAPER."**

The year 1876 promises to be crowded with more important and interesting occurrences than any since the close of the war. We shall celebrate the one hundredth anniversary of our national birth with the most remarkable display of our arts and industries, and the greatest concourse of visitors ever seen on the continent. We shall elect a new President under circumstances which threaten to make the political campaign peculiarly exciting. The House of Representatives for the first time since the close of Mr. Buchanan's term is under the control of the Democratic party, and it proposes to lay bare the secrets of the Administration now drawing to a close. Its course during the next six months will define the policy by which the Democratic party hopes to rule the country; while the action of the Republicans is likely to determine whether the organization which saved the Union and freed the slave is to fall to pieces or enter upon a new career of usefulness. In the practical work of government there are great abuses to be swept away, and many promises to be put to the test. In the settlement of the national finances the year may mark the crisis of our affairs. In trade, commerce and productive industry there are hopes that it will witness the long deferred revival. In religion it promises a great revival, and there are many signs that the relations of the Church to the State, and particularly to the State schools, will provoke sharp discussion, and enter largely into politics.

In such a stirring and crowded period, THE TRIBUNE confidently appeals to its past record and its present performance, as constituting its claim for the continued regard of all old readers, and the accession of many new ones. No intelligent citizen can afford during such a year as 1876 to dispense with an independent newspaper, upon which he can rely for an impartial record of events, undistorted by partisan necessities or personal hates or ambitions.

THE TRIBUNE will maintain with the old fervor the old Republican principles of which it was the champion all through the American conflict, and it will rejoice whenever those principles are victorious under the old banners. But it can never be the servant of caucuses or conventions: it must approve what it finds good in the acts and professions of either party, and apologize for the wrongdoings of neither. In giving the news it endeavors to set forth the truth, the whole truth, and nothing but the truth; in politics its great object is to elect honest men, whom the country knows and can trust; to secure hard money, Administrative reform, such economy in public affairs as the hard times compel from private citizens, and, as a consequence, lower taxes. Thus it found itself last Fall, rallying the forces for the splendid hard-money triumphs won by the Republicans and their allies in Ohio and Pennsylvania, and as earnestly striving to hold up the hands of an Administration in New York, which was busy fighting the Canal Ring, stopping leaks in the treasury, and lowering taxes. In each case it found the people sustaining its positions, and it hopes to be so clearly right in its political course

through all the storms of 1876 as to win equal success, and command yet greater approval.

One result of this policy of struggling for the triumph of honest men and sound principles, without being too much controlled by mere party names, has been that both parties find themselves forced to abandon some of the worst practices of the old caucus system, to put forward their best men, and to practice some of the reforms they preach. It may fairly be claimed that conscientious and independent voters have thus within two or three years gradually forced both parties up to a somewhat higher plane, and we may hope that the Centennial year will witness still greater improvement.

THE TRIBUNE will continue to labor for this end with the methods which have already commended it to popular favor. It will endeavor to combine the utmost candor with judicial fairness; will keep its columns free from personal wrangling; will waste no time in replying to the incessant attacks its success provokes from envious rivals, and as heretofore will reserve all its space for its readers' interests.

From those who believe such a journal a desirable visitor in their families, THE TRIBUNE solicits a continuance of the favor it has so conspicuously enjoyed in the past. During the years 1874 and 1875 the position assigned it long ago by foreign critics, "as the leading American newspaper" has come to be generally recognized, and its circulation has been greater than at any previous period in its history. It has won this position by the closest watchfulness and the most lavish expenditure to procure the freshest intelligence, the most complete reports, the most interesting letters and essays, and the ablest work in every department. Its staff includes the most accomplished men in the profession, and among its outside contributors it numbers many of the most eminent men in the country.

# MOVABLE AND SOLID TEETH CIRCULAR SAWS.

95

*The above cut shows a section, in reduced size, of R. Hoe & Co.'s new Chisel-Tooth Saw. Patented May 12, 1874.*

The teeth or bits are made of the best edge-tool steel, and are furnished spread and ground ready for use, no swedging or filing being required; they are all exactly alike, cut smooth, and the corners will not break off even in the hardest knots. One tooth costing but three cents will cut, depending upon the quality of the timber, from fifteen hundred to three thousand feet before it is worn out, and a saw with thirty teeth will cut from forty to one hundred thousand feet to each set.

The shank holding the teeth is made of the very best spring steel, thoroughly tempered, and from the manner in which the teeth are inserted in shank and the shank in the saw, there is no possibility of either becoming displaced.

One set of teeth may be removed and replaced by another, in less than five minutes.

This style saw is the strongest ever made, and if run upon iron may be repaired at one-tenth the cost of any other; and to work it requires *twenty-five per cent.* less power than the average saw.

We guarantee each saw to give entire satisfaction, and are receiving the most flattering reports from those we are sending out daily.

# New York Ledger

FOR THE NEW YEAR, 1876.

POSTAGE FREE.

*THE BEST PAPER THAT EXPERIENCE AND CAPITAL CAN MAKE.*

We are profoundly grateful for the generous and increasing support of the American public which we are made to feel at the close of every year when the renewed and new subscriptions to the *Ledger* flow in, like the influx of a mighty tide. This liberal support we make unremitting efforts to deserve. We select the best writers in the world without regard to cost, for, once convinced that one author will be more acceptable to our readers than another, the price is never permitted to be an obstacle in our way.

We have now had many years' experience, and we shall leave no exertion unmade to render the *Ledger* for the year 1876 superior to any preceding volume.

Our most popular old writers, whose excellence is established, will write, as heretofore, most of them exclusively, for the *Ledger*.

We are always on the alert for any new feature that we think will render the *Ledger* more attractive.

The *Ledger* is always a *live* paper, keeping pace with the genius and spirit of American progress.

It contains the purest, sweetest, and most delightful stories, striking narratives, and instructive biographical and historical sketches.

It has the most popular and carefully prepared collection of scientific facts.

We shall continue to reply to questions on all interesting subjects as heretofore. Not only are these questions genuine, coming directly from the people, but we receive thousands more than we have space to answer.

We receive constant assurances, in almost countless letters, of the happiness which the *Ledger* carries into the families where it goes. All who wish to secure to themselves that enjoyment will send in their subscriptions without delay.

*Our subscribers will have no postage to pay.* We prepay the postage on every paper that we mail. Notwithstanding this, there will be no increase in the price of the *Ledger*. As will be seen by the following, our rates remain unchanged:

## OUR TERMS FOR 1876.—POSTAGE FREE.

Single copies, \$3 per annum; four copies, \$10, which is \$2.50 a copy; eight copies, \$20, *postage free*. The party who sends us \$20 for a club of eight copies, (all sent at one time,) will be entitled to a copy *free*. Postmasters and others who get up clubs, in their respective towns, can afterward add single copies at \$2.50. No subscriptions taken for a less period than one year. When a draft or money-order can conveniently be sent, it will be preferred, as it will prevent the possibility of the loss of money by mail. Remember that the postage on the *Ledger* to all parts of the country will be paid by us, so that our subscribers will have no postage to pay.

 We employ no traveling agents. Address all communications to

*The Paper for Business Men, Farmers, Families,  
and all the People.*

1. It publishes all the news.
2. It is candid and independent in all things.
3. Its moral tone is unexceptionable, nothing appearing in its pages unsuited for the most refined and cultured family circle.
4. It has the best and freshest correspondence, poems, stories; in short, the cream of the current literature of the day.
5. Its Agricultural Department is the fullest, most thorough, practical, and useful in any paper, giving its readers in each number as much or more than the highest priced monthlies.
6. Its Market Reports are the generally accepted standard for dealers and producers throughout the country.
7. Its aggregate circulation is larger than that of any other four cent morning paper in New York.
8. Its circulation, regarding character as well as number of subscribers, is better than that of any paper in the country.
9. It is growing more vigorously, and increasing in circulation more rapidly than any of its rivals.

## MORNING AND EVENING STARS.

**DEFINITION.**—The planet Venus is called a Morning Star when she rises before the Sun, and an Evening Star when she sets after the Sun. The planets Mars, Jupiter, and Saturn may be considered Morning and Evening Stars when they rise shortly before the Sun, or set shortly after the Sun, in the same manner as Venus does. But they may also be considered Evening Stars when they rise before twelve o'clock at night, and as morning Stars when they are visible before sunrise, until the day when they set on or before sunrise.

The following tables have been prepared according to the preceding definition:

### Morning Stars.

Venus, until May 6. Mars, until June 6.  
 Venus is also visible before sunrise until about September 5; after which date he sets before sunrise earlier every day.  
 Jupiter, until April 13.  
 Jupiter is also visible before sunrise until about June 22; after which date he sets before sunrise earlier every day.  
 Saturn, from March 1 to June 16.  
 Saturn is also visible before sunrise until about the middle of September, when he sets before sunrise earlier every day.

### Evening Stars.

Venus, after May 6.  
 Mars, after June 6, rising after that date before midnight.  
 Jupiter, after April 13, rising before midnight.  
 Saturn, until March 1, and also after June 16, at which date he begins to rise before midnight.  
 The position in the heavens of the four bright planets, Venus, Mars, Jupiter, and Saturn, are best determined by an observer without instruments by means of their times of rising, passing the meridian, and setting.

## Explanation of the above Table.

In the table above it is to be understood that the word "near" and the character ♄ (conjunction) are synonymous, and mean that the two bodies are nearest each other at the time expressed, and that they are then on a line running from the North Pole through both bodies, and have the same right ascension. GR. ELON. means greatest elongation, or greatest apparent angular distance from the Sun. STATIONARY means that the planet is then without apparent motion east or west with respect to the Stars, and is about to move in a direction contrary

to that it last had. The character ♄ indicates that the planet is opposite the Sun, or 180 deg., or a half circle, east of it, and rises when the Sun sets, and sets when he rises. When a planet is a quarter of a circle, or 90 deg. from the Sun, east or west, it is known by ♀.

PLANETARY CHARACTERS. — ♄ Mercury, ♀ Venus, ♄ Mars, ♃ Jupiter, ♄ Saturn, ♃ Uranus, ♃ Neptune, ☾ Moon.

The above table enables us to find the planets throughout the year.

# CONSTITUTION OF THE UNITED STATES.

We, the People of the United States, in order to form a more perfect union, establish justice, insure domestic tranquillity, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution for the United States of America.

## ARTICLE I.

### SECTION 1.

All legislative powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

### SECTION 2.

The House of Representatives shall be composed of members chosen every second year by the people of the several States; and the electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State Legislature.

No person shall be a representative who shall not have attained to the age of twenty-five years, and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State in which he shall be chosen.

Representatives and direct taxes shall be apportioned among the several States which may be included within this Union, according to their respective numbers, which shall be determined by adding to the whole number of free persons, including those bound to service for a term of years, and excluding Indians not taxed, three-fifths of all other persons. The actual enumeration shall be made within three years after the first meeting of the Congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of representatives shall not exceed one for every thirty thousand, but each State shall have at least one representative; and until such enumeration shall be made, the State of New Hampshire shall be entitled to choose three; Massachusetts eight; Rhode Island and Providence Plantations one; Connecticut five; New York six; New Jersey four; Pennsylvania eight; Delaware one; Maryland six; Virginia ten; North Carolina five; South Carolina five; and Georgia three.

When vacancies happen in the representation from any State, the executive authority thereof shall issue writs of election to fill such vacancies.

The House of Representatives shall choose their speaker and other officers, and shall have the sole power of impeachment.

### SECTION 3.

The Senate of the United States shall be composed of two senators from each State, chosen by the legislature thereof, for six years; and each senator shall have one vote.

\* Immediately after they shall be assembled in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and of the third class at the expiration of sixth year, so that one-third may be chosen every

second year; and if vacancies happen by resignation or otherwise, during the recess of the legislature of any State, the executive thereof may make temporary appointments until the next meeting of the legislature, which shall then fill such vacancies.

No person shall be a senator who shall not have attained the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State for which he shall be chosen.

The Vice-President of the United States shall be president of the Senate, but shall have no vote unless they be equally divided.

The Senate shall choose their other officers, and also a president *pro tempore* in the absence of the Vice-President, or when he shall exercise the office of President of the United States.

The Senate shall have the sole power to try all impeachments. When sitting for that purpose, they shall be on oath or affirmation. When the President of the United States is tried, the Chief Justice shall preside; and no person shall be convicted without the concurrence of two-thirds of the members present.

Judgment in cases of impeachment shall not extend further than to removal from office, and disqualification to hold and enjoy any office of honor, trust or profit under the United States; but the party convicted shall, nevertheless, be liable and subject to indictment, trial, judgment, and punishment, according to law.

### SECTION 4.

The times, places and manner of holding elections for senators and representatives shall be prescribed in each State by the legislature thereof; but the Congress may at any time by law make or alter such regulations, except as to the place of choosing senators.

The Congress shall assemble at least once in every year; and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day.

### SECTION 5.

Each house shall be the judge of the elections, returns and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members, in such manner and under such penalties as each house may provide.

Each house may determine the rules of its proceedings, punish its members for disorderly behavior, and, with the concurrence of two-thirds, expel a member.

Each house shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may in their judgment require secrecy; and the yeas and nays of the members of either house on the question shall, at the desire of one-fifth of those present, be entered on the journal.

Neither house, during the session of Congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two houses shall be sitting.

## SECTION 6.

The senators and representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the treasury of the United States. They shall, in all cases except treason, felony, and breach of the peace, be privileged from arrest during their attendance at the session of their respective houses, and in going to and returning from the same; and for any speech or debate in either house they shall not be questioned in any other place.

No senator or representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States, which shall have been created, or the emoluments whereof shall have been increased during such time; and no person holding any office under the United States shall be a member of either house during his continuance in office.

## SECTION 7.

All bills for raising revenue shall originate in the House of Representatives; but the Senate may propose or concur with amendments as on other bills.

Every bill which shall have passed the House of Representatives and the Senate shall, before it becomes a law, be presented to the President of the United States; if he approve, he shall sign it; but if not, he shall return it with his objections, to that house in which it shall have originated; who shall enter the objections at large on their journal, and proceed to reconsider it. If, after such reconsideration, two-thirds of that house shall agree to pass the bill, it shall be sent, together with the objections, to the other house by which it shall likewise be reconsidered; and if approved by two-thirds of that house, it shall become a law. But in all cases, the votes of both houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each house respectively. If any bill shall not be returned by the President within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the Congress, by their adjournment, prevent its return, in which case it shall not be a law.

Every order, resolution, or vote to which the concurrence of the Senate and House of Representatives may be necessary (except on a question of adjournment), shall be presented to the President of the United States; and before the same shall take effect, shall be approved by him; or being disapproved by him, shall be repassed by two-thirds of the Senate and House of Representatives, according to the rules and limitations prescribed in the case of a bill.

## SECTION 8.

The Congress shall have power:

To lay and collect taxes, duties, imposts, and excises; to pay the debts, and provide for the common defense and general welfare of the United States; but all duties, imposts, and excises shall be uniform throughout the United States.

To borrow money on the credit of the United States.

To regulate commerce with foreign nations, and among the several States, and with the Indian tribes.

To establish a uniform rule of naturalization, and uniform laws on the subject of bankruptcies throughout the United States.

To coin money, regulate the value thereof, and of foreign coin, and fix the standard of weights and measures.

To provide for the punishment of counterfeiting the securities and current coin of the United States.

To establish post-offices and post-roads.

To promote the progress of science and useful arts, by securing for limited times, to authors and inventors, the exclusive right to their respective writings and discoveries.

To constitute tribunals inferior to the Supreme Court; to define and punish piracies and felonies committed on the high seas, and offenses against the law of nations.

To declare war, grant letters of marque and reprisal, and make rules concerning captures on land and water.

To raise and support armies; but no appropriation of money to that use shall be for a longer term than two years.

To provide and maintain a navy.

To make rules for the government and regulation of the land and naval forces.

To provide for calling forth the militia to execute the laws of the Union, suppress insurrections, and repel invasions.

To provide for organizing, arming and disciplining the militia, and for governing such part of them as may be employed in the service of the United States; reserving to the States respectively the appointment of the officers and the authority of training the militia according to the discipline prescribed by Congress.

To exercise exclusive legislation in all cases whatsoever, over such district (not exceeding ten miles square) as may, by cession of particular States, and the acceptance of Congress, become the seat of the government of the United States; and to exercise like authority over all places purchased by the consent of the legislature of the State in which the same shall be, for the erection of forts, magazines, arsenals, dockyards, and other needful buildings; and

To make all laws which shall be necessary and proper for carrying into execution the foregoing powers, and all other powers vested by this constitution in the government of the United States, or in any department or officer thereof.

## SECTION 9.

The migration or importation of such persons as any of the States now existing shall think proper to admit, shall not be prohibited by the Congress prior to the year one thousand eight hundred and eight; but a tax or duty may be imposed on such importation not exceeding ten dollars for each person.

The privilege of the writ of *habeas corpus* shall not be suspended, unless when, in cases of rebellion or invasion, the public safety may require it.

No bill of attainder or *ex post facto* law shall be passed.

No capitation or other direct tax shall be laid, unless in proportion to the census or enumeration hereinbefore directed to be taken.

No tax or duty shall be laid on articles exported from any State.

No preference shall be given by any regulation of commerce or revenue to the ports of one State over those of another; nor shall vessels bound to or from one State be obliged to enter, clear or pay duties in another.

No money shall be drawn from the treasury but in consequence of appropriations made by law; and a regular statement and account of the receipts and expenditures of all public money shall be published from time to time.

No title of nobility shall be granted by the United States; and no person holding any office of profit or trust under them shall, without the consent of the Congress, accept of any present, emolument, office, or title of any kind whatever, from any king, prince, or foreign state.

#### SECTION 10.

No State shall enter into any treaty, alliance, or confederation; grant letters of marque and reprisal; coin money; emit bills of credit; make anything but gold and silver coin a tender in payment of debts; pass any bill of attainder, *ex post facto* law, or law impairing the obligation of contracts; or grant any title of nobility.

No State shall, without the consent of the Congress, lay any imposts or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws; and the net produce of all duties and imposts laid by any State on imports and exports, shall be for the use of the treasury of the United States; and all such laws shall be subject to the revision and control of the Congress. No State shall, without the consent of Congress, lay any duty of tonnage, keep troops or ships of war in time of peace, enter into any agreement or compact with another State, or with a foreign power, or engage in war, unless actually invaded, or in such imminent danger as will not admit of delay.

### ARTICLE II.

#### SECTION 1.

The executive power shall be vested in a President of the United States of America. He shall hold his office during the term of four years; and together with the Vice-President chosen for the same term, be elected as follows:

Each State shall appoint, in such manner as the legislature thereof may direct, a number of electors equal to the whole number of senators and representatives to which the State may be entitled in the Congress; but no senator or representative, or person holding an office of trust or profit under the United States shall be appointed an elector.

The electors shall meet in their respective States and vote by ballot for two persons, of whom one at least shall not be an inhabitant of the same State with themselves. And they shall make a list of all the persons voted for, and of the number of votes for each; which list they shall sign and certify, and transmit sealed to the seat of the Government of the United States, directed to the president of the Senate. The president of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes shall be the President, if such number be a majority of the whole number of the electors appointed; and if there be more than one who have such majority, and have an equal number of votes, then

the House of Representatives shall immediately choose, by ballot, one of them for President; and if no person have a majority, then, from the five highest on the list, the said house shall, in like manner, choose the President. But in choosing the President, the vote shall be taken by States, the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. In every case, after the choice of a President, the person having the greatest number of votes of the electors shall be the Vice-President. But if there should remain two or more who have equal votes, the Senate shall choose from them, by ballot, the Vice-President.\*

The Congress may determine the time of choosing the electors, and the day on which they shall give their votes, which day shall be the same throughout the United States.

No person, except a natural born citizen, or a citizen of the United States at the time of the adoption of this constitution, shall be eligible to the office of President; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years, and been fourteen years a resident within the United States.

In case of the removal of the President from office, or of his death, resignation, or inability to discharge the powers and duties of the said office, the same shall devolve on the Vice-President; and the Congress may, by law, provide for the case of removal, death, resignation, or inability, both of the President and Vice-President, declaring what officer shall then act as President; and such officer shall act accordingly, until the disability be removed, or a President shall be elected.

The President shall, at stated times, receive for his services a compensation, which shall neither be increased or diminished during the period for which he shall have been elected; and he shall not receive within that period any other emolument from the United States, or any of them.

Before he enter on the execution of his office, he shall take the following oath or affirmation:

"I do solemnly swear (or affirm) that I will faithfully execute the office of President of the United States; and will, to the best of my ability, preserve, protect, and defend the Constitution of the United States."

#### SECTION 2.

The President shall be commander-in-chief of the army and navy of the United States, and of the militia of the several States, when called into the actual service of the United States; he may require the opinion, in writing, of the principal officer in each of the executive departments upon any subject relating to the duties of their respective offices; and he shall have power to grant reprieves and pardons for offenses against the United States, except in cases of impeachment.

He shall have power, by and with the advice and consent of the Senate, to make treaties, provided two-thirds of the senators present concur; and he shall nominate, and, by and with the ad-

\* Modified by Amendment XII.

vice and consent of the Senate, shall appoint ambassadors, other public ministers and consuls, judges of the Supreme Court, and all other officers of the United States whose appointments are not herein otherwise provided for, and which shall be established by law. But the Congress may, by law, vest the appointment of such inferior officers as they think proper, in the President alone, in the courts of law, or in the heads of departments.

The President shall have power to fill up all vacancies that may happen during the recess of the Senate, by granting commissions which shall expire at the end of their next session.

#### SECTION 3.

He shall, from time to time, give to the Congress information of the state of the Union, and recommend to their consideration such measures as he shall judge necessary and expedient. He may, on extraordinary occasions, convene both houses, or either of them; and in case of disagreement between them with respect to the time of adjournment, he may adjourn them to such time as he shall think proper. He shall receive ambassadors and other public ministers. He shall take care that the laws be faithfully executed; and shall commission all the officers of the United States.

#### SECTION 4.

The President, Vice-President, and all civil officers of the United States, shall be removed from office on impeachment for, and conviction of treason, bribery, or other high crimes and misdemeanors.

### ARTICLE III.

#### SECTION 1.

The judicial power of the United States shall be vested in one Supreme Court, and in such inferior courts as the Congress may, from time to time, ordain and establish. The judges, both of the supreme and inferior courts, shall hold their offices during good behavior; and shall, at stated times, receive for their services a compensation which shall not be diminished during their continuance in office.

#### SECTION 2.

The judicial power shall extend to all cases in law and equity arising under this Constitution, the laws of the United States, and treaties made, or which shall be made, under their authority; to all cases affecting ambassadors, other public ministers, and consuls; to all cases of admiralty and maritime jurisdiction; to controversies to which the United States shall be a party; to controversies between two or more States; between a State and citizens of another State, between citizens of different States, between citizens of the same State claiming lands under grants of different States, and between a State, or the citizens thereof, and foreign States, citizens, or subjects.

In all cases affecting ambassadors, other public ministers and consuls, and those in which a State shall be a party, the Supreme Court shall have original jurisdiction. In all the other cases before mentioned, the Supreme Court shall have appellate jurisdiction, both as to law and fact, with such exceptions and under such regulations as the Congress shall make.

The trial of all crimes, except in cases of impeachment, shall be by jury, and such trial shall

be held in the State where the said crimes shall have been committed; but when not committed within any State, the trial shall be at such place or places as the Congress may by law have directed.

#### SECTION 3.

Treason against the United States shall consist only in levying war against them or in adhering to their enemies, giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court.

The Congress shall have power to declare the punishment of treason; but no attainder of treason shall work corruption of blood, or forfeiture, except during the life of the person attainted.

### ARTICLE IV.

#### SECTION 1.

Full faith and credit shall be given in each State to the public acts, records, and judicial proceedings of every other State; and the Congress may, by general laws, prescribe the manner in which such acts, records, and proceedings shall be proved, and the effect thereof.

#### SECTION 2.

The citizens of each State shall be entitled to all privileges and immunities of citizens in the several States.

A person charged in any State with treason, felony, or other crime, who shall flee from justice, and be found in another State, shall, on demand of the executive authority of the State from which he fled, be delivered up, to be removed to the State having jurisdiction of the crime.

No person held to service or labor in one State under the laws thereof, escaping into another, shall in consequence of any law or regulation therein, be discharged from such service or labor; but shall be delivered up on claim of the party to whom such service or labor may be due.

#### SECTION 3.

New States may be admitted by the Congress into this Union; but no new State shall be formed or erected within the jurisdiction of any other State, nor any State be formed by the junction of two or more States, or part of States, without the consent of the legislatures of the States concerned, as well as of the Congress.

The Congress shall have power to dispose of, and make all needful rules and regulations respecting the territory or other property belonging to the United States; and nothing in this Constitution shall be so construed as to prejudice any claims of the United States, or of any particular State.

#### SECTION 4.

The United States shall guarantee to every State in this Union a republican form of government, and shall protect each of them against invasion; and, on application of the legislature or of the executive (when the legislature cannot be convened), against domestic violence.

### ARTICLE V.

The Congress, whenever two-thirds of both houses shall deem it necessary, shall propose amendments to this Constitution; or, on the application of the legislatures of two-thirds of the several States, shall call a convention for proposing amendments, which, in either case, shall be valid to all intents and purposes as part of this Constitution, when ratified by the legislatures

of three-fourths of the several States, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the Congress; provided that no amendment which may be made prior to the year one thousand eight hundred and eight shall in any manner affect the first and fourth clauses in the ninth section of the first article; and that no State, without its consent, shall be deprived of its equal suffrage in the Senate.

#### ARTICLE VI.

All debts contracted and engagements entered into before the adoption of this Constitution shall be as valid against the United States under this Constitution, as under the confederation.

This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land; and the judges in every State shall be bound thereby, anything in the constitution or laws of any State to the contrary notwithstanding.

The senators and representatives before mentioned, and the members of the several State legislatures, and all executive and judicial officers, both of the United States and of the several States, shall be bound by oath or affirmation to support this Constitution; but no religious test shall ever be required as a qualification to any office or public trust under the United States.

#### ARTICLE VII.

The ratification of the conventions of nine States shall be sufficient for the establishment of this Constitution between the States so ratifying the same.

### AMENDMENTS.

#### ARTICLE I.

Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances.

#### ARTICLE II.

A well regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed.

#### ARTICLE III.

No soldier shall, in time of peace, be quartered in any house without the consent of the owner; nor in time of war, but in a manner to be prescribed by law.

#### ARTICLE IV.

The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated; and no warrants shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

#### ARTICLE V.

No person shall be held to answer for a capital or otherwise infamous crime, unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service in time of war or public danger; nor shall any person be

subject for the same offense to be twice put in jeopardy of life or limb; nor shall he be compelled, in any criminal case, to be a witness against himself; nor be deprived of life, liberty, or property without due process of law; nor shall private property be taken for public use, without just compensation.

#### ARTICLE VI.

In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed, which district shall have been previously ascertained by law; and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel for his defense.

#### ARTICLE VII.

In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved; and no fact tried by a jury shall be otherwise reexamined in any court of the United States, than according to the rules of the common law.

#### ARTICLE VIII.

Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

#### ARTICLE IX.

The enumeration in the Constitution of certain rights, shall not be construed to deny or disparage others retained by the people.

#### ARTICLE X.

The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

#### ARTICLE XI.

The judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States by citizens of another State, or by citizens or subjects of any foreign State.

#### ARTICLE XII.

The electors shall meet in their respective States, and vote by ballot for President and Vice-President, one of whom, at least, shall not be an inhabitant of the same State with themselves. They shall name in their ballots the person voted for as President, and, in distinct ballots, the person voted for as Vice-President; and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each; which lists they shall sign and certify, and transmit sealed to the seat of government of the United States, directed to the president of the Senate. The president of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes for President shall be the President, if such a number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But, in choosing the Pres-

ident, the votes shall be taken by States, the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. And if the House of Representatives shall not choose a President whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in the case of the death or other constitutional disability of the President.

The person having the greatest number of votes as Vice-President shall be the Vice-President, if such number be a majority of the whole number of electors appointed, and if no person have a majority, then from the two highest numbers on the list, the Senate shall choose the Vice-President. A quorum for the purpose shall consist of two-thirds of the whole number of senators, and a majority of the whole number shall be necessary to a choice.

But no person constitutionally ineligible to the office of President, shall be eligible to that of Vice-President of the United States.

#### ARTICLE XIII.

Neither slavery nor involuntary servitude, except as a punishment for crime, whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction.

Congress shall have power to enforce this article by appropriate legislation.

#### ARTICLE XIV.

All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States, nor shall any State deprive any person of life, liberty or property, without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.

Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for President and Vice-President of the United States, representatives in Congress, the executive and judicial officers of a State, or the members of the legislature thereof, is denied to any of the male inhabitants of such

State, being twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in rebellion or other crime, the basis of the representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such State.

No person shall be a senator or representative in Congress, or elector of President and Vice-President, or hold any office, civil or military, under the United States, or under any State, who having previously taken an oath as a member of Congress, or as an officer of the United States, or as a member of any State legislature, or as an executive or judicial officer of any State, to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid or comfort to the enemies thereof; but Congress may, by a vote of two-thirds of each house, remove such disability.

The validity of the public debt of the United States, authorized by law, including debts incurred for payment of pensions and bounties for services in suppressing insurrection or rebellion, shall not be questioned. But neither the United States, nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave; but all such debts, obligations, and claims shall be held illegal and void.

The Congress shall have power to enforce, by appropriate legislation, the provisions of this article.

#### ARTICLE XV.

The right of citizens of the United States to vote shall not be denied or abridged by the United States, or by any State, on account of race, color, or previous condition of servitude.

The Congress shall have power to enforce this article by appropriate legislation.

Of the AMENDMENTS, the first ten were proposed by the First Congress, in 1789. The eleventh, by the Third Cong. March 4, 1794. The twelfth, by the Eighth Congress, 1803-'5. The thirteenth, by the Thirty-eighth Congress, February 3, 1865, and declared ratified December 18, 1865. The fourteenth, by the Thirty-ninth Congress, June 13, 1866, and declared ratified July 28, 1866. The fifteenth, by the Fortieth Congress, February 26, 1869, and declared ratified March 30, 1870.

### CONSTITUTIONAL AMENDMENTS, NATIONAL AND STATE. On Presidential Term.

During the last session of the FORTY-THIRD Congress, the following proposed new Article of Amendment (Art. 16), reported from the Committee on the Judiciary, in the House:

"From and after the next election for a President of the United States, the President shall hold his office during the term of six years, and, together with the Vice-President chosen for the same term, be elected in the manner as now provided or may hereafter be provided; but neither the President nor the Vice-President, when the office of President has devolved upon him, shall be eligible for re-election as President."

was disagreed to—yeas 134, nays 104 (not voting, 50), two-thirds not having voted in the affirmative (Democrats in *Italo*):

### Public School Amendment.

The following was reported from the Judiciary Committee, in the House:

"ARTICLE 16. No State shall make any law respecting an establishment of religion, or prohibiting the free exercise thereof; and no money raised by taxation in any State for the support of public schools, or derived from any public fund therefor, nor any public lands devoted thereto, shall ever be under the control of any religious sect or denomination; nor shall any money so raised, or lands so devoted, be divided between religious sects or denominations. This article shall not vest, enlarge or diminish legislative power in Congress."—And agreed to—yeas 150, nays 7, as follows:

**YEAS**—Messrs. Abbott, C. H. Adams, Ainsworth, Atkins, Bagby, J. H. Bagley, Jr., W. H. Baker, Ballou, Banks, Banning, S. N. Bell, Blair, Bland, Boone, Bright, J. Y. Brown, W. R. Brown, H. C. In SENATE, the Judiciary Committee reported the following substitute:

"No State shall make any law respecting an establishment of religion, or prohibiting the free exercise thereof; and no religious test shall ever be required as a qualification to any office or public trust under any State. No public property and no public revenue of, nor any loan of credit by or under the authority of the United States, or any State, Territory, District, or municipal corporation, shall be appropriated to or made or

used for the support of any school, educational or other institution under the control of any religious or anti-religious sect, organization, or denomination, or wherein the particular creed or tenets of any religious or anti-religious sect, organization, or denomination shall be taught. And no such particular creed or tenets shall be read or taught in any school or institution supported in whole or in part by such revenue or loan of credit; and no such appropriation or loan of credit shall be made to any religious or anti-religious sect, organization or denomination, or to promote its interests or tenets. This article shall not be construed to prohibit the reading of the Bible in any school or institution; and it shall not have the effect to impair rights of property already vested.

"Sec. 2. Congress shall have power, by appropriate legislation, to provide for the prevention and punishment of violations of this article."

Which was adopted—yeas 27, nays 15—as follows:

So the Amendment fell.

### Constitutional Amendments in the States.

In CALIFORNIA and NEW HAMPSHIRE, Conventions have been called.

In CONNECTICUT, six Amendments were ratified in October last. One relates to new towns. The second applies sect. 2, art. 4, and amendments thereto, to all elections after November, 1876. The third fixes the term of Common Pleas judges and district judges at four years; city and police courts, two. The fourth provides for election of judges of probate. The fifth limits compensation of members of the General Assembly to \$300 a year, and one mileage each way for each session. The sixth erases the word "white" from Art. 8 of the Amendments.

In MAINE, several Constitutional Amendments were ratified by the people, in September last. The principal are:

"The Legislature shall, from time to time, provide, as far as practicable, by general laws, for all matters appertaining to special or private legislation."

"Corporations shall be formed under general laws, and shall not be created by special acts of the Legislature, except for municipal purposes and in cases where the object of the corporation cannot otherwise be attained; and, however formed, they shall forever be subject to the general laws of the State."

"All taxes upon real and personal estate assessed by the authority of this State, shall be apportioned and assessed equally, according to the just value thereof."

"The Legislature shall never, in any manner, suspend or surrender the power of taxation."

"The Legislature may enact laws excluding from the right of suffrage, for a term not exceeding ten years, all persons convicted of bribery at any election, or of voting at any election under the influence of a bribe."

In 1875, an Amendment was adopted in MINNESOTA, allowing women of twenty-one years of age and upward, to vote at any election for school officers, or upon any measure relating to schools, and to be eligible to hold any office pertaining solely to the management of schools.

In ALABAMA, ARKANSAS, MISSOURI, NEBRASKA and TEXAS, new Constitutions have recently been adopted.

In KANSAS, two amendments were adopted placing guards upon the drawing of money from the treasury, and modifying the terms of county officers.

In LOUISIANA, Amendments were adopted in November, 1876, limiting the expenses of General Assembly to \$175,000 per session; abrogating parish courts, and enlarging the jurisdiction of the district courts; fixing the Governor's salary at \$6,000 a year; and abolishing fees or perquisites of office in the offices of the Treasurer, Auditor, Attorney General, and District Attorneys.

In NEW YORK, two Amendments were ratified in November last, as follows:

#### THE CANAL AMENDMENT.

"Resolved, That section three of article five of the Constitution be amended so as to read as follows:

"Sec. 3. A Superintendent of Public Works shall be appointed by the Governor, by and with the advice and consent of the Senate, and hold his office until the end of the term of the Governor by whom he was nominated, and until his successor is appointed and qualified. He shall receive a compensation, to be fixed by law. He shall be required by law to give security for the faithful execution of his office before entering upon the duties thereof. He shall be charged with the execution of all laws relating to the repair and navigation of the canals; and also of those relating to the construction and improvement of the canals, except so far as the execution of the laws relating to such construction or improvement shall be confided to the State Engineer and Surveyor; subject to the control of the Legislature, he shall make the rules and regulations for the navigation or use of the canals. He may be suspended or removed from office by the Governor whenever, in his judgment, the public interest shall so require; but, in case of the removal of such Superintendent of Public Works from office, the Governor shall file with the Secretary of State a statement of the cause of such removal, and shall report such removal and the cause thereof to the Legislature at its next ses-

sion. The Superintendent of Public Works shall appoint not more than three assistant superintendents, whose duties shall be prescribed by him, subject to modification by the Legislature, and who shall receive for their services a compensation to be fixed by law. They shall hold their office for three years, subject to suspension or removal by the Superintendent of Public Works, whenever, in his judgment, the public interest shall so require. Any vacancy in the office of any such assistant superintendent shall be filled for the remainder of the term for which he was appointed by the Superintendent of Public Works; but in case of the suspension or removal of any such assistant superintendent by him, he shall at once report to the Governor in writing the cause of such removal. All other persons employed in the care and management of the canals, except collectors of tolls, and those in the department of the State Engineer and Surveyor, shall be appointed by the Superintendent of Public Works, and be subject to suspension or removal by him. The office of Canal Commissioner is abolished from and after the appointment and qualification of the Superintendent of Public Works, until which time the Canal Commissioners shall continue to discharge their duties as now provided by law. The Superintendent of Public Works shall perform all the duties of the Canal Commissioners and Board of Canal Commissioners, as now declared by law, until otherwise provided by the Legislature. The Governor, by and with the advice and consent of the Senate, shall have power to fill vacancies in the office of Superintendent of Public Works; if the Senate be not in session, he may grant commissions which shall expire at the end of the next succeeding session of the Senate."

#### THE STATE PRISON AMENDMENT.

"Resolved, That section four of article five of the Constitution be amended so as to read as follows:

"SEC. 4. A Superintendent of State Prisons shall be appointed by the Governor, by and with the advice and consent of the Senate, and hold his office for five years, unless sooner removed; he shall give security in such amount and with such sureties as shall be required by law for the faithful discharge of his duties; he shall have the superintendence, management, and control of State prisons, subject to such law as now exist or may hereafter be enacted; he shall appoint the agents, wardens, physicians, and chaplains of the prisons. The agent and warden of each prison shall appoint all other officers of such prisons, except the clerk, subject to the approval of the same by the Superintendent. The Controller shall appoint the clerks of the prisons. The Superintendent shall have all the powers and perform all the duties not inconsistent herewith, which have heretofore been had and performed by the Inspectors of State Prisons; and from and after the time when such Superintendent of State Prisons shall have been appointed and qualified, the office of Inspector of State Prisons shall be and hereby is abolished. The Governor may remove the Superintendent for cause at any time, giving to him a copy of the charges against him, and an opportunity to be heard in his defense."

■ In NORTH CAROLINA, Amendments were adopted

in November, to take effect January 1, 1877 providing for biennial sessions and elections, and limiting compensation of members of General Assembly to sixty days; modifying the judicial system; establishing separate public schools for white and colored children, and prohibiting marriage between a white person and a negro, or a white person and a person of negro descent to the third generation inclusive.

In RHODE ISLAND, all the proposed Amendments were rejected in November. One gave foreign-born soldiers and sailors, citizens of U. S., honorably discharged from service during the "late war," the same right to vote in the election of all civil officers, and on all questions in all legally organized town, district or ward meetings, on the same conditions as native-born citizens. Another, abolishing the registry tax, gave every male citizen, 21 years, with two years' residence in the State and six months' in the district, a right to vote for all civil officers and in town meetings, except in election of city council in any city, or on any proposition to impose a tax, or for the expenditure of money in any town or city, unless he has paid a tax on his property valued at least at \$134. Another looked to the adoption of a general corporation law.

In VIRGINIA, all the proposed Amendments were adopted in November. One requires that all persons, before voting, shall have paid a State capitation tax, disfranchises all persons convicted of bribery at any election, embezzlement of public funds, treason, felony, or petit larceny. The registration provision of old Constitution is struck out. Another authorizes the Legislature, by two-thirds vote, to enfranchise persons who have been disfranchised by dueling.

#### THE ELECTORAL VOTE.

The only provisions of the Constitution on the election of a President are contained in sects. 2, 3, 4, and 5 of Article II, and in the Twelfth Amendment, which alters and supplies section 3 of Art. II.

Laws were passed on the subject, 1st March, 1792; 26th March, 1804 (this after the adoption of the Twelfth Amendment), and 23d January, 1845 (this after the experience in Wisconsin, in December, 1844). These provisions are reiterated in U. S. Statutes, Title II, chap. 1, p. 21. Those relating to the Electoral College are:

Each State may by law provide for the filling of any vacancies which may occur in its college of electors, when such college meets to give its electoral vote. Whenever any State has held an election for the purpose of choosing electors, and has failed to make a choice on the day prescribed by law, the electors may be appointed on a subsequent day, in such a manner as the legislature of such State may direct. The electors for each State shall meet and give their votes upon the first Wednesday in December, in the year in which they are appointed, at such place, in each State, as the legislature of such State shall direct.

It shall be the duty of the executive of each State to cause three lists of the names of the electors of such State to be made and certified, and to be delivered to the electors, on or before the day on which they are required,

by the preceding section, to meet. The electors shall vote for President and Vice-President respectively, in the manner directed by the Constitution. The electors shall make and sign three certificates of all the votes given by them, each of which certificates shall contain two distinct lists, one of the votes for President, and the other of the votes for Vice-President; and shall annex to each of the certificates one of the lists of the electors, which shall have been furnished to them by direction of the executive of the State. The electors shall seal up the certificates so made by them, and certify upon each that the lists of all the votes of such State given for President, and of all the votes given for Vice-President, are contained therein.

Other sections prescribe how each of these certificates is to be disposed of, one by messenger and one by mail to the president of the Senate at the seat of Government, the other to the U. S. district judge of that district. This section follows:

Congress shall be in session on the second Wednesday in February succeeding every meeting of the electors, and the certificates, or so many of them as have been received, shall then be opened, the votes counted, and the persons to fill the offices of President and Vice-President ascertained and declared, agreeable to the Constitution.

The other sections of the law relate to details of no interest at present.

In North America, Canada has 4,184 miles, Mexico 377; the United States, 74,658 miles. In the United States, 1,017 miles were opened in 1875. Europe has 48 1-3 per cent. of the railroad mileage of the world, and North America 43 1-3 per cent., of which the United States have 40 2-3 per cent. The railroad mileage of the United States is equal to that of Austria, France, Germany, Great Britain, Italy, and Russia in Europe combined.

About 2,200 miles of railroad are estimated, by Mr. H. V. Poor, to have been opened in the United States, during the year 1876.

## PARTY PLATFORMS IN 1876.

**Republican Platform.**

[Adopted by the Republican National Convention at Cincinnati, June 15.]

When, in the economy of Providence, this land was to be purged of human slavery, and when the strength of government of the people, by the people, and for the people, was to be demonstrated, the Republican party came into power. Its deeds have passed into history, and we look back to them with pride. Incited by their memories to high aims for the good of our country and mankind, and looking to the future with unfaltering courage, hope and purpose, we, the representatives of the party in National Convention assembled, make the following declarations of principles:

1. The United States of America is a Nation, not a league. By the combined workings of the National and State Governments, under their respective constitutions, the rights of every citizen are secured, at home and abroad, and the common welfare promoted.

2. The Republican party has preserved these Governments to the hundredth anniversary of the Nation's birth, and they are now embodiments of the great truths spoken at its cradle—"that all men are created equal; that they are endowed by their Creator with certain inalienable rights, among which are life, liberty, and the pursuit of happiness; that for the attainment of these ends governments have been instituted among men, deriving their just powers from the consent of the governed." Until these truths are cheerfully obeyed, or, if need be, vigorously enforced, the work of the Republican party is unfinished.

3. The permanent pacification of the Southern section of the Union, and the complete protection of all its citizens in the free enjoyment of all their rights, is a duty to which the Republican party stands sacredly pledged. The power to provide for the enforcement of the principles embodied in the recent constitutional amendments, is vested by those amendments in the Congress of the United States, and we declare it to be the solemn obligation of the legislative and executive departments of the Government to put into immediate and vigorous exercise all their constitutional powers for removing any just causes of discontent on the part of any class, and for securing to every American citizen complete liberty and exact equality in the exercise of all civil, political and public rights. To this end we imperatively demand a Congress and a Chief Executive whose courage and fidelity to these duties shall not falter until these results are placed beyond dispute or recall.

4. In the first act of Congress signed by President Grant, the National Government assumed to remove any doubts of its purpose to discharge all just obligations to the public creditors, and "solemnly pledged its faith to make provision at the earliest practicable period for the redemption of the United States notes in coin." Commercial prosperity, public morals and national credit demand that this promise be fulfilled by a continuous and steady progress to specie payment.

5. Under the Constitution, the President and heads of departments are to make nominations

for office; the Senate is to advise and consent to appointments, and the House of Representatives is to accuse and prosecute faithless officers. The best interest of the public service demands that these distinctions be respected; that Senators and Representatives who may be judges and accusers should not dictate appointments to office. The invariable rule in appointments should have reference to the honesty, fidelity and capacity of the appointees, giving to the party in power those places where harmony and vigor of administration require its policy to be represented, but permitting all others to be filled by persons selected with sole reference to the efficiency of the public service, and the right of all citizens to share in the honor of rendering faithful service to the country.

6. We rejoice in the quickened conscience of the people concerning political affairs, and will hold all public officers to a rigid responsibility, and engage that the prosecution and punishment of all who betray official trusts shall be swift, thorough and unsparring.

7. The public school system of the several States is the bulwark of the American Republic, and with a view to its security and permanence we recommend an amendment to the Constitution of the United States forbidding the application of any public funds or property for the benefit of any schools or institutions under sectarian control.

8. The revenue necessary for current expenditures and the obligations of the public debt must be largely derived from duties upon importations, which, so far as possible, should be adjusted to promote the interests of American labor and advance the prosperity of the whole country.

9. We reaffirm our opposition to further grants of the public lands to corporations and monopolies, and demand that the National domain be devoted to free homes for the people.

10. It is the imperative duty of the Government so to modify existing treaties with European Governments, that the same protection shall be afforded to the adopted American citizen that is given to the native born; and that all necessary laws should be passed to protect emigrants in the absence of power in the States for that purpose.

11. It is the immediate duty of Congress to fully investigate the effect of the immigration and importation of Mongolians upon the moral and material interests of the country.

12. The Republican party recognizes with approval the substantial advances recently made towards the establishment of equal rights for women by the many important amendments effected by Republican Legislatures in the laws which concern the personal and property relations of wives, mothers and widows, and by the appointment and election of women to the superintendence of education, charities and other public trusts. The honest demands of this class of citizens for additional rights, privileges and immunities should be treated with respectful consideration.

13. The Constitution confers upon Congress sovereign power over the Territories of the United States for their government, and in the

exercise of this power it is the right and duty of Congress to prohibit and extirpate, in the Territories, that relic of barbarism—polygamy; and we demand such legislation as shall secure this end and the supremacy of American institutions in all the Territories.

14. The pledges which the Nation has given to her soldiers and sailors must be fulfilled, and a grateful people will always hold those who imperiled their lives for the country's preservation, in the kindest remembrance.

15. We sincerely deprecate all sectional feeling and tendencies. We therefore note with deep solicitude that the Democratic party counts, as its chief hope of success, upon the electoral vote of a united South, secured through the efforts of those who were recently arrayed against the Nation; and we invoke the earnest attention of the country to the grave truth that a success thus achieved would reopen sectional strife and imperil National honor and human rights.

16. We charge the Democratic party with being the same in character and spirit as when it sympathized with treason; with making its control of the House of Representatives the triumph and opportunity of the Nation's recent foes; with reasserting and applauding in the National Capitol the sentiments of unrepentant rebellion; with sending Union soldiers to the rear, and promoting Confederate soldiers to the front; with deliberately proposing to repudiate the plighted faith of the Government; with being equally false and imbecile upon the overshadowing financial questions; with thwarting the ends of justice by its partisan mismanagements and obstruction of investigation; with proving itself, through the period of its ascendancy in the Lower House of Congress, utterly incompetent to administer the Government; and we warn the country against trusting a party thus alike unworthy, recreant and incapable.

17. The National Administration merits commendation for its honorable work in the management of domestic and foreign affairs, and President Grant, deserves the continued hearty gratitude of the American people for his patriotism and his eminent services, in war and in peace.

Upon the reading of the resolutions, EDWARD L. PIERCE, of Massachusetts, moved to strike out the eleventh resolution; which, after debate, was disagreed to—yeas 215; nays 532.

EDMUND J. DAVIS, of Texas, moved to strike out the fourth resolution and substitute for it the following:

*Resolved*, That it is the duty of Congress to provide for carrying out the act known as the Resumption Act of Congress, to the end that the resumption of specie payments may not be longer delayed.

Which, after a brief debate, was disagreed to on a *vela voce* vote.

The candidates were: RUTHERFORD B. HAYES, of Ohio, for President; WILLIAM A. WHEELER, of New York, for Vice-President.

### Democratic Platform.

[Adopted by the Democratic National Convention at St. Louis, June 28.]

We, the delegates of the Democratic party of the United States, in National Convention as-

sembled, do hereby declare the administration of the Federal Government to be in urgent need of immediate reform; do hereby enjoin upon the nominees of this Convention, and of the Democratic party in each State, a zealous effort and co-operation to this end; and do hereby appeal to our fellow citizens of every former political connection to undertake with us this first and most pressing patriotic duty.

For the Democracy of the whole country, we do here reaffirm our faith in the permanence of the Federal Union, our devotion to the Constitution of the United States, with its amendments universally accepted as a final settlement of the controversies that engendered civil war, and do here record our steadfast confidence in the perpetuity of republican self-government.

In absolute acquiescence in the will of the majority—the vital principle of republics; in the supremacy of the civil over the military authority; in the total separation of Church and State for the sake alike of civil and religious freedom; in the equality of all citizens before just laws of their own enactment; in the liberty of individual conduct, unvexed by sumptuary laws; in the faithful education of the rising generation, that they may preserve, enjoy, and transmit these best conditions of human happiness and hope, we behold the noblest products of a hundred years of changeful history; but while upholding the bond of our union and great charter of these our rights, it behooves a free people to practice also that eternal vigilance which is the price of liberty.

Reform is necessary to rebuild and establish in the hearts of the whole people, the Union, eleven years ago happily rescued from the danger of a secession of States; but now to be saved from a corrupt centralism, which, after inflicting upon ten States the rapacity of carpet-bag tyrannies, has honeycombed the offices of the Federal Government itself with incapacity, waste, and fraud, infected States and municipalities with the contagion of misrule, and locked fast the prosperity of an industrious people in the paralysis of "hard times."

Reform is necessary to establish a sound currency, restore the public credit, and maintain the national honor.

We denounce the failure, for all these eleven years of peace, to make good the promise of the legal tender notes, which are a changing standard of value in the hands of the people, and the non-payment of which is a disregard of the plighted faith of the nation.

We denounce the improvidence which, in eleven years of peace, has taken from the people in Federal taxes thirteen times the whole amount of the legal tender notes, and squandered four times their sum in useless expense, without accumulating any reserve for their redemption.

We denounce the financial imbecility and immorality of that party, which, during eleven years of peace, has made no advance toward resumption, no preparation for resumption, but instead has obstructed resumption, by wasting our resources and exhausting all our surplus income; and, while annually professing to intend a speedy return to specie payments, has annually enacted fresh hindrances thereto. As such a

hindrance we denounce the resumption clause of the act of 1875 and we here demand its repeal.

We demand a judicious system of preparation by public economies, by official retrenchments, and by wise finance, which shall enable the nation soon to assure the whole world of its perfect ability, and its perfect readiness to meet any of its promises at the call of the creditor entitled to payment.

We believe such a system, well devised, and, above all, intrusted to competent hands for execution, creating at no time an artificial scarcity of currency, and at no time alarming the public mind into a withdrawal of that vaster machinery of credit by which ninety-five per cent. of all business transactions are performed—a system open, public, and inspiring general confidence, would from the day of its adoption bring healing on its wings to all our harassed industries, set in motion the wheels of commerce, manufactures, and the mechanic arts, restore employment to labor, and renew in all its natural sources the prosperity of the people.

Reform is necessary in the sum and mode of Federal taxation, to the end that capital may be set free from distrust, and labor lightly burdened.

We denounce the present Tariff, levied upon nearly 4,000 articles, as a masterpiece of injustice, inequality and false pretense. It yields a dwindling, not a yearly rising revenue. It has impoverished many industries to subsidize a few. It prohibits imports that might purchase the products of American labor. It has degraded American commerce from the first to an inferior rank on the high seas. It has cut down the sales of American manufactures at home and abroad, and depleted the returns of American agriculture—an industry followed by half our people. It costs the people five times more than it produces to the Treasury, obstructs the processes of production, and wastes the fruits of labor. It promotes fraud, fosters smuggling, enriches dishonest officials, and bankrupts honest merchants. We demand that all Custom House taxation shall be only for revenue.

Reform is necessary in the scale of public expenses—Federal, State, and Municipal. Our Federal taxation has swollen from sixty millions, gold, in 1860, to four hundred and fifty millions, currency, in 1870; our aggregate taxation from one hundred and fifty-four millions, gold, in 1860, to seven hundred and thirty millions, currency, in 1870; or, in one decade, from less than five dollars per head to more than eighteen dollars per head. Since the peace, the people have paid to their tax gatherers more than thrice the sum of the national debt, and more than twice that sum for the Federal Government alone. We demand a rigorous frugality in every department, and from every officer of the Government.

Reform is necessary to put a stop to the profligate waste of public lands, and their diversion from actual settlers by the party in power, which has squandered 200,000,000 of acres upon railroads alone, and out of more than thrice that aggregate has disposed of less than a sixth directly to tillers of the soil.

Reform is necessary to correct the omissions of a Republican Congress, and the errors of our treaties and our diplomacy, which have stripped

our fellow citizens of foreign birth and kindred race, recrossing the Atlantic, of the shield of American citizenship, and have exposed our brethren of the Pacific coast to the incursions of a race not sprung from the same great parent stock, and in fact now by law denied citizenship through naturalization, as being neither accustomed to the traditions of a progressive civilization nor exercised in liberty under equal laws. We denounce the policy which thus discards the liberty-loving German and tolerates a revival of the coolie trade in Mongolian women imported for immoral purposes, and Mongolian men held to perform servile labor contracts, and demand such modification of the treaty with the Chinese Empire, or such legislation within constitutional limitations, as shall prevent further importation or immigration of the Mongolian race.

Reform is necessary, and can never be effected but by making it the controlling issue of the elections, and lifting it above the two false issues with which the office-holding class and the party in power seek to smother it:

1. The false issue with which they would enkindle sectarian strife in respect to the public schools, of which the establishment and support belong exclusively to the several States, and which the Democratic party has cherished from their foundation, and is resolved to maintain without prejudice or preference for any class, sect, or creed, and without largesses from the treasury to any.

2. The false issue by which they seek to light anew the dying embers of sectional hate between kindred peoples once estranged, but now reunited in one indivisible republic and a common destiny.

Reform is necessary in the Civil Service. Experience proves that efficient, economical conduct of the governmental business is not possible if its civil service be subject to change at every election, be a prize fought for at the ballot box, be a brief reward of party zeal, instead of posts of honor assigned for proved competency, and held for fidelity in the public employ; that the dispensing of patronage should neither be a tax upon the time of all our public men, nor the instrument of their ambition. Here, again, promises, falsified in the performance, attest that the party in power can work out no practical or salutary reform.

Reform is necessary even more in the higher grades of the public service. President, Vice-President, Judges, Senators, Representatives, Cabinet officers, these and all others in authority are the people's servants. Their offices are not a private perquisite, they are a public trust.

When the annals of this Republic show the disgrace and censure of a Vice-President; a late Speaker of the House of Representatives, marketing his rulings as a presiding officer; three Senators profiting secretly by their votes as law makers; five chairmen of the leading committees of the late House of Representatives exposed in jobbery; a late Secretary of the Treasury forcing balances in the public accounts; a late Attorney General misappropriating public funds; a Secretary of the Navy enriched or enriching friends by percentages levied off the profits of contractors with his department; an ambassador to England censured in a dishonorable specula-

tion; the President's private secretary barely escaping conviction upon trial for guilty complicity in frauds upon the revenue; a Secretary of War impeached for high crimes and misdemeanors—the demonstration is complete, that the first step in reform must be the people's choice of honest men from another party, lest the disease of one political organization infect the body politic, and lest by making no change of men or parties we get no change of measures and no real reform.

All these abuses, wrongs and crimes, the product of sixteen years' ascendancy of the Republican party, create a necessity for reform confessed by Republicans themselves; but their reformers are voted down in conventions and displaced from the Cabinet. The party's mass of honest voters is powerless to resist the 50,000 officeholders, its leaders and guides.

Reform can only be had by a peaceful civil revolution. We demand a change of system, a change of administration, a change of parties, that we may have a change of measures and of men.

*Resolved*, That this Convention, representing the Democratic party of the United States, do cordially indorse the action of the present House of Representatives in reducing and curtailing the expenses of the Federal Government, in cutting down salaries, extravagant appropriations, and in abolishing useless offices and places not required by the public necessities, and we shall trust to the firmness of the Democratic members of the House that no committee of conference and no misinterpretation of the rules will be allowed to defeat these wholesome measures of economy demanded by the country.

*Resolved*, That the soldiers and sailors of the Republic, and the widows and orphans of those who have fallen in battle, have a just claim upon the care, protection and gratitude of their fellow-citizens. Pending the report,

Mr. THOMAS EWING, of Ohio, presented the following minority report:

The undersigned members of the Committee recommend that the following clause in the resolutions reported by the Committee be stricken out: "As such hindrance we denounce the resumption clause of the act of 1875 and we here demand its repeal." And they recommend that there be substituted for that clause the following: "The law for the resumption of specie payments on the 1st of January, 1879, having been enacted by the Republican party without deliberation in Congress or discussion before the people, and being both ineffective to secure its objects and highly injurious to the business of the country, ought to be forthwith repealed."

After debate, the Convention rejected the minority report—yeas, 219; nays, 550.

The Platform, as reported, was then adopted—yeas, 651; nays, 83.

The candidates were: SAMUEL J. TILDEN, of New York, for President; THOMAS A. HENDRICKS, of Indiana, for Vice-President.

### **"Greenback" National Platform.** [Adopted at a National Mass Convention at Indianapolis, May 18.]

The Independent party is called into existence by the necessities of the people, whose industries are prostrated, whose labor is deprived of its just reward by a ruinous policy which the Re-

publican and Democratic parties refuse to change, and in view of the failure of these parties to furnish relief to the depressed industries of the country, thereby disappointing the just hopes and expectations of the suffering people, we declare our principles and invite all independent and patriotic men to join our ranks in this movement for financial reform and industrial emancipation:

*First*. We demand the immediate and unconditional repeal of the specie resumption act of January 14, 1875, and the rescue of our industries from ruin and disaster resulting from its enforcement; and we call upon all patriotic men to organize in every Congressional District of the country with a view of electing representatives to Congress who will carry out the wishes of the people in this regard, and stop the present suicidal and destructive policy of contraction.

*Second*. We believe that a United States note issued directly by the Government and convertible on demand into United States obligations, bearing a rate of interest not exceeding one cent a day on each one hundred dollars, and exchangeable for United States notes at par, will afford the best circulating medium ever devised. Such United States notes should be full legal-tenders for all purposes, except for the payment of such obligations as are by existing contracts especially made payable in coin, and we hold that it is the duty of the Government to provide such circulating medium, and insist, in the language of Thomas Jefferson, that "bank paper must be suppressed and the circulation restored to the nation, to whom it belongs."

*Third*. It is the paramount duty of the Government, in all its legislation, to keep in view the full development of all legitimate business, agricultural, mining, manufacturing and commercial.

*Fourth*. We most earnestly protest against any further issue of gold bonds for sale in foreign markets, by which we would be made for a long period "hewers of wood and drawers of water" to foreigners, especially as the American people would gladly and promptly take at par all bonds the Government may need to sell, provided they are made payable at the option of the holder and bearing interest at 3.65 per cent. per annum, or even a lower rate.

*Fifth*. We further protest against the sale of Government bonds for the purpose of purchasing silver to be used as a substitute for our more convenient and less fluctuating fractional currency, which, although well calculated to enrich owners of silver mines, yet in operation it will still further oppress in taxation an already over-burdened people.

A subsequent resolution against railroad subsidies was adopted.

Their candidates were: PETER COOPER, of New York, for President; SAMUEL F. CARY, of Ohio, for Vice-President.

### **"Prohibition" National.**

[Adopted by a Convention at Cleveland, May 17.]

The Prohibition Reform party of the United States, organized in the name of the people, to revive, enforce and perpetuate in the Government the doctrines of the Declaration of Independence, submit in this Centennial year of the Republic for the suffrages of all good citizens the

following platform of national reforms and measures:

*First.* The legal prohibition in the District of Columbia, the Territories, and in every other place subject to the laws of Congress, of the importation, exportation, manufacture and traffic of all alcoholic beverages, as high crimes against society; an amendment of the national Constitution to render these prohibitory measures universal and permanent; and the adoption of treaty stipulations with foreign powers to prevent the importation and exportation of all alcoholic beverages.

*Second.* The abolition of class legislation and of special privileges in the Government, and the adoption of equal suffrage and eligibility to office without distinction of race, religious creed, property or sex.

*Third.* The appropriation of the public lands in limited quantities to actual settlers only; the reduction of the rates of inland and ocean postage; of telegraphic communication; of railroad and water transportation and travel to the lowest practical point by force of laws, wisely and justly framed, with reference not only to the interests of capital employed, but to the higher claims of the general good.

*Fourth.* The suppression, by laws, of lotteries and gambling in gold, stocks, produce and every form of money and property, and the penal inhibition of the use of the public mails for advertising schemes of gambling and lotteries.

*Fifth.* The abolition of those foul enormities, polygamy and the social evil, and the protection of purity, peace and happiness of homes by ample and efficient legislation.

*Sixth.* The national observance of the Christian Sabbath, established by laws prohibiting ordinary labor and business in all departments of public service and private employment (works of necessity, charity and religion excepted), on that day.

*Seventh.* The establishment by mandatory provisions in National and State constitutions, and by all necessary legislation, of a system of free public schools for the universal and forced education of all the youth of the land.

*Eighth.* The free use of the Bible, not as a ground of religious creeds, but as a text-book of purest morality, the best liberty and the noblest literature, in our public schools, that our children may grow up in its light, and that its spirit and principles may pervade our nation.

*Ninth.* The separation of the Government in all its departments and institutions, including the public schools and all funds for their maintenance, from the control of every religious sect or other association, and the protection alike of all sects by equal laws, with entire freedom of religious faith and worship.

*Tenth.* The introduction into all treaties hereafter negotiated with foreign governments, of a provision for the amicable settlement of international difficulties by arbitration.

*Eleventh.* The abolition of all barbarous modes and instruments of punishment. The recognition of the laws of God and the claims of humanity in the discipline of jails and prisons, and of that higher and wiser civilization worthy of our age and nation, which regards the reform of criminals as a means for the prevention of crime.

*Twelfth.* The abolition of executive and legis-

lative patronage, and the election of President, Vice-President, United States Senators, and of all civil officers, so far as practicable, by the direct vote of the people.

*Thirteenth.* The practice of a friendly and liberal policy to immigrants from all nations, the guaranty to them of ample protection, and of equal rights and privileges.

*Fourteenth.* The separation of the money of Government from all banking institutions. The National Government only should exercise the high prerogative of issuing paper money, and that should be subject to prompt redemption on demand, in gold and silver, the only equal standards of value recognized by the civilized world.

*Fifteenth.* The reduction of the salaries of public officers in a just ratio with the decline of wages and market prices, the abolition of sinecures, unnecessary offices and official fees and perquisites; the practice of strict economy in government expenses, and a free and thorough investigation into any and all alleged abuses of public trusts.

Their candidates were: GREEN CLAY SMITH, of Kentucky, for President; GIBSON T. STEWART, of Ohio, for Vice-President.

### "The American" National.

[Adopted, in mass meeting, Pittsburgh, June 9, 1875.]

We hold: 1. That ours is a Christian and not a heathen nation, and that the God of the Christian Scriptures is the author of civil government.

2. That God requires and man needs a Sabbath.

3. That the prohibition of the importation, manufacture and sale of intoxicating drinks as a beverage, is the true policy on the temperance question.

4. The charters of all secret lodges granted by our Federal and State Legislatures should be withdrawn, and their oaths prohibited by law.

5. That the civil equality secured to all American citizens by article 13th, 14th and 15th of our amended Constitution should be preserved inviolate.

6. That arbitration of differences with nations is the most direct and sure method of securing and perpetuating a permanent peace.

7. That to cultivate the intellect without improving the morals of men, is to make mere adepts and experts: therefore the Bible should be associated with books of science and literature in all our educational institutions.

8. That land and other monopolies should be discountenanced.

9. That the Government should furnish the people with an ample and sound currency, and a return to specie payment as soon as practicable.

10. That maintenance of the public credit, protection to all loyal citizens, and justice to Indians are essential to the honor and safety of our nation.

11. And finally, we demand for the American people the abolition of Electoral Colleges, and a direct vote for President and Vice-President of the United States.

Their candidates were: JAMES R. WALKER, Whenton, Ill., for President; and DONALD KIRKPATRICK, Syracuse, N. Y., for Vice-President.

## ABSTRACT OF PUBLIC LAWS,

PASSED AT THE FIRST SESSION OF THE FORTY-FOURTH CONGRESS.

**Chap. V.**—*An act to amend the Revised Statutes relating to Naturalization.*—The declaration of intention to become a citizen of the United States, required by sec. 2165 of the Rev. Stat. may be made by an alien before the clerk of any of the courts named in said section. All declarations heretofore made before any such clerk are declared legal and valid.

**Chap. LVI.**—*An act to amend section 1044 of the Revised Statutes relating to limitations in criminal cases.*—That said section be amended so as to read: No person shall be prosecuted, tried or punished for any offense, not capital, except as provided in section 1046, unless the indictment is found, or the information is instituted within three years next after such offense shall have been committed.

**Chap. CIV.**—*An act to extend the time to preceptors of the public lands.*—Whenever any preceptor on public lands shall make satisfactory proof at the local land office, that the crops upon the land occupied by him have been destroyed by grasshoppers within two years prior to the passage of this act, the time for making final proof and payment is extended two years.

**Chap. CXXXIII.**—*An act to amend sec. 5271 Rev. Stat., relating to extradition.*—In cases of complaint and of a hearing upon the return of the warrant of arrest, any depositions, warrants, or other papers offered in evidence, shall be admitted if properly and legally authenticated, according to the laws of the foreign country from which the criminal has escaped.

**Chap. CLXVI.**—Extends the time for filing claims for additional bounty until July 1st, 1890.

**Chap. CLXXIX.**—Post Office Appropriation Bill, sec. 15, provides "that transient newspapers and magazines, regular publications designed primarily for advertising purposes, or for free circulation at nominal rates, and all printed matter of the third class, except unsealed circulars, shall be admitted to and transmitted through the mails at the rate of one cent for every two ounces or fractional part thereof, and one cent for each two additional ounces or fractional part thereof, and the sender of any article of the third class of mail matter may write his or her name or address therein, or on the outside thereof, with the word 'from' above or preceding the same, or may write briefly or print on any package the number and names of the articles inclosed. Publishers of newspapers or periodicals may print on the wrapper of newspaper or magazine sent from the office of publication to regular subscribers, the time to which subscription therefor has been paid. Any addresses upon postal cards and unsealed circulars, may be either written, printed or affixed thereto, at the option of the sender."

**Chp. CCXXXIV.**—*An act amendatory of the Bankrupt Act.*—After the word "committed," in line 44 of sec. 12, act of June 22d, 1874, insert: *Provided also*, That no voluntary assignment by a debtor or debtors, of all his or their property, heretofore or hereafter made in good faith for the benefit of all his or their creditors, ratably and without creating any preference, and valid according to the laws of the State where made, shall of itself, in the event of his or their being subsequently adjudicated bankrupts in a proceeding of involuntary bankruptcy, be a bar to the discharge of such debtor or debtors.

Sec. 5108 of Rev. Stat. is amended so as to read: At any time after the expiration of six months from the adjudication of bankruptcy, or if no debts have been proved against the bankrupt, or if no assets have come to the hands of the assignee, at any time after the expiration of sixty days, and before the final disposition of the cause, the bankrupt may apply to the court for a discharge from his debts.

*Joint Resolution (17) for the issue of silver coin (p. 215 of Statutes).*

Sec. 1. Authorizes the Secretary of the Treasury to issue silver coin at any time in the Treasury, to an amount not exceeding \$10,000,000, in exchange for an equal amount of legal tender notes; such notes shall be kept as a separate fund, only to be reissued upon the retirement and destruction of a like sum of fractional currency.

Sec. 2. The trade dollar shall not hereafter be a legal tender, and the Secretary of the Treasury is authorized to limit the coinage thereof.

Sec. 3. Legalizes the manufacture and issue of silver coin, to an amount, including the amount of subsidiary silver coin and of fractional currency outstanding, not exceeding, at any time, fifty million dollars.

Sec. 4. Provides for the purchase of silver bullion, from time to time, at market rates. Approved July 22, 1876.

**Chap. LXIII.**—Directs the Secretary of the Treasury to give silver coins of U. S., of ten, twenty, twenty-five and fifty cents standard value, in redemption of an equal amount of fractional currency, whether the same be now in the Treasury awaiting redemption, or whenever it may be presented for redemption; and the Secretary may provide for such redemption and issue by substitution at the regular subtreasuries and public depositories until the whole amount of fractional currency outstanding shall be redeemed. And the fractional currency redeemed under this act shall be held to be a part of the sinking fund provided for by existing law, the interest to be computed thereon as in the case of bonds redeemed under the act relating to the sinking fund. Approved April 17, 1876.

Previous to the election of 1804, each elector voted for two candidates for President, and the person receiving the highest number of votes, if a majority of the whole number of electors, was declared to be President; and the person having the next highest number was Vice-President. At the first election, 1788, there were 69 electors, all of whom voted for Washington, and 34 for JOHN ADAMS, and there were 35 "scattering" votes, of which JOHN JAY, of N. Y., received 6, ROBERT H. HARRISON 6, JOHN RUTLEDGE, of S. C., 6, JOHN HANCOCK, of Mass., 4, GEORGE CLINTON, of N. Y., 3, SAMUEL HUNTINGTON, of Conn., 2, JOHN MILTON 2, JAMES ARMSTRONG, of Penn., 1, EDWARD TELFAIR, of Georgia, 1, and BENJAMIN LINCOLN 1. At this elec-

tion, three States did not vote, viz.: New York (2) which had not passed an electoral law, North Carolina (2) which had not adopted the Constitution, and Rhode Island (3). In 1792, 4 votes were cast for THOMAS JEFFERSON (of Virginia), and 1 for AARON BURR (of New York). In 1796, of the 40 "scattering," SAMUEL ADAMS (of Mass.) had 15, OLIVER ELLSWORTH (of Conn.) 17, GEORGE CLINTON (of N. Y.) 7, JOHN JAY (of N. Y.) 5, JAMES IREDELL (of N. C.) 3, GEORGE WASHINGTON (of N. C.) 2, SAMUEL JOHNSTON (of N. C.) 2, JOHN HENRY (of Md.) 2, and CHARLES COTTEWORTH PINCKNEY (of S. C.) 1. In 1800, there having been a tie vote between THOMAS JEFFERSON and AARON BURR, in the College, the choice devolved upon the House of Representatives, which, on the 36th ballot, on the 17th of February, 1801, being the sixth day devoted to balloting, elected THOMAS JEFFERSON President, ten States concurring, viz.: Georgia, Kentucky, Maryland, New Jersey, New York, North Carolina, Pennsylvania, Tennessee, Vermont, and Virginia. The States of Connecticut, Massachusetts, New Hampshire, and Rhode Island voted for Mr. BURR; and Delaware and South Carolina voted by blank ballots. Mr. BURR became the Vice-President. In the Electoral College, John Jay (of N. Y.) received 1 vote.

In 1808, George Clinton (of N. Y.) received 6 votes for President, and for Vice-President John Langdon (of N. H.) received 4, and James Madison (of Va.) and James Monroe (of Va.) each 3. In 1816, there was no regular Federal opposition to Daniel D. Tompkins (of N. Y.) for Vice-President, but there were 31 "scattering" votes, of which John E. Howard (of Md.) had 22, James Ross (of Penn.) 5, John Marshall (of Va.) 4, and Robert G. Harper (of Md.) 3. In 1820, there was no organized opposition to Mr. Madison and Mr. Tompkins, but one vote (from New Hampshire) was cast for John Quincy Adams (of Mass.) for President, and one elector in Pennsylvania, Tennessee and Mississippi each, having died, failed to vote for President; for Vice-President, 8 votes were cast for Richard Stockton of New Jersey, 4 for Dauter Rodney of Delaware, 1 for Robert G. Harper of Maryland, and 1 for Richard Rush of Pennsylvania. The electoral College consisted of 232, without Missouri, whose formal admission was not proclaimed by the President till August 10, 1821, or 235 with it. As Mr. Madison and Mr. Tompkins had a majority in the event of either counting or excluding the vote of Missouri, they were declared elected President and Vice-President.

In 1824; no choice having been made of President by the Electoral College, the House of Representatives chose from the three highest in vote. On the first ballot, JOHN QUINCY ADAMS received the votes of Connecticut, Illinois, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Missouri, New Hampshire, New York, Ohio, Rhode Island, and Vermont—13; ANDREW JACKSON received the votes of Alabama, Indiana, Mississippi, New Jersey, Pennsylvania, South Carolina, and Tennessee—7; WILLIAM H. CRAWFORD received the votes of Delaware, Georgia, North Carolina, and Virginia—4; and Mr. ADAMS was declared elected. For Vice-President, ANDREW JACKSON had 13 votes—8 from Connecticut, 3 from Missouri, 1 from Maryland, and 1 from New Hampshire; MARTIN VAN BUREN of New York, 9 from Georgia; and HENRY CLAY of Kentucky, 2 from Delaware. In 1828, WILLIAM SMITH, of South Carolina, had 7 votes from Georgia, for Vice-President. In 1832, for Vice-President, WILLIAM WILKINS, of Pennsylvania, had 80 votes from Pennsylvania; HENRY LEE, of Massachusetts, 11 from South Carolina; and AMOS ELLMAKER, of Pennsylvania, 7 from Vermont. Two votes in favor of Mr. CLAY for President, and Mr. SERGEANT for Vice-President, were lost because of the illness of two of the electors chosen in Maryland, the State law not having given power to fill vacancies. In 1836, no candidate for Vice-President having received a majority of the votes of the Electoral College (which being 294 with Michigan counted, required 148 for a majority, or 291 without Michigan, required 146 for a majority, in either event there being no majority for any one) the Senate elected RICHARD M. JOHNSON, of Kentucky, who received 33 votes, and FRANCIS GRANGER, 16. As the Electoral College consisted of 291 without Michigan, whose formal admission was declared by act of Congress approved January 26, 1837, or 294 with it, and Mr. VAN BUREN received 167 votes without it, or 170 with it, and that vote did not affect the result; the vote was announced in the alternative, and Mr. VAN BUREN's election proclaimed. In 1840, 11 votes from South Carolina were cast for Vice-President, for LITTLETON W. TAZEWELL, of Virginia, and 1 vote from Virginia for JAMES K. POLK of Tennessee. In 1856, it appears from the record that the electors of Wisconsin cast their votes on the 4th day of December, instead of the 8d. The teller on the part of the House reported that fact, in his statement to the president of the two houses, and indicated the figures given above as the result, including the 5 votes of Wisconsin; and the presiding officer deciding out of order all debate, on a suggestion as to the propriety of rejecting said vote, proceeded to declare that Mr. BUCHANAN had received 174 votes, Mr. FREMONT 114, and Mr. FILLMORE 8; and that Mr. BUCHANAN, having the greatest number of votes for President, that number being a majority of the whole number of electors, had been duly elected President. The subject of the counting of Wisconsin was debated in each house, after adjournment of the joint meeting, but it was finally tabled without action by either. In 1864, the return from Nevada showed the vote of but two electors, one having died after his election, and the law of the State not providing the authority to fill the vacancy. After reading the returns given above, the Vice-

President (Mr. HAMLEN), on inquiry made, stated that he had "in his possession returns from the States of Louisiana and Tennessee, but in obedience to the law of the land, the chair holds it to be his duty not to present them." This "law of the land" was a joint resolution, approved February 8, 1865—the day of the counting—resolving that, whereas the inhabitants and local authorities of the States of Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas, Arkansas, and Tennessee rebelled against the Government of the United States, and were in such condition on the 8th of November, 1864, that no valid election of electors of President and Vice-President of the United States, according to the Constitution and laws thereof, was held therein on said day; therefore the States mentioned are not entitled to representation in the Electoral College for the choice of President and Vice-President of the United States, for the term commencing March 4th, 1865, and no electoral votes shall be received and counted from said States for said term. Mr. LINCOLN, in a message announcing his approval, disclaimed all power in the executive to defeat or obstruct the power in the two Houses of Congress, under the twelfth amendment, to exclude from the count all electoral votes deemed by them to be illegal, or in any way to interfere with the canvassing or counting the electoral vote; and said he signed the joint resolution in deference to the view of Congress implied in its passage and presentation to him. In 1868, the two houses adopted a concurrent resolution, reciting that whereas the question whether the State of Georgia has become and is entitled to representation in the two Houses of Congress is now pending and undetermined, if the counting or omitting to count the electoral vote of Georgia shall not essentially change the result, the result shall be reported as in the alternative by the presiding officer of the two houses. Counting it, SEYMOUR and BLAIR had each 80 votes; excluding it, they had each 71 votes. In 1872, the full vote of the Electoral College for President was 366, of which 17 were excluded, being the 8 votes of Louisiana (the two houses concurring), the 6 votes of Arkansas (the Senate voting to reject and the House to receive), and 8 votes cast in Georgia for Horace Greeley, he being then dead, (the Senate voting to receive and the House to reject). The votes counted on President were 349, on Vice-President, 352. On the latter, there were these additional votes: 5 from Georgia, for ALFRED H. COLQUITT, of Georgia; 5 from Missouri, for GEORGE W. JULIAN, of Indiana; 8 from Kentucky, for THOMAS E. BRAMLETTE, of Kentucky; 3 from Missouri, for JOHN M. PALMER, of Illinois; 1 from Georgia, for NATHANIEL P. BANKS, of Massachusetts; 1 from Missouri, for WILLIAM S. GROESBECK, of Ohio; and 1 from Kentucky, for WILLIS B. MACHEN, of Kentucky. In 1876, the vote is given as believed to have been legally cast. It will be officially declared in February.

### The Twenty-second Joint Rule.

This rule was adopted February 6, 1865, and is as follows:

22. The two houses shall assemble in the hall of the House of Representatives at the hour of 1 o'clock P. M. on the second Wednesday in Feb-

ruary next succeeding the meeting of the electors of President and Vice-President of the United States, and the president of the Senate shall be their presiding officer; one teller shall be appointed on the part of the Senate, and two on the part of the House of Representatives, to whom shall be handed, as they are opened, by the president of the Senate, the certificates of the electoral votes; and said tellers having read the same in the presence and hearing of the two houses thus assembled, shall make a list of the votes as they shall appear from the said certificates; and the votes having been counted, the result of the same shall be delivered to the president of the Senate, who shall thereupon announce the state of the vote and the names of the persons, if any elected; which announcement shall be deemed a sufficient declaration of the persons elected President and Vice-President of the United States, and, together with a list of the votes, be entered on the journals of the two houses.

If, upon the reading of any such certificate by the tellers, any question shall arise in regard to counting the votes therein certified, the same having been stated by the presiding officer, the Senate shall thereupon withdraw, and said question shall be submitted to that body for its decision; and the speaker of the House of Representatives shall, in like manner, submit said question to the House of Representatives for its decision. And no question shall be decided affirmatively, and no vote objected to shall be counted, except by the concurrent votes of the two houses; which being obtained, the two houses shall immediately reassemble, and the presiding officer shall then announce the decision of the question submitted; and upon any such question there shall be no debate in either house. And any other question pertinent to

the object for which the two houses are assembled may be submitted and determined in like manner.

At such joint meeting of the two houses seats shall be provided as follows: For the president of the Senate, the "speaker's chair;" for the speaker, a chair immediately upon his left; for the senators, in the body of the hall upon the right of the presiding officer; for the representatives, in the body of the hall not occupied by the senators; for the tellers, secretary of the Senate, and clerk of the House of Representatives, at the clerk's desk; for the other officers of the two houses, in front of the clerk's desk and upon either side of the speaker's platform.

Such joint meeting shall not be dissolved until the electoral votes are all counted and the result declared; and no recess shall be taken, unless a question shall have arisen in regard to counting any of such votes, in which case it shall be competent for either house, acting separately in the manner hereinbefore provided, to direct a recess not beyond the next day, at the hour of 1 o'clock P. M.

Under this rule, the counting of the electoral vote in 1865, 1869, and 1873, proceeded. At the first session of the present Congress—January 21, 1876—the Senate passed a concurrent resolution adopting the joint rules in force at the close of the previous session of Congress as the joint rules for that session, "excepting the twenty-second joint rule." The House failed to act on the resolution. The president of the Senate ruled, at this session of Congress, that there were, hence, no joint rules in operation. The speaker of the House ruled that the joint rules previously existing still existed. In the Senate, after debate, the decision of the president *pro tempore* was sustained, with but five recorded votes in the negative, and one paired.

The straight Democratic ticket (O'Connor) received 29,489 votes; and the Prohibition ticket (Black) 5,608—in 1874.

The "Anti-Secret Society ticket," in 1876, received 23 votes in Kansas, 285 in Illinois, 71 in Michigan, 76 in Ohio, 83 in Pennsylvania—539 in all. There were 1,778 votes returned as "scattering" in various States. In Michigan, there were 12,937 returned as "imperfect and scattering."

### U. S. Officers as Electors.

In view of the interest attaching to the questions growing out of the choice by the people of persons, as Presidential electors, who are disqualified under the provisions of the Constitution, the subjoined extracts are taken from the report of a committee in the U. S. Senate, February 4, 1837. The committee consisted of Felix Grundy, Henry Clay, and Silas Wright. Not having ascertained the identity of the persons, the committee say:

"The committee cannot adopt the opinion entertained by some, that a single illegal vote would vitiate the whole electoral vote of the college of electors in which it was given, particularly in cases where the vote of the whole college has been given for the same persons.

"The committee are of opinion that the second section of the second article of the Constitution, which declares that 'no Senator or Representative, or person holding an office of trust or profit under the United States, shall be appointed an elector,' ought to be carried in its whole spirit

into rigid execution, in order to prevent officers of the General Government from bringing their official power to influence the elections of President and Vice-President of the United States. This provision of the Constitution, it is believed, excludes and disqualifies deputy postmasters from the appointment of electors; and the disqualification relates to the time of the appointments, and that a resignation of the office of deputy postmaster after his appointment as elector would not entitle him to vote as elector under the Constitution.

"Should a case occur in which it became necessary to ascertain and determine upon the qualifications of electors of President and Vice-President of the United States, the important question would be presented, what tribunal would, under the Constitution, be competent to decide? Whether the respective colleges of electors in the different States should decide upon the qualifications of their own members, or Congress should exercise the power, is a question which the committee are of opinion ought to be settled by a permanent provision upon the subject."

ty he was voted for for "Repre-  
sentative in Congress," and in  
the other for "Member of Con-  
gress." Mr. Norton was qual-  
ified the first day of the session  
of the XLIVth Congress.]

\* In each of the counties marked with a \*, the returns by towns not having been sent to the Secretary of State, by the county clerks, up to the date of putting these pages to press, the town votes are not given.

## MINNESOTA—Cont'd.

Three amendments to the Constitution of the State were ratified at this election. One authorizes the Governor to veto certain items of appropriation of money, and approve others in any bill presented to him, subject to the action of two-thirds of each branch of the legislature, if in session, as in other vetoes. Another authorizes the Governor, or Lieutenant Governor if the Governor be an interested party, to assign district judges to sit on the supreme bench to hear cases in which all, or a majority of the supreme judges shall from any cause be disqualified from sitting. Another limits the liability of each stockholder in any corporation, to all unpaid installments on stock owned by him or transferred for the purpose of defrauding creditors.

Prior to the decision of the Supreme Court, and in the argument before the canvassing board, the counsel for the Democratic committee claimed changes and corrections in the returns, which would make Mr. Tilden's majority 1,197, and, in another contingency named, 2,219. Other claims were put forth of a majority of 791 for Tilden; 791 for Drew; 946 for Hull; of 597 for Congress in 1st District, and 216 in the 2d.

Below is a statement of the actual result alleged by the returning Board, as appearing from the "face of the returns" when opened by them, on the 28th of November last:

The figures certified Dec. 27 by the Board to the Supreme Court, were:

Governor, Marcellus L. Stearns, Rep.....	23,684
George F. Drew, Dem.....	24,179
Drew's majority.....	195
Lieut.-G., David Montgomery, Rep.....	23,895
Noble A. Hull, Dem.....	24,243
Hull's majority.....	348

On Congress the re-count does not change the footing in the 1st District, but it increases the majority of Bisbee, in the 2d, from 18 to 319, caused by the action of the Board regarding Baker and Clay counties. Bisbee's vote is placed at 11,337, Finley's 11,018.

#### SUBSEQUENT ACTION.

Two Legislatures were organized on the 1st of January, 1877. The one (the Republican), meets in the Capitol Building, and consists of 19 Senators and 68 Representatives. Of these, 8 Senators held over, and 11 were returned elected by the State Board of Canvassers. All the Representatives had certificates of election from the same Board.

The other (the Democratic), meets in a hall in the city, and consists of 21 Senators and 62 Representatives. Of the Senators 9 held over, 8 were returned elected by the State Canvassers, and 4, who claim to have been elected, but had no certificates from the State Canvassers. Of the Representatives, 40 were returned elected by the State Canvassers, and 22 claim to have been elected, but are without certificates of election from the State Canvassers. The Returning Board declared 71 Republicans elected, 46 Democrats and 3 vacancies. They returned 11 Republican Senators elected, and 8 Democrats.

On the 2d inst., in the Republican Legislature, in joint assembly, the returns of the election for Governor, as compiled by the Returning Board and furnished by the Secretary of State, were opened and read, and Mr. Packard was declared duly elected Governor, and Mr. Antoine Lieut. Governor. On the same day, in the Democratic Legislature, in joint assembly, the

vote of the State by parishes was read, and Francis T. Nicholls was declared duly elected Governor, and Louis A. Wiltz Lieut.-Governor. On the 8th of January each Governor declared elected took an oath of office and delivered an inaugural.

Wilson Cook\*..... 91432 90006 John B. Erwin.

Wm. F. Myers..... 91830 90860 Robert Aldrich.

Av. vote..... 91672 90856

\* By clerical error, Mr. Hurley's name was

omitted from one return in Charleston county.

These figures were those appearing on the "face of the returns," as made from the counties to the State Canvassing Board, and reported by the Board to the Supreme Court, under order so to do. Subsequently, a committee was appointed by the U. S. House of Representatives, to examine into the election of electors in South Carolina, who compiled a return made up from the precinct returns, as distinguished from the returns of the County Commissioners. This committee agree in reporting the result of the election, as follows:

Republicans.	Democrats.
Chris. C. Bowen, 92081	T. G. Barker, 91440
John Winsmith, 92117	Samuel M'Gowan, 91462
Thos. E. Johnston, 92128	J. W. Harrington, 91136
Timothy Hurley, 92110	John J. Ingram, 91446
Wm. B. Nash, 92085	Wm. Wallace, 91446
Wilson Cook, 92096	John B. Erwin, 91444
Wm. F. Myers, 92112	Robert Aldrich, 91400
Av. vote, 92104	91439

The lowest Republican Elector has a majority over the highest Democratic candidate, by the first count, of 230; by the second, of 619. The majority of the highest Republican over the highest Democrat is, by the first count, 964; by the second, 666. The average Republican majority, by the first count, is 816; by the second, 666.

The Democratic claim of the actual vote on Governor (including Edgefield and Laurens, thrown out by the Returning Board for violence, intimidation, and fraud), is as follows:

GOVERNOR.	
Daniel H. Chamberlain, Rep.	91127
Wade Hampton, Dem.	92261
Hampton's maj.	1134
LIEUT. GOVERNOR.	
Richard H. Gleaves, Rep.	91550
Wm. D. Simpson, Dem.	91589
Simpson's maj.	139

Two Legislatures were organized, each purported to count the vote for Governor and Lieut. Governor. One declared the Republican candidates elected; the other, the Democratic. Each candidate for Governor took an oath of office, and delivered an inaugural address, and each body chose a U. S. Senator to fill the vacancy to occur 3d of March, 1877. They have both adjourned.

As nearly as can be ascertained, the facts respecting the rival legislative bodies are as follow:

A full Senate consists of 33 persons. Of these, the election of 31 was regularly returned by the State Board of Canvassers, and certificates issued. Certificates were not issued to the two Democratic candidates in the counties of Edgefield and Laurens. Of the 33 Senators, 31 only had certificates. Of these, 18 were Republicans, and 13 Democrats.

A full House consists of 124 persons. Of these, 116 had regular certificates from the State Board of Canvassers, by whom certificates were refused to five claimants from Edgefield and three from Laurens. Of the 116 who had certificates, 59 participated in the organization of the Mackey House. That House afterwards seated the five Republican contestants in Barnwell, five in Abbeville, and four in Aiken. The election in Edgefield and Laurens was declared not valid. On the 12th of December, when a U. S. Senator was voted for, there were 68 present in the House, and 31 in the Senate, when Mr. Corbin received of the Senate 17, and M. W. Gary, 12; and of the House, 58 of 68 present.

and Mr. Cook's from one in Richland county, which accounts for the discrepancy between their vote and that of their colleagues.

The Hampton interest did not attempt to organize an independent Senate. But with their 57 regularly certified members, they united the five from Edgefield and three from Laurens, and with other changes obtained 63 persons, of whom, it was claimed, 60 had regular certificates. Gen. Wallace was elected Speaker. The number afterwards rose, by accessions, to 62, and to 63, and by defections fell again to 62. On the 19th of December, when M. C. Butler was voted for by them for U. S. Senator, they claimed to have 79 Senators and Representatives in the Joint Assembly, of whom 61 voted for Mr. Butler. The Democratic members of the Senate attended, though they, or most of them, participated in the election on the 12th, when David T. Corbin was chosen.

The following are the aggregates on other State officers, as declared by the Board of Canvassers:

<i>Lieut. Gov.</i>	Richard H. Gleaves, Rep.	86,620
	Wm. D. Simpson, Dem.	84,521
	Gleaves' majority	4,099
<i>Sec. of State.</i>	Henry E. Hayne, Rep.	91,676
	R. M. Simms, Dem.	91,449
	Hayne's maj.	227
<i>Treasurer</i>	Francis L. Cardozo, Rep.	91,485
	S. L. Leafhart, Dem.	91,277
	Cardozo's maj.	208
<i>Attorney Gen.</i>	Robt. B. Elliott, Rep.	91,146
	James Conner, Dem.	91,139
	Elliott's maj.	7
<i>Compt. Gen.</i>	Thos. C. Dunn, Rep.	91,176
	Johnson Hagood, Dem.	91,114
	Dunn's maj.	62
<i>Supt. of Educ.</i>	John R. Tolbert, Rep.	91,644
	Hugh S. Thompson, Dem.	91,554
	Tolbert's maj.	90
<i>Adjutant Gen.</i>	James Kennedy, Rep.	91,606
	E. W. Moise, Dem.	91,545
	Kennedy's maj.	61

On the return made by the Returning Board, to the Supreme Court, of the figures appearing "on the face of the returns," the differences from the above are these:

<i>Comptroller.</i>	Thos. C. Dunn, Rep.	90,858
	Johnson Hagood, Dem.	91,114
	Hagood's maj.	256
<i>Supt. of Educ.</i>	John R. Tolbert, Rep.	91,112
	Hugh S. Thompson, Dem.	91,554
	Thompson's maj.	442

The other results stated are the same.

#### Elected in *Italy*.

For vacancy in second district caused by the unseating of Edmund W. M. Mackey at first session of present Congress, the vote stood: Chas. W. Buttz, 21,378; M. P. O'Connor, Dem., 13,028. Up to this date, the House has failed to accept Mr. Buttz's credentials and permit him to qualify.

The following Joint Committee is considering the questions connected with counting the Electoral vote: SENATORS, Edmunds, Frelinghuysen, Morton, Conkling, Thurman, Bayard, Ransom. REPRESENTATIVES, Payne, Huntton, Hewitt, Springer, McCrary, Hoar, Willard. The Senate committee on Privileges and Elections are also investigating incidents of the Election; also a House committee of Messrs. Knott, Sparks, Tucker, Maish, Field, Burchard, Seelye, McDill, and Lawrence.

**R. HOE & CO.'S PATENT CHISEL TOOTH SAWS.**

The numerous voluntary testimonials we have received the past year from lumbermen in every section of the country justify us in saying that we have attained nearer to perfection in the manufacture of Inserted Tooth Saws, than has been hitherto thought possible. Our Patent Saws are now made from 13 to 6 gauge, and from 12 to 72 inches in diameter. The accompanying illustration shows the sockets and teeth employed for different purposes. The teeth are so readily changed that the saws never need be taken from the mandrel.

The figure at the left of the cut shows the lever applied, and the shank turned into the position required to receive a tooth. It will be seen that the projection on jaw C will engage with the notch in the tooth D, and the shank, when turned back, will carry the tooth with it into the socket, and stop against the shoulder.

## THE SEMI-WEEKLY TRIBUNE.

THE SEMI-WEEKLY TRIBUNE is published every Tuesday and Friday, and is accounted by its rapidly increasing number of subscribers and friends the best family newspaper in America. It is entirely different and better than a collection of matter from the columns of THE DAILY TRIBUNE. A large portion of its contents is prepared expressly for it, and includes much that appears in no other edition of THE TRIBUNE. In addition to a careful summary of the news, THE SEMI-WEEKLY contains all the best of the foreign and domestic correspondence and leading articles of the daily; gives specially the scientific intelligence (including the proceedings of all American scientific societies), with the best of the book reviews, and the miscellaneous matter relating to education, the arts, religion, etc. It has all the commercial news and market reports; all the agricultural articles of the weekly; and gives, moreover, regularly a serial work of fiction, presenting in the course of the year three or four of the latest productions of the most popular novelists. As it takes only a few select advertisements, it is enabled to give an unusually large proportion of reading matter, and may be called, considering the extent and variety of its contents, the cheapest newspaper in the world.

To that large and increasing class who are not content with a paper once a week, and whose circumstances or mail facilities will not permit a daily, THE SEMI-WEEKLY TRIBUNE will be found particularly acceptable. Teachers and public educators will find THE SEMI-WEEKLY TRIBUNE a daily help and necessity.

Specimen copies of either edition of THE TRIBUNE will be sent free on application.

# THE GREAT FAMILY PAPER.

THE

# New York Ledger

FOR THE NEW YEAR 1877.

The NEW YORK LEDGER, now one year older, but ever new, reminds its readers that the season has arrived for the renewal of their annual subscriptions.

Many of those who were children when they first began to read the LEDGER now have children of their own who read their favorite paper. There could hardly be a stronger testimonial to the excellence of its character than is thus given to the LEDGER by the regular renewal of these subscriptions.

Our great exertion for the coming year will be to make a volume that will compare favorably with the best of its predecessors.

The LEDGER is always alive and fresh and full of interest.

The stories for the coming year will be by the most popular of our old writers and the best of the new writers who have occasionally contributed to our columns.

The miscellaneous articles by eminent scholars and divines will be continued : so will our accurate scientific department.

We shall reply, as heretofore, to the innumerable questions sent to us on love and domestic affairs, and every variety of subject.

Wherever the LEDGER goes—and it goes nearly everywhere—it is generally conceded there is not a reader to whose happiness it does not minister.

*Our subscribers will have no postage to pay.* We prepay the postage on every paper that we mail.

## OUR TERMS FOR 1877.—POSTAGE FREE.

Single copies, \$3 per annum ; four copies, \$10, which is \$2.50 a copy ; eight copies, \$20, POSTAGE FREE. The party who sends us \$20 for a club of eight copies, (all sent at one time,) will be entitled to one-copy FREE. Postmasters and others who get up clubs, in their respective towns, can afterward add single copies at \$2.50. No subscriptions taken for a less period than one year. When a draft or money order can conveniently be sent, it will be preferred, as it will prevent the possibility of the loss of money by mail. Remember that the postage on the LEDGER to all parts of the country will be paid by us, so that our subscribers will have no postage to pay.

 We employ no traveling agents. Address all communications to

# NEW YORK TRIBUNE.

"THE LEADING AMERICAN NEWSPAPER."

*The Paper for Business Men, Farmers, Families,  
and all the People.*

THE NEW YORK TRIBUNE is a live, intelligent, and thorough newspaper, publishing at the earliest moment, and often in advance of all other papers, all the news of the world.

It is candid and independent in its opinions and political convictions. It is not a party organ, and is outspoken in condemnation of fraud or corruption in any party; but its political principles are, as they always have been, essentially Republican, and are well embodied in Gov. Hayes's admirable letter of acceptance.

It is an excellent family paper. "Home Interests" has made it indispensable in many homes; and its Miscellany, Stories, Fashion Articles, and Dry Goods Market Reports, make it of daily use in every household. It is the best farmers' paper published, and the Weekly "has done more to make good farmers than any other single influence which ever existed."

It publishes full, fresh and accurate Market Reports—the price of every article bought and sold in the markets of the world from day to day.

In THE DAILY TRIBUNE special attention and liberal space are given to Literature, Art, Science, Education, Religious news and kindred topics, in each of which THE TRIBUNE has become a favorite medium of communication and a recognized authority, at home and abroad.

It is a complete newspaper, representing the progress, the advancement, and the interests of the American people.
